Re: 91-07090

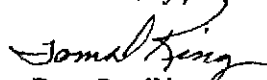

Gentlemen:

I have reviewed the Field Report submitted by our field examiner and have checked the location of the homes, both at the site and on the Benewah County Assessors aerial photographs. It is my considered opinion that the Westernmost home is in fact in the SE 1/4 of the SW 1/4 of Section 20, T.46N., R.2W. Since the application only provided for domestic use within the NW 1/4, of the SE 1/4, the only method of licensing the home in the SE SW is by signing the enclosed amendment form and returning it to this department with the \$20.00 amendment fee.

The two places where the water is collected is identified in Item #6 of the Remarks section.

If you fail to submit the application for amendment within 30 days of the date of this letter, this Department will act to void your Permit in accordance with Idaho Code 42-219, which states in part that if the department finds "that the applicant has not fully complied with ... the conditions of the permit ... it may refuse issuance of a license and void the permit." One of the conditions of the permit was that the place of use be located as indicated on the permit.

Sincerely,

Tom D. King

RE: Permit No. 91-07090

NOTICE OF PENDING ORDER VOIDING PERMIT

Dear Permit Holder(s):

The development proposed in Permit to Appropriate Water No. 91-07090 was examined in 1989 by Department of Water Resources personnel. At the time of the examination, the Department personnel discovered that the actual place of use &/or point of diversion differed from the place of use &/or point of diversion proposed in the permit.

We have attempted on several occasions to persuade you to file an application for amendment of Permit No. 91-07090 with the Department. To date, the application for amendment of the permit has not been filed with the Department.

Enclosed is a completed application for amendment of your permit which reflects the correct point of diversion and place of use. You should sign the application for amendment, and return it to this Department accompanied by a \$20 filing fee within thirty (30) days of the date of this letter.

Should you fail or refuse to submit the application for amendment within thirty (30) days, the Department will act to void your permit. The grounds for voiding the permit are set forth in Section 42-219, Idaho Code, where it states that if the Department finds "that the applicant has not fully complied with the law and the conditions of the permit . . . [it] may refuse issuance of a license and void the permit." One of the conditions of the permit was that the point of diversion would be located as indicated on the permit.

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.
