Re: Permit No. 18819

Mr. B. W. Tester

Dear Mr. Tester:

We have received the report of our Field Engineer on examination for beneficial use under the above numbered permit, and upon receipt of the statutory fee of \$5.00 a license can be issued for Two-hundredths of a second foot of water from a spring located in the SW $\frac{1}{4}$  SE $\frac{1}{4}$  Section 26, Township 50 North, Range 4 East, B.M.

The records in this Department show this permit in the name of Arthur A. Morin, but our Field Engineer reports that he was informed by you that you are the present owner of this property; and reference to the records of this permit on file in this Department discloses that in September, 1941, Mr. Morin wrote that he had sold the place; and on October 6, 1941, a form of assignment was sent him. However, this assignment has never been returned to this Department to be recorded and Mr. Morin is still the record holder of the permit.

We are sending a copy of this letter to Mr. Morin, at Box 476, Pinhurst Idaho; and are enclosing herewith another form of assignment. It will be necessary to have this assignment recorded, the fee for which is fifty cents; or you may send us your deed from Mr. Morin, to be recorded and returned to you- the fee for which will be at the rate of 20 cents a folio or 100 words. Otherwise, the license will have to be issued in the name of Mr. Morin, the record owner of the permit.

Very truly yours

Mr. Arthur A. Morin  
Murray, Idaho

Dear Mr. Morin:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the Kellogg News, all in connection with Beneficial Use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

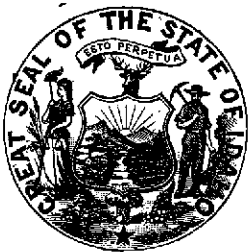

When the engineer's report is filed, you will be notified of the amount due for your beneficial use proof and upon receipt of your remittance, a license will be issued.

Very truly yours,  
E. V. BERG.

PROOF OF BENEFICIAL USE OF WATER

Re: 18819

August 13, 1941  
Boise, Idaho,

Mrs. Margaret P. Gaby  
Kellogg, Idaho

Dear Sir:

Arthur A. Morin

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 18819

Deposition of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On August 23, 1941, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Kellogg, Idaho before Margaret P. Gaby, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

E. V. BERG.  
Commissioner of Reclamation.

It appearing to the Commissioner of Reclamation that the terms and conditions of Permit No. 18819, to appropriate the Public Waters of the State of Idaho, have not been complied with as to

Completion of works July 12, 1940

you are hereby notified in compliance with Sec. 41-311, Idaho Code Annotated that said Permit No. 18819 is hereby held for cancellation.

You are hereby required to show cause before the Commissioner of Reclamation on or before forty days from date of this notice why said Permit should not be cancelled.

Said Permit No. 18819 claims the use of 0.02 cubic feet per second of the waters of a small spring, with point of diversion located in the SW $\frac{1}{4}$  SE $\frac{1}{4}$  Section 26, Twp. 50 N., Range 4 E., B.M. and was approved July 12, 1939

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, this

9th day of November, 1940

JAMES SPOFFORD

Commissioner of Reclamation.

**INSTRUCTIONS**  
**PROOF OF COMPLETION OF WORKS**

**Arthur A. Morin**

Boise, Idaho, **May 2, 1940**

Dear Sir:—

Under the terms of your permit No. 18819 you are required to complete your diversion works on or before July 12, 1940. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

**JAMES SPOFFORD**  
Commissioner of Reclamation.

Dear Sir:-

We are returning your application for Permit, together with your check for the \$5.00 fee which accompanied same, for the following reasons:

1. It is not signed on page 3.
2. If the spring is on private property, the affidavit to file on the spring should be executed by the owner; or if it is on your own property, or on public domain, so indicate under "Remarks".
3. Show the land to be irrigated under Question 14; and in this connection we call attention to the fact that the maximum that is allowed for irrigation is one-fiftieth of a cubic foot per second (or one miners inch) per acre of land.

Your application calls for one-half a second foot, which I imagine is more than could possibly be carried through a one-inch pipe.

4. If ditch is to be used, fill in Questions 10 and 11.

When returned, with corrections as indicated, your application will be accepted upon its receipt in this office.

Very truly yours,

JAMES SPOFFORD

Commissioner of Reclamation
