Dear Mr. Pierce:

This is in response to your letter of December 3 concerning the filings made by Citizens Utilities Company over the past six months.

The claims which were filed regarding water on Boulder Creek, Watson Gulch and Weyer (Weir) Gulch are statements of water rights which exist because water has been diverted and used in the past. No administrative action is taken by the Department with regard to claims. You should have received copies of those claims together with a cover letter which explains the procedures for filing water rights under Section 42-243 and Section 42-244 of the Idaho Code.

With regard to the transfer of water right on Placer Creek (94-2225) and the application to appropriate additional water from Placer Creek, please be advised that this office has completed all advertising and forward the applications to our State Office for final administrative action. I would anticipate that you should receive some notification of this in the very near future.

If you have any questions, please don't hesitate to contact me.
