Dear Mr. Perkins:

Re: Permit No. 91-7028

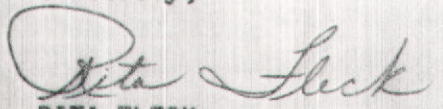

PROOF DUE NOTICE

One of the conditions of approval of your water permit no. 91-7028 was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1983. (See last page of your approved permit or your last approved extension request). Enclosed is a postcard which may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time provided the delay is for reasonable cause as described in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either the beneficial use postcard or a request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

Dear Mr. Perkins:

Re: Permit No. 91-7028

Enclosed is the Statement of Beneficial Use postcard and a copy of the approved request for extension of time which after reviewing your letter of November 17, 1982 together with previous correspondence in the file, I thought it might be helpful to you to briefly explain some of the water right laws and constraints within which a water right may be developed.

As described in past correspondence, the Department can grant only one extension of time for due diligence or one extension for each instance when the permit holder has been prevented from proceeding due to litigation, failure to obtain a right-of-way from the federal government or the like. Due diligence is not demonstrated by an intent to do something but instead must be actual accomplishment toward the development. Your past correspondence states you have not started the development.

The one year extension of time granted is due to delay caused by the Mt. St. Helen's eruption. A year has been granted rather than the five requested since only the amount of time actually lost can be added to the original time provided. While there are no definite specific time periods of delay caused by the Mt. St. Helen's eruption, one year appears to be more than liberal.

I hope this brief explanation will clarify the reasons for past department action.

I received the letter from you (copy enclosed) yesterday (16 Nov. 82.). I have again completed the Request For Extension form, and the Beneficial use card.

I do not know or understand all your regulations however, I fail to understand how you can arbitrarily cancel my permit.

Granted, under the circumstances I have not been able to accomplish the improvements to the water system that I intend. However, I point out that this water has been beneficially used for both domestic and stock use for at least the last sixty (60) years, and is still used.

Therefore, I again respectfully request that my permit be extended.

My current tour of duty here will end in May of 1985 at which time I will return to the U.S. permanently.

Your permit cannot be reinstated unless an adequate amount of work has been completed to submit either the statement of beneficial use postcard or an acceptable extension of time request showing reasonable cause for delay. Either the completed postcard or the extension request must be received by this office within sixty days of the date of this lapse notice or the permit will no longer be of any force or effect.

A statement of beneficial use postcard and a request for extension of time form are enclosed for your use. Please note that a fee of \$15.00 must accompany an extension of time request.

~~98930~~ 09038 changed original kw

Dear Mr. Perkins:

Thank you for returning the request for extension of time in which to submit proof to beneficial use of water under Permit No. 91-7028 with the additional explanation of your circumstances. In reviewing your situation it appears that we could grant an one year extension based upon the delay caused by the St. Helen's eruption, however the one year extension would require that proof of beneficial use be submitted by June 1, 1982. According to your letter you would be out of the United States until October, 1984. The extension would not be long enough to allow you to do any development.

Therefore, it appears that your best alternative is to file for another water permit to develop water for this permit when you return. Enclosed is your \$15.00 check no. 553, 92-1/1241 which could be applied toward the new permit. You still have the option of filing for the extension under this permit, however I doubt that more than one year would be approved.

If I can be of any further assistance on this matter please let me know. We will not start the lapsing process on this permit until August 16, 1982 so that you can respond to this letter if you desire.

Sincerely,

JIM JOHNSON

Water Distribution Supervisor

Dear Mr. Johnson

I thank you for your letter of April 27
(copy inclosed).

This is to inform you that I fully
intend to develop the water on
this property. As you know, I
intended to do the development
in the summer of 1980. However,
due to the Mt. St. Helens eruption
and the ash in the St. Mary's area
at that time, I was unable to rent
equipment to complete the work.

As explained on the form, my tour of
duty here now ends in Oct 1984.

Consequently I need time to get situated
in the U.S. again before I can start

this project. Therefore, I respectfully
that the permit be extended as per
my original request.

I have just enclosed my check in the
amount of \$15.00 to cover the filing
fee.

Your patience is appreciated.

Dear Mr. Perkins:

Thank you for responding to our letter of March 31, 1982, by submitting a request for an extension of time in which to submit proof to beneficial use of water under Permit No. 91-7028.

However, Idaho Code, allows the Director to approve requests for extension of time if the permit holder can show that he has made reasonable diligence toward permit development; you indicated on your request form that no work had been done. Therefore, based upon this information rather than officially acting on your request we are returning it with the suggestion if you still plan to develop the water as intended you refile for a new permit.

If you have additional information concerning the permit or wish us to act officially on your extension request, please return the form with a \$15.00 filing fee before June 1, 1982.

Sincerely,

JIM JOHNSON

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 91-7028 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE JUNE 01, 1982. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

Dear Mr. Perkins,

Thank you for your letter explaining your situation in regards to Water Permit No. 91-7028.

We normally don't process an extension of time request submitted prior to 6 months before the proof due date (June 1, 1982). You will receive a letter from us 30 days prior to June 1, 1982 requesting you to either submit proof or request an extension of time. You can make a decision at that time on what you want to do. If you have a change of address, please submit it to us so we can send future correspondence to the correct address.

I hope I have answered all of your questions, if not please contact me at 208-334-4162.

Sincerely,

Subject: Water Permit Application No. 91-7028

Gentlemen:

Shortly after I purchased subject property, I stopped at your Boise office and asked that the water permit (copy inclosed) be transferred to my name. The necessary forms to accomplish this were filled out by me at that time. (see attached letter dated 12 Sep 78)

I was working overseas when I purchased subject property, and have been overseas continually since that time, with the exception of vacation periods in the US. I was in the US on vacation in May-June this year, and intended to up-grade this water system at that time. However, this was impossible due to the fall-out from Mt. St. Helens, i.e., approximately 3/4" of ash on my property which made equipment operation impossible.

The current water permit provides that "Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 1982". The former occupants never constructed the water system as described in the inclosed permit, and due to circumstances beyond my control, I have been unable to start any construction.

Further, the "Dam" referred to by the former occupant (which I assume they intended to use), is virtually useless. Therefore, I propose to build a new concrete dam at the same location. However, as explained above I will not be back in the US until July 1982. Sometime after that date (July 1982) I plan to build a new house on this property, and simultaneously construct the water system.

Therefore I respectfully request that the proof of construction period be extended from June 1, 1982 until June 1, 1987.

If further forms are required, please provide these forms and I will complete and return them immediately.

Sincerely,

C. L. Perkins

Dear Mr. Rowland:

We have taken the liberty of typing your Application for Permit and we are returning it to you for your review and signature. You will also need to complete or clarify several items.

Under Item 4, the maximum amount of water we can normally allow for domestic purposes for one household is 0.04 cubic feet per second, which is equivalent to approximately 18 gallons per minute. The total amount of water you wish to appropriate should be listed under Item 5a. A brief description of your proposed system should be listed in Item 6a (dam, pipeline, etc.). Under Item 7a, we can allow up to five years for the completion of the construction of your system and application of the water to the use you have described. If, at the end of this time you have been unable to complete the system, you may request an extension of time for an additional five years. The number of families to be supplied with water should be stated under Item 8a(4).

After completing the above information, please sign the form at the bottom of Page 3. Your signature should appear in the same manner as it is shown under Item 1. When the application is submitted to our office, it must be accompanied by a filing fee which can be determined from the enclosed fee schedule.

If there are any questions in this matter, please do not hesitate to contact us.

Very truly yours,

Tom King
