Re: Permits Nos. 12638 and 12639

Mr. Chas. L. Horning,
Attorney at Law,
Wallace, Idaho.

Dear Mr. Horning:

We have on file the reports of our field engineer on examination for completion of works and beneficial use proofs under the above numbered permits in the name of the Shoshone County Sportsman's Association.

These reports show that in each case the works are capable of diverting and conveying to the place of intended use eight (8) second feet of water.

Therefore, upon receipt of the statutory fees, amounting to \$10.00 for each permit, being at the rate of \$5.00 for completion of works and \$5.00 for beneficial use proof, or a total of \$20.00, certificates of completion of works, and licenses, will be issued.

Re: Permits Nos. 18638 & 18639
Shoshone County Sportsmen's Ass'n.

Mr. Chas. E. Horning,
Attorney at Law,
Wallace, Idaho.

Dear Sir:-

This will acknowledge depositions of the holder, depositions of each of two witnesses, and the affidavits of proof of publication from the newspaper, all in connection with proof of completion of works and beneficial use under the above numbered permits.

Before final action can be taken in the matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination, so that you may arrange to show him over the grounds. After his report is on file in this office, you will be further notified as to fees before the issuance of certificates of completion of works, and licenses.
