Dear Mr. Sipila:

We enclose herewith Certificate of Completion of Works issued under Permit No. 19912, for the diversion of 0.1 second foot of water from an unnamed stream tributary to Coeur d'Alene River, with point of diversion in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 36, Township 50 North, Range 2 East, with priority of August 2, 1946, for domestic purposes.

We also acknowledge receipt of the depositions of yourself and two witnesses, with corrections as noted in office letter of August 25th, which, with the affidavit of publication in the Kellogg News-Wardner, completes your proofs of beneficial use under this permit.

Before final action can be taken in the matter the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State. However, Mr. Tolman, Field Engineer for this department, will try to contact you at the time he makes the examination, so that you may arrange to show him over the ground.
