AUG 9 1976

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Idaho Department of Fish & Game, P.O. Box 25, Boise, Idaho has on July 20, 1976 submitted Application No. 94-7082 for a permit to appropriate 1.00 cubic feet per second &/or 1200 acre feet per annum of water from Spring Run-off, Unnamed Springs and Creeks by means of embankments and pipelines within the (1) SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21; (2) NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 28; (3) NE $\frac{1}{4}$ NE $\frac{1}{4}$, (4) NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 29, T. 48N, R. 2W, B.M., Kootenai County to be used from Jan. 1 to Dec. 31 for recharge and maintenance of marsh (1.00 cfs) and for storage (1200 A.F.) within portions of sections 20, 21, 22, 27, 28, and 29, T. 48N, R. 2W, B.M.

If issued, this permit will be subject to all prior water

rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, 4055 Government Way, Coeur d'Alene, Idaho 83814, on or before August 16, 1976.

RECORDED

NOV 24 1989

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF EXTENDING THE PROOF DUE DATE
AND REMOVAL OF THE MEASURING DEVICE REQUIREMENT
FOR PERMIT NO. 94-7082 IN THE NAME OF IDAHO
DEPARTMENT OF FISH AND GAME

ORDER

WHEREAS, on July 14, 1976, the Idaho Department of Fish and Game applied to the Department of Water Resources for a permit to appropriate 1.00 cubic feet per second of water from unnamed springs and creeks to be diverted within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21; Government Lot 2, Sec. 28; Government Lot 1 and 6, Sec. 29; Twp. 48N, Rge. 2W B.M. Kootenai County, to be used for recharge and maintain marsh and storage for fish and wildlife propagation; and,

WHEREAS, on September 24, 1976, the Department approved said application and issued Permit No. 94-7082 with the condition that proof of construction of works and application of water to beneficial use be submitted to the department on or before October 1, 1979 and that a measuring device of a type approved by the department be permanently installed and maintained as part of the diversion works; and,

WHEREAS, on July 30, 1979, the measuring device requirement was modified to be: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department"; and,

WHEREAS, on August 17, 1979, the department received a request for the permit holder to extend the time within which to submit proof of beneficial use and to remove the measuring device or access port or certified measurement by a professional engineer;

IT IS, THEREFORE, HEREBY ORDERED that the time within which to submit proof of beneficial use of water be extended to October 1, 1984.

IT IS FURTHER ORDERED that the requirement of a measuring device, access port, or certified measurement by a professional engineer be REMOVED.

Dated this 28th day of August, 1979.

Chief, Operations Bureau

MICROFILMED

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. **94-7082**

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dated this 18th day of August, 1978.

RE: TOTAL VOLUME UNDER RIGHT #94-7082

DATE: 28-MAR-1989

A problem arose with this right during pre-license review. I am returning the field exam in hopes that your office can give us some more information.

The field examiner uses the combined total volume of four ponds in her recommendations. However, she notes in Section H that pond #4 was not built. The right is permitted for 1200 acre feet of storage, but the total appears to be considerably less.

Thank-you in advance for your help.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

NOV 24 1986

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Department of Water Resources

Gentlemen,

In reference to your letter of July 31, 1979 regarding Proof of Works of Permit No. 947082; This permit covers a series of low-head water stabilization dikes in marshlands parallell to the Coeur d' Alene River and within the Coeur d' Alene River Wildlife management Area.

Construction of these dikes with the equipment we have at our disposal can only be accomplished during the period when adjacent waters have been drawn down to their maximum by Post Falls Dam and prior to winter freeze-up. Normally a period of about November 1 through December 10 in a dry year. In the event of a wet fall, there is no construction opportunity at all.

Due to extremely wet conditions during the possible construction opportunity period the past two years, we have not been able to complete work on the structures and therefore request an extension of time for Proof of Works. It is difficult to estimate the time required; However, two additional years should be sufficient.

Due to the nature of the water control structures and their intended use, it is not possible to install the required measuring devises. In fact, there is no flow to measure. The small dikes and control gates are designed to prevent the outflow of water from the marshlands when the adjacent River and lakes are drawn down for power generation. We therefore request waiver of the requirement for installation of measuring devises.

Mr. Bob Haines of your Coeur d' Alene office has inspected these dikes and is familiar with their intended operation. We ask that he be contacted regarding the necessity of the required measuring devise.

Sincerely,

Al Bruner

Gentlemen:

One of the conditions of approval of your water Permit No. 94-7022 was that evidence of the extent of development must be submitted to this office on or before October 1, 1979. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

Sincerely,

RITA FLECK
Sr. Secretary

November 26, 1976

Mr. Grant Christensen
Chief-Engineering
Idaho Department of Fish & Game
P.O. Box 25
600 South Walnut Street
Boise, ID 83707

RE: Construction of Small Dams under Permit 94-7082

Dear Mr. Christensen:

Al Brunner of your department has discussed with our Coeur d'Alene office a proposal to construct a series of 4 small dams, each less than 6 feet in height, along a tributary to Swan Lake in Sections 21, 28 and 29, Township 48 North, Range 2 West, B.M. Mr. Brunner feels that these dams will impound approximately 800 acre feet of water (the water right permit indicates 1200 acre feet) and any failure or overflow would pass directly into Swan Lake and then Coeur d'Alene Lake.

Mr. Brunner and Bob Haynes of our Coeur d'Alene office discussed the possibility of this Department waiving the requirement for our approval of engineered plans and specifications prior to construction. Apparently this possibility was considered because of the low height of the structures and the location in relation to Swan Lake and Coeur d'Alene Lake.

If your agency desires this Department to waive the requirement for approval of engineered plans and specifications, it is necessary that a written request for such waiver be submitted in accordance with Section 42-1712 of the Idaho Code. This request should indicate why waiving the provisions would be justified and should indicate what measures will be taken to assure a safe condition at the facilities with respect to spillway capability, embankment design, etc.

Enclosed for your information is a copy of the Department's Rules and Regulations for Safety of Dams along with application forms used for new construction. Please contact me if you have any questions regarding this matter.

Sincerely,

WILLIAM R. GOSSETT, P.E.
Supervisor, Surface Water Section

RECEIVED

NOV 17 1976

MEMORANDUM

TO: KEN DUNN

FROM: Bob Haynes

Department of Water Resources

DATE: November 9, 1976

SUBJECT: Fish & Game Dams under Permit No. 94-7082

On November 4, 1976, I reviewed in the field with Al Brunner of the Fish and Game Department, the project proposed in Water Right Permit No. 94-7082. The project consists of a series of four dams, going downstream, that would impound water to a maximum depth of approximately five feet and would inundate about 400 acres. This amounts to something in the neighborhood of 800 Acre Feet and would normally require plans and specifications drawn by a Registered Professional Engineer and approved by the Department prior to construction.

This area is accessible only by boat and has no development that could be affected. The last dam would be at the upper end of Swan Lake which fluctuates with Lake Coeur d'Alene. The material available to construct the embankments has an extremely high clay content and should make very suitable embankment material.

In view of the fact that the dams are low-head and that any water lost as a result of the breaching of the structures would flow into Swan Lake and then into Lake Coeur d'Alene without any possibility of damage occurring, I would recommend that the provisions of Section 42-1712 requiring the plans and specifications be waived, pursuant to the provisions of the same section of the Idaho Code.

If you have any questions regarding this matter, please contact me.

Bob

Coeur d'Alene, Idaho 83814

Coeur d'Alene River WMA

Gentlemen:

Enclosed is an Application for Permit for the flow of 1 cfs and for storage of 1200 acre feet of water.

A State Expenditure Voucher has been submitted to the State Auditor for issuance of a warrant in the amount of \$160.00, payment of the application fee. The warrant should be submitted to your office in about two weeks.

Sincerely,

DEPARTMENT OF FISH AND GAME

Joseph C. Greenley
Director
