Dear Mrs. Rita Fleck:

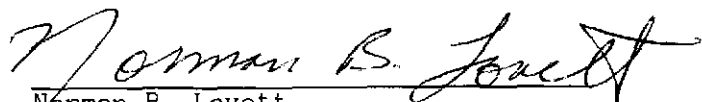

Please find enclosed the proof of beneficial use form and fee of \$100.00.

The source of the water is 7 springs and 3 cisterns for domestic, irrigation for lawns/pastures/garden and orchard, and livestock. Also, a small stream flows into a pond site. The roadway/dam was raised three feet from an established roadway, and the height from maximum water line to downstream toe is less than 10 feet (9.5 feet).

As per our conversation, I understand the field examination will not occur until spring, which will allow the roadway to settle and compact and allow time to fill the pond slowly over the winter without stressing the roadway/dam.

Thank you for your help and consideration in this matter.

Sincerely,

Norman B. Lovett

PROOF DUE NOTICE

RE: PERMIT NO. 91-07049

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Sirs,

RE: Request for extension, permit No. 91-7049

We have continued to make progress to complete the water resources projects applied for in our permit. The 3,600 square foot guest lodge remains under construction and is the major reason that labor and funding has not been available to complete all of the water project. The lodge has been hooked up to two alternate sources of domestic water along with an approved extensive septic system. The two spring collection boxes are planned for completion this summer and the following summer we expect to complete the small storage dam. This will complete our project for now.

Accordingly, I respectfully request an extension until 1 Nov. 1991. Please find enclosed the Request for Extension of Time Form.
