Re: Permit Number 18975

Gentlemen:

On March 12, 1943 your Department of Reclamation issued a License and Certificate of Water Right under the above numbered permit. This permit was issued to one George E. Thompson, Post Office Box 1025, Kellogg, Idaho. Mr. Thompson did not record this License and Certificate of Water Right, and for some reason or other it has been lost or destroyed; and now that we need such a License and Certificate of Water Right in order that this property may be sold, I am asking that you make out a duplicate of said License and Certificate of Water Right and mail the same to me.

This license confirmed the right to George E. Thompson to use one-tenth (0.1) of a second foot of the waters of an unnamed creek, a tributary of Moon Creek for irrigation and domestic use on an acre of land in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 35, Township 49 North, Range 3 East, B. M..

If you will inform me what the charge will be for this duplicate License and Certificate, I will remit the same immediately.

Dear Sir:

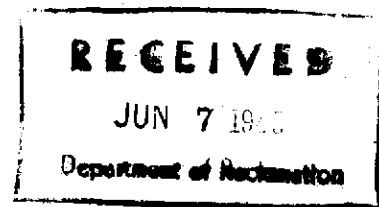

Will you kindly inform me whether a man by the name of George Edwin Thompson holds any water right on Moon Creek or any of its tributaries, Moon Creek being a tributary of the South Fork of the Coeur d'Alene River in this county.

If Mr. Thompson does have such a water right, will you kindly furnish me a copy of the same, including a copy of the map showing the point of diversion, the location of the pipeline, point of use, etc. I am enclosing my check for \$1.00 to cover your fees in this matter. If that is not a sufficient amount, please advise me and I shall promptly remit any balance which may be owing.

Dear Mr. Thompson:

We enclose Departmental Receipt No. 19024 for the \$2.00 fee which you paid in connection with beneficial use proof under the above numbered permit.

However, a recheck of your proof shows a discrepancy in the description of the land on which the water has been applied. Your application, and the map, show it as in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 35, Twp. 49 North, Range 3 East, and it was so advertised; but your affidavit for beneficial use proof describes it as in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of this section.

Perhaps this is an error in your affidavit, but we should like to have your advice as to the correct description before issuing the license.

Dear Mr. Thompson:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of publication from the Kellogg News, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the engineer's report is filed, you will be notified of the amount due for Beneficial Use proof, and upon the receipt of your remittance, a license will be issued to you.

DEAR SIR:

George E. Thompson

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 18975

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On May 11, 1942, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Kellogg, Idaho before Harry H. Kinsey, N. P.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

E. V. BERG

RE: APPLICATION GEORGE E. THOMPSON, BOX 1025
KELLOGG, IDAHO, INVOLVING WATER RIGHT IN
SW $\frac{1}{4}$ SW $\frac{1}{4}$ OF SECTION 35, TWP., 49 N.,
RANGE 3 E. B. M.

The writer has noticed a publication wherein notice of proof of application of water right to beneficial use is being advertised to the above property, publication appearing in the Kellogg Evening News under date of April 1, 1942, before Harry H. Kinsey, notary public of Kellogg.

It is believed by the writer that the land in question is not the property of the said George E. Thompson, however, it might be that there is something about it that I do not understand. In order to investigate the situation, I would like to have a transcript of the proceedings in your office relative to the filing of this water right and the steps that have since taken place, in order that I may be fully advised in the matter. It is my opinion that the land in question belongs to an estate which the writer represents. Doubtless the papers in your office are largely blank forms, and if you will have a stenographer or your office prepare them, I will be glad to forward check to cover any expense incident thereto. As the date set for proof to be submitted is May 11th, and this is April 4th, I would like to receive this information as early as possible.

Very truly yours,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. 18975..... you are required to complete your diversion works on or before May 11, 1941..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
