NOTICE OF PROOF APPLICATION OF WATER TO BENE- FICIAL USE.

Notice is hereby given that at 10 a. m. on the 28th day of June, 1924, at Wallace, County of Shoshone, State of Idaho, before Chas. E. Horning, notary public, proof will be submitted of the application to beneficial use of Two (2) cubic feet per second of the waters of The Little North Fork of the South Fork of the Coeur d'Alene River in accordance with the terms and conditions of Permit No. 15756 heretofore issued by the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Richard R. Worthington, Mullan, Idaho.

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is Two (2) cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated): A portion of the South Half of the Northwest Quarter of Section Thirty-Two, Township Forty-eight North, Range Six East of the Boise Meridian, Shoshone County, Idaho.

The right to take water from such works is based upon Permit No. 15756.

The source of supply from which such water is diverted is the Little North Fork of the South Fork of the Coeur d'Alene River, fed by snow and springs.

The date of the priority which said user is prepared to establish is May 3, 1923.

PERMIT No. _____

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Richard R. Worthington; 29 years; Mullan, Idaho; mining and
farming; Mullan, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not acting in behalf of corporation.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 15756- dated _____ . Date of priority- May 3, 1924.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source- Little North Fork of the South Fork of the Coeur d'Alene
River. About $\frac{1}{2}$ mile above mouth of stream.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. A dam has been constructed on this stream. The head-gate opens
into a box flume that is 16 feet long. The flume empties into a
ditch that carries the water to the land that is being irrigated.
These works are capable of conveying about two cubic feet of water
per second to the place of use. Canal or ditch not named.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivate or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation on a portion of the S $\frac{1}{2}$ of the NW $\frac{1}{4}$, Sec. 32,
Twp. 48 N., R. 6 E.B.M. Water is on about 25 acres of natural
meadow land and on about five acres of cultivated land. No im-
provements except that the five acres above mentioned have been
broken and cultivated since the water in question has been applied
to this use.

Ques. 7. If for other than for irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. For irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Between one and two cubic feet per second for this and other land that is being and to be cleared.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Originally issued to me.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Used water in summer of 1923 and 1924 by means of works above mentioned.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and right claimed thereunder.

Ans. Has used no water except that diverted by the above-described works.

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Robert Campbell; age 25 years ; Mullan, Idaho; mining; Mullan, Idaho.

Ques. 2. Are you acquainted with Richard R. Werthington, the holder of Permit No. 15756? How long have you known him and where does he reside?

Ans. I am acquainted with him. Have known him for 10 years. He resides at Mullan, Idaho.

Ques. 3. Have you read or heard read said Permit No. 15756, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source- Little North Fork of the South Fork of the Coeur d'Alene River. Diverted at a point about $\frac{1}{2}$ a mile above the mouth of this stream. Head-gate in dam empties into a box flume that is 16 feet long. This flume empties into a ditch that carries the water to the land that is being irrigated.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed? Will convey about 2 cubic feet per second. Between 1 and 2 cubic feet per second, I would judge.

Ans.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is being used for irrigation on a portion of the S $\frac{1}{2}$ of the NW $\frac{1}{4}$, Sec. 32, Twp. 48 N., R. 6 E.M.N. About 25 acres of the irrigated land is natural meadow land and about 5 acres are cultivated.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No other purposes.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Cut-over land that has been cleared and other similar land that has not yet been cleared of stumps but which is being irrigated and used for natural meadow. I think that it will require between one and two cubic feet of water- all that these works will handle and the stream supply.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

No interest.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have visited the place frequently during past year and have seen the water used as hereinabove stated.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Richard R. Worthington,
Mullan, Idaho.

Boise, Idaho,
February 5, 1924.

Dear Sir:—

Under the terms of your permit No. **15756** you are required to complete your diversion works on or before **May 7, 1924**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. SWENDSEN.

Commissoner of Reclamation.
