State of Idaho
License and Certificate of Water Right

Water License No. 18064
Water District No.

Amount 2 second feet
Priority January 8, 1935

THIS IS TO CERTIFY that W. M. YEAMAN
of Kellogg, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 8, 1935, 19 ; that Permit No. 18064
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2 second feet, was issued thereunder on January 21, 1938, showing that said works
were completed on the 14th day of January, 1938; and that on the 12th
day of March, 1938,

SUNSHINE CONSOLIDATED, INC. Assignee,
of Kellogg, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Gullickson
Creek, a tributary of Big Creek, for the purpose of mining and domestic
use, under Use Permit No. 18064 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7
of Licenses, at page 3944, on the 5th day of April, 1939;

The right hereby confirmed dates from January 8, 1935;

The Point of Diversion is located S. 2° 55' W. 1343 ft. distant from NE corner of Section
21, T. 48 N., R. 3 E., B.M.
in the SE ¼ NE ¼, Sec. 21, Tp. 48 N., R. 3 E., B.M. Shoshone County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 2
cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			Point of Use: In the SW¼ SW¼ of Section 15, T. 48 N., R. 3 E., B.M.		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use
herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho, this 5th day of April, 1939, 94 2171

JAMES SPOTFORD
Commissioner of Reclamation

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

A. M. Nash, Agent
Kellogg, Idaho

Application No. 25268
Permit No. 18064
District No.

1. Name of Applicant: W. M. YEAMAN

Postoffice address: Kellogg County: Shoshone State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (c) Bonds to be issued:

- (b) Treasury stock:
- (d) Other resources:

2. Quantity of water claimed: 2 cubic feet per second.

3. Source of water supply: Gullickson Creek which is a tributary of Big Creek

4. Location of point of diversion: S. 20° 55' W. 1343 feet distant from the NE corner of Section 21, T. 48 N., R. 3 E., B. M., and is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 21, T. 48 N., R. 3 E., B. M., County of Shoshone

5. Water is to be used for: Domestic and Mining Purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: 300 feet NE ~~feet distant~~ from SW corner of Section 15 T. 48 N., R. 3 E., B. M., in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 15, T. 48 N., R. 3 E., B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to Big Creek at a point Near point of use. feet distant from the corner of Section, T., R., B. M., in the of Section, T., R., B. M.

7. Estimated cost of works: \$ 1500.00

8. Kind of works: Small timber and stone dam and wood pipe line.

9. Height of dam 8 feet; length of dam at top 20 feet; length of dam at bottom 10 feet; material used in dam: wood and stone

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet; dimensions of flume:

Diameter of pipe 8 inches; length of conduit 1600 feet. ~~miles~~

Average grade per mile feet.

12. The time required for the completion of such work is 3 years.

13. The time required for the complete application of the water to the proposed use is 2 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? ☐ No ☐ Yes If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

W. M. Yeaman

Applicant.

By

Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. January 8, 1935

Returned to applicant for correction: January 11, 1935

Corrected application received: January 28, 1935

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is 18064

Recorded in Book 65 Page 18064 Approved January 29, 1935

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before March 30, 1935 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before July 29, 1936

The whole of said work to be completed on or before January 29, 1938

Beneficial use of water appropriated in accordance herewith, to be made on or before January 29, 1940

Witness my hand this 29th day of January, 1935.

R. W. FARIS
Commissioner of Reclamation.

Remarks: This water is to be used in the homes of the miners and for cooling the compressors and such other uses as may be necessary at the mine.

RE: Permits 18061, 18064 and 15030

Norman M. Smith
Mining Engineer
Big Creek
Kellogg, Idaho 83837

Dear Mr. Smith:

Water rights are acquired by two methods in the State of Idaho. One by permit and license through this Department, the other by diversion and beneficial use. However, there is no record of rights obtained by diversion and use. The new statutes allow for claims to be filed in our office for old use rights.

Water rights can be lost by two means; abandonment and forfeiture. Forfeiture is the non-use of available water for a period of 5 years. Abandonment is to abandon without ever planning on using the water again and can happen at anytime.

Water rights become appurtenant to the use or lands licensed for and can be sold or leased as personal property. However, if the place of use is changed a transfer of the right must be made through our office.

We do have records of water licenses for two of the companies. Water license 18061 for 5.0 c.f.s., and 18064 for 2.0 c.f.s. issued to Sunshine Consolidated, Inc. for water out of Big Creek. Water license 15030 for 2.0 c.f.s. issued to Sunshine Mining Company for water from Big Creek.

We can find no filings for water for the Lincoln Mining Company or the Silver Dollar Mining Company.

If we can be of further assistance please let us know.

Very truly yours,

M. RUSSELL BOSCH
Office Manager

Department of Reclamation

Mr. R. Keith Higginson
Bureau of Reclamation
State House
Boise, Idaho

Dear Mr. Higginson:

I am trying to learn the status of certain water rights of several mining companies in Shoshone County. The County Recorder informed me of your name and office and believed you could furnish the data desired.

First, how is a water right acquired and maintained; and how is it lost? Can a water right be leased or sold?

Second, what is the status of the water rights of the following companies - all in Shoshone County, T 48N, R 3E, BM:

1. Sunshine Consolidated, Inc. - 18061 - 18064
 - a. On Big Creek, Sec. 22. 5.0 cfs 2.0 cfs
 - b. On a west tributary of Big Creek in sections 21 and 22.
2. Sunshine Mining Company
 - a. On Big Creek, Sec. 22, T 48N, R 3E, BM. 15030
 - b. On an east tributary of Big Creek in Sec. 15. 2.0 cfs
3. Lincoln Mining Co. or Silver Dollar Mining Company.
On Spring Gulch, Sec. 14.

Yours truly,

Norman M. Smith

Re: Permit No. 18064
Sunshine Consolidated, Inc.

Mr. Joseph T. Hall,
Wallace, Idaho.

Dear Sir:-

A short time ago we received the report of our field engineer on examination for beneficial use under the above numbered permit.

This report shows this water is being used in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 15, Twp. 48 North, Range 3 East, B.M.

The statutory fee amounts to \$5.00, upon receipt of which a license will be issued.

Examination for Beneficial Use

County Shoshone County

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make a plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Re: Permits 18061 & 18064.

Mr. Joseph T. Hall
Asst. Secretary-Treasurer
Sunshine Consolidated, Inc.
Wallace, Idaho

Dear Sir:

This will acknowledge receipt of the depositions of the holder, depositions of two witnesses, and the affidavits of proof of publication from the newspaper, all in connection with beneficial use proofs under the two above-numbered permits.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his reports are on file in this office you will be further notified as to fees due before the issuance of your licenses.

Very truly yours,

R. W. PARIS

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 12th day of March, 1938, at Wallace Bank and Trust Building, Wallace, County of Shoshone, State of Idaho, before H. J. Hull, Notary Public, proof will be submitted of the application to beneficial use of two (2) cubic feet per second of the waters of Gullickson Creek in accordance with the terms and conditions of Permit No. 18064 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Sunshine Consolidated, Inc., 209 Civic Center Bldg., Wallace, Idaho.

The use to which said water has been applied is domestic and mining.

The amount applied to beneficial use is two (2) cubic feet per second.

The place where said water is used is 300 feet NE. from Southwest corner of Section fifteen (15), Township 48 North, Range 3 East, Boise Meridian, in the Southwest (SW) quarter (¼) of the Southwest (SW) quarter (¼) of Section 15, Township 48 North, Range 3 East, Boise Meridian, Shoshone County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Sunshine Consolidated, Inc., Pipeline.

The right to take water from such works is based upon Permit No. 18064.

The source of supply from which such water is diverted is Gullickson Creek.

The date of priority which said user is prepared to establish is January 8, 1935.

R. W. FARIS,

Commissioner of Reclamation.
4x—Feb. 4-11-18-25, 1938.

L. N. Shure, being first duly

sworn, deposes and says: That he is the Principal Clerk of the Press-Times Publishing Company, publishers of the Wallace Press-Times, a daily newspaper printed and published at Wallace, Shoshone County, Idaho, which said newspaper has a general circulation in said county, and has been continuously and uninterruptedly printed and published in said county

during a period of seventy-eight consecutive weeks prior to the 4th day of July, 1938.

Pursuant to the provisions of Chapter 154 of the 1933 Session Laws of the State of Idaho, said Press-Times Publishing Company has designated Friday of each week as the day on which will be published legal notices required by law or by order of any court of competent jurisdiction within the State of Idaho.

That the Notice of which a complete and correct copy is hereto attached, was first published in said newspaper in its Friday issue dated the 4th day of July, 1938, and was published in each successive Friday issue of said newspaper for 4 issues, the last publication thereof being in the Friday issue dated the 25th day of July, 1938.

Subscribed and sworn to before me this 25 day of July, 1938.

DEPARTMENT OF RECLAMATION
BOISE, IDAHO.

PERMIT NO. 18064

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Joseph T. Hall, age 27, residence Big Creek, Idaho.

Occupation Mining, Post office address, Wallace, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Sunshine Consolidated, In., Kellogg, Idaho.

Assistant Secretary-Treasurer and Resident Manager.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 18064, dated January 29, 1935, date of priority
January 8, 1935

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Gullickson Creek, a tributary to Big Creek which is a tributary of
the South Fork of the Coeur d'Alene River. Location of point of

diversion: S 2055' W1343 feet distant from the N E corner of Sec. 21, T 48 N., R 3
E.B.M and is in the SE₄ of the NE₄ of Section 21, T 48 N., R 3E., B.M. County of
Shoshone.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. The water which does not flow continuously throughout the year
is diverted to a masonry penstock by a small dam and ditch from which it pro-
ceeds in a 6" wood stave pipe to the 16" wood stave pipe line described in the
answer to this question in relation to Permit No. 18061, capable of conveying
two second feet.

The name of the works by which said water is conducted to such
juncture or place of use is "Sunshine Consolidated Inc. Pipe Line".

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used at the Gullickson Tunnel as a source of power
for driving ventilating equipment. Is also used for domestic purposes at
the office and at the home of the Manager. Said water is also to be used
for milling and mining purposes.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. See answer to Ques. 6.

18064 OK. RRR

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Five second feet

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Permit originally issued to W. M. Yeaman who assigned it to Sunshine Consolidated, Inc.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used. Since Feb. 1936 these works have been carrying a full capacity of water and the same has been used continuously at the Company office and the manager's residence, and for operating the ventilating equipment at the Gullickson Tunnel when work is being conducted therein; said water will also be used for other mining and milling operations when the property has been further developed.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Joe Kernaghan, Age 54, Wallace, Idaho, Miner,
Post Office Address, Box 625, Wallace, Idaho.

Ques. 2. Are you acquainted with Sunshine Consolidated, Inc., the holder of Permit No. 18064? How long have you known him and where does he reside?

Ans. Yes, for three years. Present place of business,
Kellogg, Idaho.

Ques. 3. Have you read or heard read said Permit No. 18064, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Gullickson Creek, a tributary to Big Creek which is a tributary of the South Fork of the Coeur d'Alene River.
Location of point of diversion: S 2° 55' W 1343 feet distant from the N.E. corner of Section 21, T 48 N., R 3 E, B.M., and is in the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 21, T 48 N., R 3 E, B.M. County of Shoshone.
Small dam and ditch diverts water to a masonry penstock from time to time, which proceeds in a 6" wood stave pipe to the 16" wood stave pipe described in answer to question 5 in Deposition of Holder in re permit No. 18061.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Two second feet

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Water has been used for domestic purposes in office and house of Manager, and to drive the ventilating system of the Gullickson Tunnel.

18064 A.K. R.H.B.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

✓ Ans. Said water will also be used, in addition to purposes set out in answer to question 6, for mining and milling purposes.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

✓ Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

✓ Ans. Since February 1936 the water has been used for domestic purposes at the Manager's residence and Company office, and for the operation of the ventilating equipment at the Gullickson Tunnel when work therein is in progress. Said water will also be used for other mining and milling purposes.

(Signed)

Re: Permits 18061 & 18064,
Sunshine Consolidated, Inc.

Mr. H. J. Hall
Attorney at Law
Wallace, Idaho

Dear Sir:

This will acknowledge receipt of notices in duplicate for publication in connection with beneficial use proofs, and also the authorization of the Sunshine Consolidated, Inc., to have the notices published in the Wallace Press Times, Wallace, Idaho, all in connection with Permits 18061 and 18064. Copies of the notices have been mailed to the newspaper with instructions to publish them once a week for four consecutive weeks prior to March 12, 1938.

We are herewith enclosing two sets of depositions, each set consisting of one for the holder and one each for two witnesses. On March 12, 1938, the date set for proofs, the holder of these permits should appear at your office with two disinterested witnesses who are familiar with the terms of the permits and the works constructed thereunder; and the enclosed depositions should be filled out and sworn to by them before you at Wallace, Idaho. When the depositions have been taken, they should be mailed to this office, together with the affidavits of publication of the notices.

We are herewith enclosing the Department's Receipt No. 15518 for the \$1.50 fee you remitted in connection with the recording of deeds under the above numbered permits.

Very truly yours,

R. W. DENIS
Commissioner of Reclamation

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 12th day of March, 1938,
Wallace Bank and Trust
 at Building, Wallace, County of Shoshone, State of Idaho, before
H. J. Hull, Notary Public, proof will be submitted of the
 application to beneficial use of two (2) cubic feet per second of the waters of
Gullickson Creek in accordance with the terms and conditions of Permit No. 18064
 heretofore issued by the DEPARTMENT OF RECLAMATION of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are
Sunshine Consolidated, Inc. 209 Civic Center Bldg, Wallace, Idaho.

The use to which said water has been applied is domestic and mining

The amount applied to beneficial use is two (2) cubic feet per second

The place where said water is used ~~is for irrigation give full and accurate description of the~~
land irrigated is 300 feet NE. from Southwest corner of Section fifteen (15)
Township 48 North, Range 3 East, Boise Meridan, in the Southwest (SW)
quarter (6) of the Southwest (SW) quarter (2) of Section 15, Township
48 North, Range 3 East, Boise Meridan, Shoshone County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place
 of use is Sunshine Consolidated, Inc. Pipeline.

The right to take water from such works is based upon Permit No. 18064

The source of supply from which such water is diverted is Gullickson Creek

The date of priority which said user is prepared to establish is January 8, 1935

Re: Permits 18061 & 18064.

Mr. H. J. Hull
Attorney at Law
Wallace, Idaho

Dear Sir:

We are herewith enclosing Certificates of Completion of Work issued under each of the above permits to appropriate the public waters of the State of Idaho, together with the Department's Receipts for the fees you paid in connection with these certificates.

We are also returning the two instruments whereby the two above permits are conveyed from Y. M. Yeaman to the Sunshine Consolidated, Inc. These instruments have been made a matter of record in this department, and are now being returned to you for your files. Will you please remit \$1.50 for the recording of these instruments.

In compliance with the request contained in your letter of January 14th, we are enclosing forms to be used in connection with your final proofs under these permits. You should fill out the notices in duplicate and return both copies to this office, together with your authorization for us to have the notices published in a newspaper in Shoshone County. Be sure to set the date for proof far enough in advance to allow for a four weeks publication of the notices prior to the date for the proofs. The proofs are to be made before a notary public or other officer authorized to administer oaths.

In re: Water Permit Application No. 25269
Permit Number 18061
Water Permit Application No. 25268
Permit Number 18064

Dear Sir:

Enclosed you will find an affidavit of proof of completion of works in relation to water appropriation Water Permit Number 18061 and Water Permit Number 18064.

You will also find enclosed a letter of Joseph T. Hall explaining the type of work that has been completed in relation to these two permits.

No doubt your records show that the above numbered permits were issued to W. M. Yeaman. W. M. Yeaman has assigned all of his interest in these permits to the Sunshine Consolidated, Inc. The original and a copy of the assignment of Mr. W. M. Yeaman of all interest in each of these permits to the Sunshine Consolidated, Inc., an Idaho corporation, is also enclosed herewith. If you only require one copy of the assignment by Mr. Yeaman for your files we would appreciate it if you would return one of these copies to us with an acknowledgment thereon that you have received a copy of said assignment.

You will also find enclosed our check in the sum of \$10.00 which is the amount of the fee for the issuing of certificates of completion of work.

We would like to submit proof of application of water to beneficial use in relation to both of these permits as soon as possible and would therefore appreciate it if you would furnish us with the proper forms and instructions for the submission of this proof.

If you desire any further information in relation to the assignment from Mr. W. M. Yeaman to Sunshine Consolidated, Inc. we will be pleased to furnish you with the same promptly

If, by any chance, we have not complied with all of the requirements in relation to the proof of completion of works, we will

18064

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

W. M. Yeaman
Kellogg, Idaho

Boise, Idaho, November 8, 1937

Dear Sir:—

Under the terms of your permit No. 18064 you are required to complete your diversion works on or before January 29, 1938. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. PARIS
Commissioner of Reclamation.

C O P Y

SUNSHINE CONSOLIDATED, INC.

Wallace, Idaho,
March 10, 1937

Department of Reclamation,
State Of Idaho
Boise, Idaho.

Gentlemen:

This letter is to supplement our affidavit regarding the Proof of Completion of Labor on Permits No. 18061 and 18064.

It has appeared to the writer that perhaps, for your files, you would like to have further information with regard to these water rights than is required on your affidavits, which are attached hereto.

During 1935 there was constructed at the point of diversion site, specified in Form 18061, just below the Sunshine dam on Big Creek, a smaller dam and penstock for the Sunshine Consolidated. This dam is well constructed of stone, wood, earth and concrete. This work is well done and built to be permanent. This dam is equipped with the necessary fish race and is constructed to weather the spring floods. From this dam the water is carried to the portal of the Gullickson tunnel, a distance of approximately 2,500 feet. This line is constructed of 16" stave pipe. This pipe has been buried for its entire length and supporting foundations have been built where necessary.

(P. No. 18064) A dam and concrete penstock have been constructed at the point of diversion on Gullickson Creek. From this dam a 6" line feeds into the 16" line above mentioned at a point about 1,000 feet south of the Gullickson tunnel. This work is constructed with a view to permanency and is very strongly built. The 16" line feeds into a penstock above the Bullickson tunnel from which a further 16" line is taken off to run through a turbine installed early in 1936. This turbine is used to power the ventilating fans for work in the Gullickson tunnel. By March, 1936, thereafter, the work had been entirely completed and the water had been put to beneficial use as required.

The cost of the dams was in the neighborhood of \$500.00, and subsequently improvements in the amount of approximately \$300.00 have been made on these dams. The cost of the pipe line, and its installation, amounted to \$10,402.21.

Very truly yours,

/s/ Joseph T. Hall

Re: Permits 18061 & 18064.

Mr. Lester S. Harrison
Attorney at Law
Kellogg, Idaho

Dear Mr. Harrison:

I have your communication of November 17th, wherein you say that the holder of the above permits now desires to offer the necessary proofs under these rights.

We are accordingly furnishing the proper forms for proof of completion of works under each of these permits. The affidavits should be executed separately, since the two permits constitute two separate rights. There will be no publication in connection with this matter, and upon receipt of the affidavits, together with fees in the amount of \$10.00, that is, \$5.00 for each proof, we shall issue certificates of completion of works.

The holder will then be in a position to proceed with final proof, or what is known as proof of application of water to beneficial use. This latter procedure requires a publication and a field examination by an engineer from this department. We shall be glad to furnish the proper forms with detailed instruction for this proof immediately after the certificates of completion of works have been issued.

Very truly yours,

Chief Clerk & Office Engineer

Re: Application No. 25533
W. M. Yeaman

MR. A. M. NASH, Engineer
508 McDowell Bldg.,
Seattle, Washington

Dear Sir:

We are herewith returning the above numbered application with the request that you correct the information given relative to the point of diversion, which, at present, is in error. You say that this point will be S. 2° 55' W. 1243' distant from the NE corner of Section 21, T. 48 N., R. 3 E., and will be in the $3\frac{1}{2}$ NE $\frac{1}{4}$ of said Section 21. If this distance is correct, the point of diversion will have to be in the NE $\frac{1}{4}$ of the section.

When you make your corrections, please be sure that the plat agrees with the descriptions given in the application.

Mr. Yeaman's application to appropriate 5 second feet of water from Big Creek is in proper form and permit will be issued thereunder immediately. An office receipt for the amount of the fee submitted will be attached to the permit when it is returned to Mr. Yeaman.
