Claim No. 94-4195

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that ASARCO INCORPORATED
(Name of Claimant)
P. O. Box 440 Wallace, Idaho 83873 Telephone No. (208) 752-1116
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) August, 1965

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Shields Gulch tributary to S. Fork Coeur d'Alene River

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. An 8' x 10' Infiltration bed diverts water to a 2400' long - 2" steel pipe. Water flows to a 5,000 gal. domestic water tank at the Coeur mine.

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

Gentlemen:

This will acknowledge our conversations on August 16, 1967 regarding the right of way for the Idaho Water Company for a pipeline and diversion dam in Shield's Gulch. This right of way is to cover the pipeline from the diversion works now installed for the Dunkle Gardens Water system. The Idaho Water Company will be acquiring the Dunkle Gardens Water system approximately on October 1, 1967. In order to comply with requirements of the Idaho Health Department it is necessary that the intake be moved farther upstream to insure the water being served to the residents of Osburn be not altered by your operations near the present intake. Therefore we would have to extend the pipeline uphill to the present road and then along the present road to the creek where your road crosses the Shield's Gulch. It is my understanding that you will furnish a description of the right of way after our forces stake the location of the proposed pipeline.

With regard to water service to your mining area, and service from our system to serve your mining area would necessarily have to be metered. We are aware that you now obtain water from Shield's Gulch by diverting some water upstream from our proposed intake structure. We have no objection to this as long as the water is not needed for use by the water system in Osburn. We have no investment in your system and we would expect no reimbursement, however we do reserve the right to discontinue your taking that water during periods of high demand in Osburn. Normally this is during the months of July and August of each year. We would suggest that you could put in an alternate facility to pump your water either from

MICROFILMED

-2-

our system or more probably from some point below our intake and we would have no objection to that procedure.

Our Mr. Jack Jacobs and Mr. Jack Anderson will visit your property shortly and stake the probable location for the pipeline. As this work must be done in late September and early October while the weather is favorable we would appreciate receiving the right of way at the earliest possible convenience.

We would appreciate also the right to erect a fence in the area upstream from the point of diversion for a distance of 100 feet with the fence running parallel to the stream and 50 feet on each side. It is probable that the Health Department will require fencing of the immediate upper area.

Very truly yours,

IDAHO WATER COMPANY

RE: Claim No. 94-4195

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Sincerely,

Robert G. Haynes, P.E.
Regional Supervisor

Dear Sirs:

Enclosed are three (3) filings for claims to a water right. Two of the filings are for water rights used by the Galena Mine near Wallace and the third filing is for a water right used by the Coeur Mine near Osburn. Both mines are operated by ASARCO Incorporated. Also enclosed is a check for the \$90 filing fee (\$30 per claim).

Sincerely,

J. C. Pfahl
