Dear Mr. Higginson:

This letter is to request removal of the requirement to install a measuring device in connection with Permit No. 95-7013, for the following reasons:

1. We are using approximately 0.5 cubic feet per second as measured through the sprinkler system itself. This was determined by computing a 5/32" nozzle at 5 gallons per minute per nozzle at 50 sprinklers, making a total of 250 gallons per minute. This is below the amount of the permit.
2. We have checked several places and we have not found a measuring device that will fit a 5" line, and the cost of installing an adapter plus the meter is very expensive compared to the cost of the overall system.

For these reasons, I make this request.

Very truly yours,

Dear Mr. Reinhofer:

One of the conditions of approval of your water Permit No. 95-7013 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
