Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 9038/94-2071 Priority Dec. 22, 1965 Amount 3.0 cfs

THIS IS TO CERTIFY, that THE BUNKER HILL COMPANY
of Kellogg, Idaho, has complied with the terms and conditions of Permit
No. 9038/94-2071 issued pursuant to Application for Permit dated December 14, 1912,
and has submitted proof to the Department of Water Resources on February 12, 1971 (late proof),
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 3.0 cfs of water from ground water & seepage,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Industrial</u> <u>(Mining)</u>	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>3.0</u> cfs and	<u>n/a</u>
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 3.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
n/a acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 12,
Twp. 48 N, Rge. 2 E, B.M. in the County of Shoshone

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
			BUNKER HILL MINE, SHOSHONE COUNTY																

Total number of acres irrigated _____

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 23 day of
December, 19 74.

Director

APPLICATION FOR AMENDMENT

IT APPROVED

Comes now The Bunker Hill Company of (address) _____

No. 94-2071(F-9), and requests that the permit and permit map be changed as follows:

1. Point of diversion: SW ¼ NW ¼, Sec. 12, T. 48N
R. 2E, B.M. Other points of diversion

mo. - day mo. - day

For Industrial (Mining) purposes from Jan. 1 to Dec. 31 (both dates incl.)

For _____ purposes from _____ to _____ (both dates incl.)

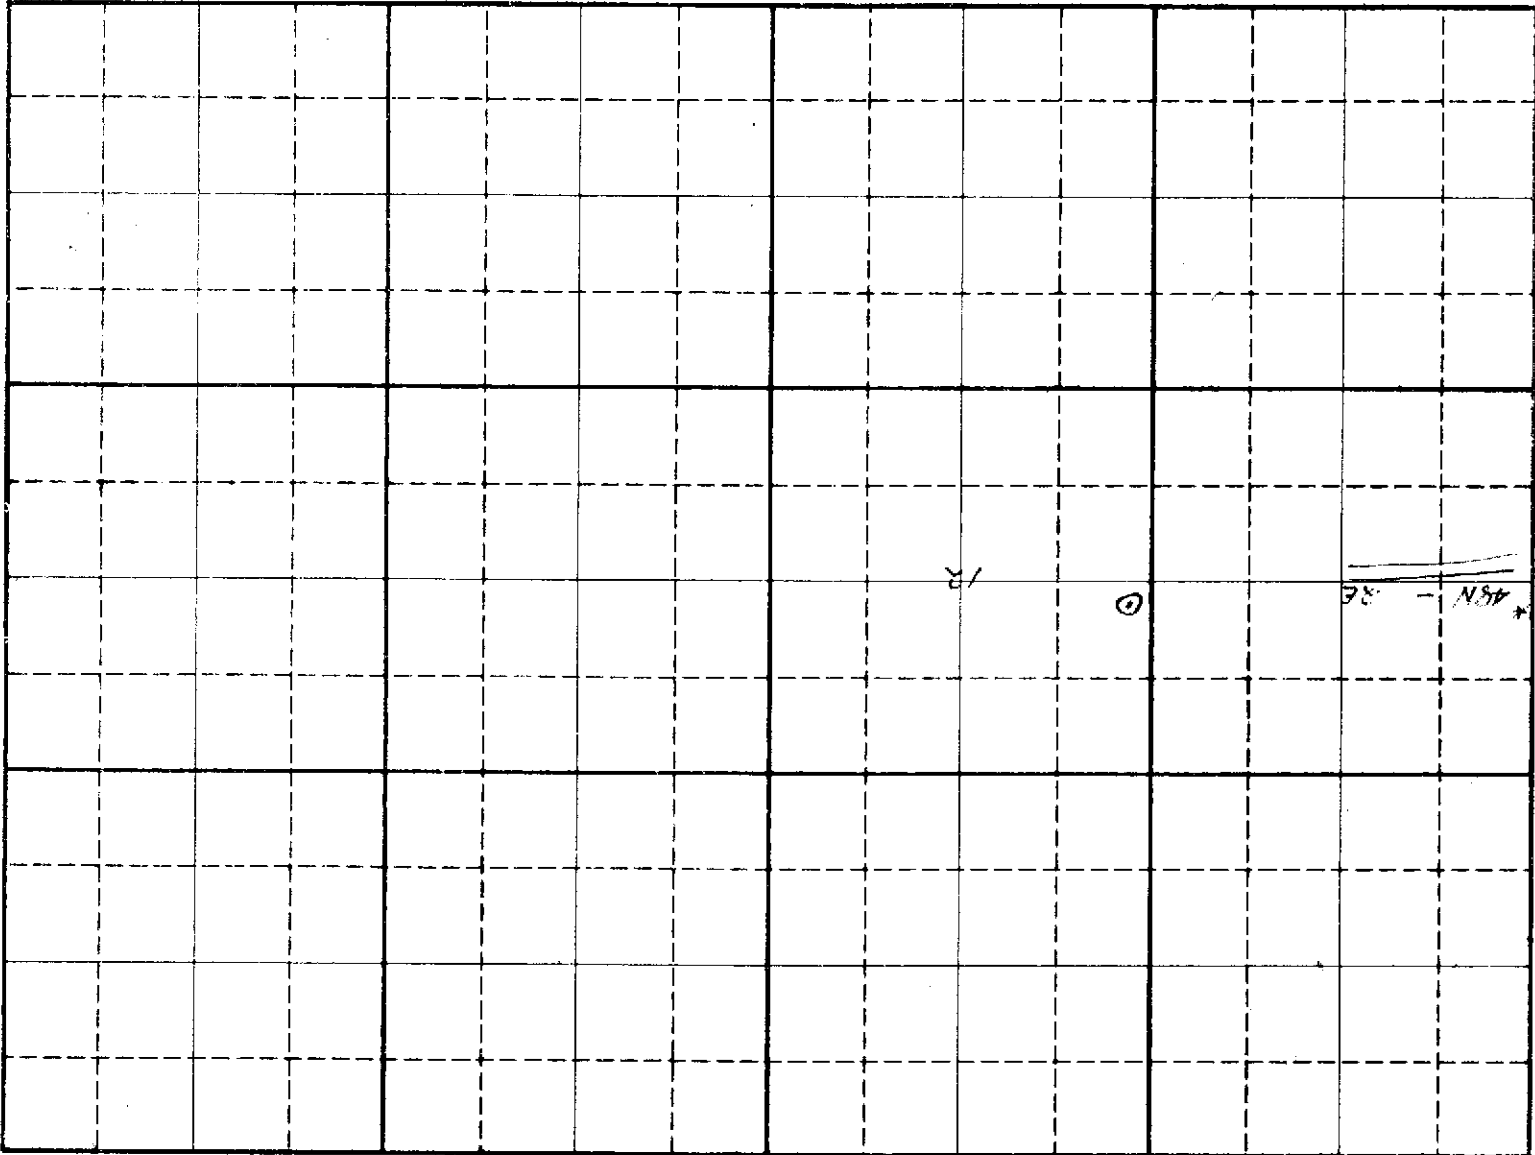

For _____ purposes from _____ to _____ (both dates incl.)

For _____ purposes from _____ to _____ (both dates incl.)

[illegible]

94 2071

Complete the following map by showing land and point of diversion as proposed by this amendment. Show 40 acre subdivisions, sections, townships, ranges, and ditches.

That no one will be injured by such change, and that such change will be made at permit holder's own risk.

Signed at Helena, Idaho, this 8th day of March, 1972

The Bunker Hill Co. by Robert M. Mays

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that The Bunker Hill Company, Box 29, Kellogg, Idaho, has received an approved Permit No. 9038-94-2071 issued by the Idaho Department of Water Administration authorizing the diversion of 3.0 cubic feet per second of water from Deadwood Gulch Creek. The priority to be established under this permit is December 22, 1965, and the permit was approved February 4, 1913.

Water is to be diverted by mine shafts and tunnel from a point within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 12, T. 48N, R. 3E, B.M., Shoshone County, to be used for mining purposes in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 12, T. 48N, R. 3E, B.M.

Proof of the application of the water to beneficial use was submitted to the Department on February 12, 1971. Any protests against the issuance of the license for the above referenced permit should be filed with the Idaho Department of Water Administration within ten (10) days of the last date of publication of this notice.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

1. Name of applicant: Federal Mining & Smelting Company.

Postoffice address: Wallace County: Shoshone State: Idaho.

I. If applicant is a corporation, give

(a) Date and place of incorporation: Delaware

(b) The amount of capital stock: \$30,000,000

(c) The amount paid in: 18,000,000

(d) Names and addresses of directors: See Remarks.

II. The financial resources of the applicant are: (a) Cash on hand: \$100,000.00

(b) Treasury stock: \$12,000,000

(c) Bonds to be issued: None

(d) Other resources: Over \$100,000.00

2. The quantity of water claimed is three (3) cubic feet per second.

3. Source of water supply: (See Remarks 1)

4. Location of point of diversion: (See Remarks 2)

5. To be used for: Milling operations and fire protection. County of Shoshone

I. Irrigation and domestic use: (a) Amount of land to be irrigated:

acres.

(b) In the following legal subdivisions:

II. Mining, milling, power, manufacturing, transportation or other purposes:

[a] At what point: (See Remarks 3)

[b] Amount of power to be generated:

H. P. under

ft. head

[c] Is water to be returned to any stream? yes

(d) If so, name stream and locate point of

return: Deadwood Creek near Arizona Tunnel portal of Milo Creek near

Sweeney Tunnel portal of both

6. Estimated cost of works: \$4,000.00

7. Description of works for diversion:

I. Kind of works: Dams, pumps, pipes, ditches and water columns. See Exhibit No. 1.

II. Dimensions of works:

[a] Height of dam 2 dams 7
4 to 16 inches thick

feet, length of dam at top 6

feet,

~~length of dam at bottom~~

x feet. Material used in construction: wood and concrete

[b] Capacity of reservoir

acre feet. [c] Size of headgate, width

feet,

Height

feet.

(d) Conduit

pipe

1 1/2 to 6 inches in diameter
width ~~24 inches~~ feet

width at water line

feet, depth of water

feet, diameter of pipe
6000 feet

inches, average grade per mile is

feet.

Length of conduit is about 1/2 miles,

and it crosses the following quarter sections: NW 1/4 Sec. 12, SW 1/4 Sec. 12, SE 1/4 Sec. 12 T. 48 N.
Range 3 East of Boise Meridian (Underground) See Exhibit No. 1.

8. The time required for the completion of the construction of such work is three years.

9. Time required for the complete application of the water to the proposed use is two additional years.

BE IT KNOWN That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

Federal Mining & Smelting Co.,
Applicant.

By A. H. Featherstone..... Agent.

LICENSE ISSUED FOR 30 SEC. FT.
LICENSE PAGE NO. 1

Date of first receipt at office of State Engineer: 11.00 a.m. December 14, 1912.

Returned to applicant for correction December 20, 1912.

Corrected application received January 17, 1913.

APPROVAL OF STATE ENGINEER.

The number of this permit is 9038.

Recorded in Book 29 Page 9038 Approved February 4, 1913.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions.

Bond in the sum of to be filed on or before

Work to begin on or before April 5, 1913 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before August 4, 1914.

The whole of said work to be completed on or before February 4, 1916.

Beneficial use of water appropriated in accordance herewith, to be made on or before February 4, 1918.

Witness my hand this 4th day of February, 1913.

A. E. Robinson,
State Engineer.

Remarks:

No. 1. From diamond drill holes, springs and all other drainage waters from all the levels and workings of the mines known as the Wardner Mines of the Federal Mining & Smelting Co., the same being also known as the Last Chance Mine, situate at Wardner, Shoshone County, Idaho.

No. 2. Point of Diversion No. 1: - Sump at bottom of main shaft below No. 6 shaft level of said mine.

Point of Diversion No. 2: - Sump on No. 4 shaft level of said mine.

Point of Diversion No. 3: - Dam in Arizona Tunnel about 100 feet west of mouth of Jersey Crosscut.

Point of Diversion No. 4: - Sump in Oakland Drift at bottom of Inez Shaft.

Point of Diversion No. 5: - Dam in Oakland Drift about 30 feet west of bottom of Inez Shaft.

And points of diversion at any other places in the underground workings of said mine as may be necessary or convenient for the accomplishment of the purposes set forth in this application.

No. 3. For mining and milling operations, and power, at Sorting Plant. Saw Mill and yards at Arizona and Sweeny Tunnel portals, and at stations in said mines, and for Fire Protection at all the above mentioned points.

Harry L. Day, Pres. & Gen'l Mgr., Wallace, Idaho.
E. J. Barney, Dayton, Ohio.
F. C. Druding, Treas., 165 Broadway, New York, N. Y.

EXHIBIT NO. 1.

Remarks No. 4.

The proposed works consist of the following: A pump on the No. 4 shaft level, a pump on the No. 6 shaft level, and a four inch water column 1000 ft. long for raising water to the Sweeny Tunnel level. This 4 inch column branches at the collar of the shaft, a 4 inch line running easterly 75 ft. to a fire pump which in turn is connected with a 4 inch pipe line 1020 ft. long running easterly along the Sweeny Tunnel drifts to a junction with a 6 inch pipe line 2200 ft. long running easterly along the Sweeny Tunnel drifts and crosscut to the portal of the Sweeny Tunnel. Valves along this pipe line are so arranged that water can be pumped either from the outside in, or from the inside out. A Hydrant is connected to the 4 inch pipe line 10 ft. from the fire pump. The fire pump is also connected by a $1\frac{1}{2}$ inch pipe line with diamond drill holes in the Arizona Tunnel.

The westerly branch of the 4 inch column pipe is a 4 inch line 550 ft. long along the Sweeny Tunnel level to the dam, at point of diversion No. 3. The valves in this line are so arranged that water can be handled either easterly or westerly as occasion demands.

The dam at Point of Diversion No. 3 forms a reservoir, No. 1, which may be filled from the pumps in the shaft, or by natural drainage, and may be drawn upon, either by the fire pump near Sweeny level shaft station, or the pump at Point of Diversion No. 4 in Oakland drift.

Pump at Point of Diversion No. 4, draws water from sump of Inez Shaft, from Reservoir No. 1, or from Reservoir No. 2, and discharges into a 4 inch pipe line 900 ft. long running along the Oakland Drift and Arizona Tunnel to the portal.

Dam at Point of Diversion No. 5 collects natural drainage waters from the Oakland Drift, and branches; and from drifts above the Oakland Drift, and forms Reservoir No. 2.

The 4 inch pipe line running along the Arizona Tunnel branches at its mouth. The right hand branch supplies water to two hydrants in Arizona Yard. The left hand branch connects with a distributing hydrant from which water is supplied, for milling purposes, to the Sorting Plant. Water is also diverted from this distributing hydrant through a 3 inch pipe to Storage Reservoir No. 3, when there is a surplus from the Sorting Plant. When there is no surplus, water feeds back through the same line to the distributing hydrant, Sorting Plant, and fire hydrants.

A fire hydrant is located on the 3 inch line from the distributing hydrant to Storage Reservoir No. 3. Water is returned to Deadwood Creek from the Sorting Plant, and to Milo Creek or Deadwood Creek in case of fire or other use of fire hydrants.

Date of Proof of Completion of Works, January 10th, 1916.

Date Certificate of Completion of Works was issued: April 6th, 1916.

Permit No. 9038.

CERTIFICATE OF COMPLETION OF WORKS.

To All Whom It May Concern:-

This is to certify that Federal Mining & Smelting Company, of Wallace, County of Shoshone, and State of Idaho, the holder of Permit No. 9038, issued upon application No. 13536 bearing date of priority of December 14, 1912, authorizing the diversion of three (3) second feet of the waters of drill holes, springs and other drainage waters of the Last Chance Mine, County of Shoshone, State of Idaho, for mining, milling, power and other purposes, not irrigation, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use three (3) second-feet of the drainage waters of the Last Chance Mine; that the points of diversion of said waters are as follows: 1. Sump at bottom of main shaft below No. 6, shaft level of Last Chance Mine; 2. Sump No. 4 Shaft level of said mine; 3. Dam in Arizona tunnel about 100 feet west of mouth of Jersey Crosscut; 4. Sump in Oakland Drift at bottom of Inez shaft; 5. Dam in Oakland Drift about 30 feet west of bottom of Inez shaft, and that the place of use of said water is described as follows, to-wit: At Sorting Plant, Sawmill and yards at Arizona and Sweeny Tunnel portals and at stations in said mines.

Witness my hand this 6th day of April, 1916.

Kellogg, Idaho 83837

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 9038/94-2071 and has found the following:

Quantity of water diverted: 3.0 cfs Source: groundwater & seepage

Amount of water that can be recognized as beneficially used under Idaho law: 3.0 cfs

The maximum quantity diverted shall not exceed n/a acre feet per year.

Beneficial use: For industrial (mining) uses within the Bunker Hill Mine, Shoshone County

Point of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 12, Twp. 48N, Rge. 2E, B.M.

Priority date established: December 22, 1965

If you do not concur with these findings, please advise us within 10 days; otherwise a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Gentlemen:

Since you agree with our findings concerning the point of diversion of the above referenced claim to a water right, a claim form has been re-typed and will require your signature and a notary. We are enclosing a partially completed form. There will be no charge for this change.

We have also noticed that another change is necessary to correct the same discrepancy concerning the point of diversion on Permit No. 94-2071. An amendment is necessary to change a permit and a \$10.00 filing fee is required for this amendment. We are also enclosing the necessary form for this change.

Your cooperation in this matter is greatly appreciated.

Very truly yours,

Rex L. Chapman

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that The Bunker Hill Company, Box 29,
Kellogg, Idaho, has received an approved Permit No.
9038/94-2071 issued by the Idaho Department of Water Administration auth-
orizing the diversion ~~of~~ of 3.0 cubic feet per second ~~acre feet~~
~~of water from~~ of water from Deadwood Gulch Creek.
The priority to be established under this permit is December 22, 1965,
and the permit was approved February 4, 1913.

Water is to be diverted by mine shafts and tunnel
from a point within the SW¹/₄NW¹/₄ Sec. 12, T. 48N, R. 3E, B.M., Shoshone County,

to be used for mining purposes
in the SW¹/₄NW¹/₄ Sec. 12, T. 48N, R. 3E, B.M.

Proof of the application of the water to beneficial use ~~was~~ ^{was} ~~to be~~ sub-
mitted to the Department on ~~or before~~ February 12, 1971. Any protests
against the issuance of the license for the above referenced permit should
be filed with the Idaho Department of Water Administration within ten (10)
days of the last date of publication of this notice ~~or prior to the licensing~~
~~of the permit. Licensing may commence upon the date beneficial use proof~~
~~is filed with the Department.~~

Re: Permit No. 9038/94-2071

The Bunker Hill Company
Box 29
Kellogg, Idaho 83837

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed you will find an Order which advances the priority under this permit to December 22, 1965.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use.

The enclosed order modifies the above referenced permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed form, we will cause the notice to be published.

If you have any questions or if we may be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 9038/94-2071)
in the name of THE BUNKER HILL COMPANY)
_____)

ORDER

WHEREAS, on December 14, 1912, The Bunker Hill Company applied to the Department of Water Administration (formerly the Department of Reclamation) for a permit to appropriate 3.0 cubic feet per second of water from Deadwood Gulch Creek to be used for power and mining and milling operations; and

WHEREAS, on February 4, 1913, the Department approved the application and issued Permit No. 9038 with the condition that one-fifth of the work be completed on or before August 4, 1914; and that the whole of said work be completed on or before February 4, 1916; and that the water be appropriated to a beneficial use on or before February 4, 1918; and,

WHEREAS, proof of completion of works was made on January 10, 1916; and,

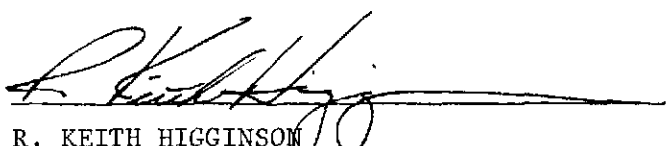

WHEREAS, on January 4, 1971, the Department notified the permit holder that Permit No. 9038/94-2071 was subject to cancellation for failure to submit proof of beneficial use of water due on or before February 4, 1918; and,

WHEREAS, proof of beneficial use of water was received by the department on February 12, 1971; and,

WHEREAS, Section 42-218a of the Idaho Code provides that in the event that proof of beneficial use is submitted after the deadline set forth in the conditions of approval, the priority date of such permit shall be advanced the same number of days that said proof is late;

THEREFORE, IT IS HEREBY ORDERED that the priority under Permit No. 9038/94-2071 be advanced to December 22, 1965.

Dated this 22nd day of March, 1971.

_____)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

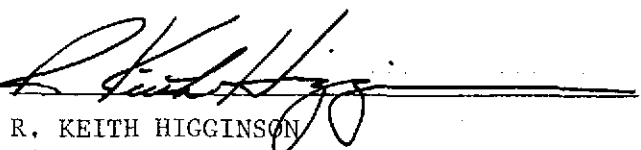

WHEREAS, on August 1, 1968, the Department of Water Administration adopted Rules of Practice and Procedure for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 9038/94-2071 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedure as follows:

1. The above numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

Dated this 22ND day of March, 1971.

Re: Permit No. 9038 (New No. 94-2071)

C
Federal Mining & Smelting Company
Harry L. Day
Wallace, Idaho 83873

Gentlemen:

O
It appearing to the Department of Water Administration that the terms and conditions of Permit 9038/94-2071 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit proof of beneficial use of water due on February 4, 1918, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before February 13, 1971, why said permit should not be cancelled.

P
Y
Permit 9038/94-2071 claims the use of 3.0 cubic feet per second of water, the point of diversion was to be located (1) Sump at bottom of main shaft below No. 6, shaft level of Last Chance Mine (2) Sump No. 4 shaft level of said mine (3) Dam in Arizona tunnel about 100' west of mouth of Jersey Crosscut (4) Sump in Oakland Drift at bottom of Inez shaft (5) Dam in Oakland Drift about 30' west of bottom of Inez shaft, and the permit was approved February 4, 1913.

Dear Sir:

I enclose herewith blank notice of proof of Application of Water to Beneficial Use under your permit No. 9038 which kindly fill out and return to me at least 60 days before the date upon which you wish to submit proof. The date of the proof is set out in your permit, and if proof is submitted subsequent to that your priority will be advanced a time equal to the difference of the time between the date proof should have been submitted and the date it is submitted.

Yours truly,

J. H. SMITH,

State Engineer.

Re Permits 9038-11423-
Federal M. & S. Co.

Mr. A. H. Featherstone,
Attorney at law,
Wallace, Idaho.

Sir:--

We are today in receipt of your letter enclosing affidavit for proof of completion of works under above permit, No. 9038, depositions and affidavit of publication for final proof under permit No. 11423 and check in the sum of \$10.00 for fees due. In reply would say that, before license can be issued under Permit No. 11423, it will be necessary to have the works examined and report filed by some competent person. If the holder can send the name of some one to do this work, the regular report and map forms will be sent.

Very truly yours,

J. H. SMITH,

State Engineer.

By _____

The check for fees will be held pending your reply.

EXHIBIT "A".

- No. 1 From diamond drill holes, springs and all other drainage waters from all the levels and workings of the mines known as the Wardner Mines of the Federal Mining & Smelting Co., the same being also known as the Last Chance Mine, situate at Wardner, Shoshone County, Idaho.
- No. 2 Point of Diversion No. 1:- Sump at bottom of main shaft, below No. 6 shaft level of said mine.
Point of Diversion No. 2:- Sump on No. 4 shaft level of said mine.
Point of Diversion No. 3:- Dam in Arizona tunnel about 100 feet west of mouth of Jersey Crosscut.
Point of Diversion No. 4:- Sump in Oakland Drift at bottom of Inez Shaft.
Point of Diversion No. 5:- Dam in Oakland Drift about 30 feet west of bottom of Inez Shaft,
And points of diversion at any other places in the underground workings of said mine as may be necessary or convenient for the accomplishment of the purposes set forth in this application.

EXHIBIT "B".

The proposed works consist of the following:- A pump on the No. 4 shaft level, a pump on the No. 6 shaft level, and a four inch water column 1000 ft. long for raising water to the Sweeny Tunnel level. This 4 inch column branches at the collar of the shaft, a 4 inch line running easterly 75 ft. to a fire pump which in turn is connected with a 4 inch pipe line 1020 ft. long running easterly along the Sweeny Tunnel drifts to a junction with a 6 inch pipe line 220 ft. long running easterly along the Sweeny Tunnel drifts and crosscut to the portal of the Sweeny Tunnel. Valves along this pipe line are so arranged that water can be pumped either from the outside in, or from the inside out. A Hydrant is connected to the 4 inch pipe line 10 ft. from the fire pump. The fire pump is also connected by a 1½ inch pipe line with diamond drill holes in the Arizona Tunnel.

The westerly branch of the 4 inch column pipe is a 4 inch line 550 ft. long along the Sweeny Tunnel level to the dam, at point of diversion No. 3. The valves in this line are so arranged that water can be handled either easterly or westerly as occasion demands.

The dam at Point of Diversion No. 3 forms a reservoir No. 1, which may be filled from the pumps in the shaft, or by natural drainage, and may be drawn upon, either by the fire pump near Sweeny level shaft station, or the pump at Point of Diversion No. 4 in Oakland drift.

Pump at Point of Diversion No. 4, draws water from sump of Inez Shaft, from Reservoir No. 1, or from Reservoir No. 2, and discharge into a 4 inch pipe line 900 ft. long running along the Oakland Drift and Arizona Tunnel to the portal.

Dam at point of Diversion No. 5 collects natural drainage waters from the Oakland Drift, and branches; and from drifts above the Oakland Drift, and forms Reservoir No. 2.

The 4 inch pipe line running along the Arizona Tunnel branches at its mouth. The right hand branch supplies water to two hydrants in Arizona yard. The left hand branch connects with a distributing hydrant from which water is supplied, for milling purpose, to the Sorting Plant. Water is also diverted from this distributing hydrant through a 3 inch pipe to Storage Reservoir No. 3, when there is a surplus from the Sorting Plant. When there is no surplus, water feeds back through the same line to the distributing hydrant, Sorting Plant, and fire hydrants.

A fire hydrant is located on the 3 inch line from the distributing hydrant to Storage Reservoir No. 3. Water is returned to Deadwood Creek from the Sorting Plant, and to Milo Creek or Deadwood Creek in case of fire or other use of fire hydrants.

Permit No. 9,038.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Federal Mining & Smelting Co.,
A.H. Featherstone, Atty.
Wallace, Idaho.

Boise, Idaho,

Dear Sir:

Nov. 6, 1915.

Under the terms of your permit No. 9038, you are required to complete your diversion works on or before Feb. 4, 1916. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J.H. SMITH.

State Engineer.
