RE: COMPLIANCE/GW PROTECTION REGULATIONS
WATER RIGHT #91-07108

DATE: 9-SEP-1992

=====

During license review of the above referenced right, concerns regarding the well construction and groundwater protection cited by the field examiner were considered.

The well inspection form noted that on 06-26-91 Dave LePard and the examiner revisited the site and informed the owner of procedures for sealing the surface. There is no evidence that groundwater protection regulations have been met or complied with. Mark Slifka, Ground Water Protection, recommends that such evidence be provided before licensing this right.

I am withholding this right from processing until the well has been inspected or compliance verified. Please send information to my attention. Thanks.

PROOF DUE NOTICE

RE: PERMIT NO. 91-07108

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P91-07108

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Water Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To appropriate The Public Waters Of The State Of Idaho and your filing fee of \$30.00 for which receipt #N-003610 is enclosed. However I regret to inform you that the application is not acceptable in its present form, so I am returning it to allow you to clarify / complete the following:

Item #3: The legal description of the point of diversion must agree with the map (Item # 13).

Item #4: The usual diversion rate for domestic purposes is 0.04 cfs/home. You may file for more than this amount for domestic purposes if you wish, but it may not be approved unless you provide evidence that the excess water is needed. If you decide to change Item #4, you must also change Item #5.

Item #9: This item must be completed by listing the location of all proposed water uses to the nearest 40 acre tract. This may be done by following these steps: First insert Township (Twp.) Ranges (Rge.), Sections (Sec); next, identify each use and location of that use within the section by placing the indicated symbol in the appropriate box as shown below.

STOCKWATER = S; DOMESTIC = D; COOLING = L; FISH PROPAGATION = H;
RECREATION = R; COMMERCIAL = C; FIRE PROTECTION = F; INDUSTRIAL = I;
MINING = X; AESTHETICS = J; GROUNDWATER RECHARGE = E; WILDLIFE = W;
HEATING = G; MUNICIPAL = M; POWER = P; IRRIGATION = (NUMBER OF ACREAGE TO
BE IRRIGATED IN EACH 40 ACRE TRACT);

Twp.	Rge.	Sec	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE

Item #10: Describe any other water rights you possess, by number if possible. If none, then please so indicate.

The Application must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
