

- (8) Remarks The priority date is based on our recreation files indicating that in 1963, 450 feet was installed. Reportedly the original development at the site was a small rock dam with a pipe as an outflow. The present metal culvert pipe installed in 1980 replaced a pressure treated springbox which was installed in 1977 which had replaced an earlier concrete structure. The lower spring below the developed springbox has been dug and modified at times and is the source of the wildlife watering rocked pool below about 50 feet and below to culvert.

Scale: 4 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

RE: Claim No. 91-4117

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

Robert G. Haynes, P.E.
