Dear Mr. Brown:

The Department of Water Administration has completed the processing of your claims to a water right, and no further action is authorized under Section 42-225a and 42-225b, Idaho Code. Your claims will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of a claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim files, you may have that information or evidence added at any time. Please refer to your claim numbers when corresponding with this office.

We are enclosing, for your records, copies of your claims. If you have any questions, or if we may be of any further assistance, feel free to contact us.

Very truly yours,

Dear Mr. Brown:

Enclosed are two Claim to a Water Right forms which we have typed from the information you submitted. We are unable to accept your Claim listing two sources of water on one form. We have therefore typed a Claim for the water being diverted from the Spokane River, and also a Claim for your well.

Please review all items on the Claims, making any corrections or additions that are needed. You will need to complete Item 4 on each Claim, which is the date the water was first used. We have attached a copy of a map of the area on the back of the forms. Please indicate on these maps where your point of diversion and place of use are located.

If you believe the information on the Claims adequately describes your water rights, please have your signature notarized and return the forms to our office along with the \$20 filing fee (\$10 per Claim), and we shall begin their processing.

Feel free to contact us if you should have any questions.

Very truly yours,

Fred Eisenbarth
