THIS IS TO CERTIFY, that WALLACE SCHOOL DISTRICT # 393
of Wallace, Idaho, has complied with the terms and conditions of Permit
No. 94-7004 issued pursuant to Application for Permit dated November 20, 1968,
and has submitted proof to the Department of Water Resources on March 14, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of .10 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 94-7004 on April 21, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.10 cfs Source: groundwater

The maximum quantity diverted shall not exceed 3 acre feet per
year.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 21, Twp. 48N, Rge. 4E, B. M.

Beneficial use: Irrigation for 1 acre within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 21,
Twp. 48N, Rge. 4E, B. M.

Priority date established: November 20, 1968

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$10.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Gentlemen:

One of the conditions of approval of your water Permit No. 94-7004 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Re: Application No. 94-7004
Wallace Little League, Inc.

We are prepared to accept your offer of .10 cubic feet per second for our uses, but would like to retain the privilege of requesting more water - if at some time in the future our needs should require this.

Whereas we had in mind a short intense period of water application - this allowance will require us to apply water for a longer period, none the less it will suffice for our present needs.

Thank you very much.

Yours truly,

Pres.

Gentlemen:

We are in receipt of your letter of February 25, 1969. In reviewing the justification you have submitted and in reviewing the proposed application and the nature of the use, the Department of Reclamation would be prepared to approve the application for a maximum rate of diversion of .10 cubic feet per second. If this is ~~not~~ agreeable, please advise us as to what other quantity you would consider. You are requested to reppond within 20 days of the date of this letter.

Re: Application No. 94-7004
Wallace Little League, Inc.

Gentlemen:

It is our intention to supply water to our
Baseball field by sprinkling.

The field is grassed - all in lawn, with a
total area of approximately one acre. Our plans call for
8 or ten sprinklers - all to be in use at one time, for a short
period during each day that water is required - perhaps four
days per week.

The sprinklers will be each supplied with a
3/4" pipe from a main pipe of two inches in dia. Our intentions
are to use the water intensely for a short period in the early
morning hours on days that water is required. We do not
believe that the watering period would be over two hours in
length. In addition the well will serve our concessions stand
and public lavatory, this requirement will be quite small.

We are a non-profit organization furnishing
baseball recreation for our local communities of Wallace,
Silverton and Osburn, for boys through the ages of 12 yrs -
actually 6 through 12 - We have been in existence since 1955,
and this is our new field.

Very truly yours

WALLACE LITTLE LEAGUE, Inc.

A.R. Weeman

Gentlemen:

The Department of Reclamation is prepared to take final action on your application for permit. Before this action is taken, we would request that you give clarification as to the quantity of water you have requested.

The 5/10's of a cubic foot per second for irrigation purposes from April 1 to October 1 is extremely excessive, inasmuch as you require the irrigation of only one acre of ground.

If you could advise the department as to the method of application of the irrigation water and the capacity of the irrigation system, possibly, the number sprinkler nozzles and their discharge in gallons per minute per nozzle, or any such information will assist the department in taking final action on your application.

Your assistance in this matter is appreciated.

Very truly yours,

Donald W. McEldowney
