Dear Sir:

Reference is made to your communication of February 3 requiring the U. S. Department of Agriculture, Forest Service, to show cause before you why permit #14680 should not be cancelled because of lack of Proof of Completion of Work on May 12, 1921.

I believe there must be some mistake in this matter inasmuch as you wrote to Ranger E. C. Pulaski at Wallace, Idaho, under date of October 19, 1922, sending him certificate of Completion of Work and Water License, together with receipt for fees issued under Permit #14680. The certificate and water license are now on file in this office.

Will you kindly advise in respect to this matter?

Wallace, Idaho..

Dear Sir:—

Under the terms of your permit No. 14680 you are required to complete your diversion works on or before May 12, 1921. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use.
