RE: PERMIT NO. 91-07104

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Dear Mr. Cady:

Re: Permit No. 91-7104

On February 5, 1990, the department received the proof of beneficial use form along with the \$50 filing fee. The proof indicates that "no water has been diverted to date".

The permit was issued for the proposed diversion of 0.15 cfs of water from the St. Joe River for five acres of irrigation within Sec. 7, Twp. 46N, Rge. 2W. A condition of the permit was that proof of beneficial use be submitted on or before January 1, 1990.

The proof of beneficial use form is a statement to the department that the project has been completed and the water is being used as proposed by the permit. If this is not the case, a different type of action must be taken.

If the project has been worked on and some construction has been accomplished toward the development of the proposed irrigation or if the delay in developing the water right is due to a reason as listed on the instruction, I suggest you file a request for extension of time (enclosed with instruction sheet). If, however, the development will not be for several more years, I suggest you let this permit lapse and file a new application within one year of the time you intend to divert and beneficially use the water.

Please let me know what action you wish to pursue. If you have questions, contact me.

Sincerely,

RITA I. FLECK  
Secretary/Records Manager

LAPSE NOTICE

RE: PERMIT NO. 91-07104

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated October 31, 1989.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 91-07104

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Re: Permit No. 91-7104

Dear Mr. Cady:

Returned is your proof of beneficial use form (proof) submitted to this office March 8, 1989 indicating the total rate of water use for which proof is submitted as 0.15 cfs.

If the use is for single family domestic and/or stockwater use or the total maximum rate of diversion is 0.04 cfs, a license examination fee is not required to be submitted with the proof. Your permit includes irrigation use (5 acres) with a maximum rate of diversion of 0.15 cfs. Therefore, the license examination fee is required. The licensing exam fee based on a rate of flow of 0.15 cfs is \$50.

Please return the proof and \$50 licensing exam fee at your convenience, since an acceptable proof is not due until January 1, 1990. Upon receipt of the fee and form, the department will notify the region that a field examination is needed.

If you have any questions concerning this matter, feel free to contact this office.

Re: Appropriation Application #91-07104

Dear Applicant:

After advertising your application for permit, a final review was conducted to insure that the application met with the Idaho Code. During this review, it was noticed that the rate of diversion was for more water than is normally allowed by code. Since there is no indication that the excess amount is necessary we will reduce the rate of diversion to .15 cfs (approximately 67 gals. per minute), unless we hear from you prior to Oct. 5th, 1988.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King  
Sr. Water Resource Agent

RE: Appropriation Application

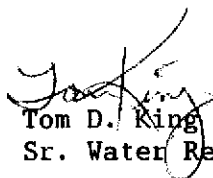

Dear Sir:

This office is in receipt of your application to appropriate water from the St. Joe River tributary to the Coeur d'Alene River and your check #98-186 in the amount of \$30.00 and we are returning them to you since the legal descriptions did not appear to be accurate and the application was not signed.

I have taken the liberty of completing a new application, based on the Benewah County Assessors records and on the original application. Please check the new application carefully to insure that there are no mistakes, sign the application and return it to this office with the \$30.00 filing fee.

If you have any questions regarding this matter please feel free to contact me at this department.

Sincerely,

  
Tom D. King  
Sr. Water Resource Agent
