RE: Permits Nos. 24710, 24709 and 24711

U. S. Forest Service
St. Joe National Forest
St. Maries, Idaho

Gentlemen:

I am wondering if it would be possible for one of your Rangers at each of these stations to make the necessary engineer's report in connection with the above numbered Permits. The points necessary for him to cover will be as follows:

1. Locate the point of diversion quite accurately.
2. State the use to which the water is put.
3. Give the place of use quite accurately and in the case of irrigation, the number of acres irrigated.
4. The amount of water which is used to the best of their ability to determine, either in gallons per minute or the size of pipe it is carried through.

The inspection load in this office is extremely heavy and it seems difficult to get around to making these inspections.

Enclosed are blank forms on which to make the reports.

Dear Mr. Duvendack:

We acknowledge receipt of your letter of May 25 by Mr. David R. Kyle, Acting Supervisor, enclosing affidavits of publication in the Wallace Miner in connection with the above numbered permits.

This completes proof of beneficial use on these permits but before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We can not tell just when this examination will be made, but our field engineer will try and contact someone on the grounds at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Duvendack:

We acknowledge receipt of your letter of May 13 by David R. Kyle enclosing depositions of himself and two witnesses in proof of beneficial use on the above numbered permits.

The affidavit of publication is a necessary part of these proofs. We have received the affidavit of publication on Permit No. 24711 directly from the Daily Idahonian, but we do not have the affidavits on the other two permits. These notices were published in the Wallace Miner, and they were instructed to send you the affidavits. If you have not received these, we suggest that you take the matter up with them at once.

RE: Permits Nos. 24709, 710, & 711

Mr. George H. Duvendack
Forest Supervisor
St. Joe National Forest
St. Maries, Idaho

Dear Mr. Duvendack:

We have your letter of March 19th, enclosing proof of Completion of Works on the above numbered permits and we return purchase order No. 499282 for the \$15.00 fees duly assigned.

We also have notices for Beneficial Use proofs on the above numbered permits to be made at St. Maries May 12, 1954, but they do not give the name of the Notary Public before whom these proofs are to be made. Shall we insert the name of Marjorie C. Smith who seems to have notarised the other papers?

Upon receipt of your advice we shall send copies of these notices to the newspapers with instructions in regard to publishing and shall send you the necessary forms of deposition to be used in making the proofs.

Your attention, however, is called to the priority for these several permits which can only be the date the permits were filed in this Department, or December 21, 1953. If earlier priorities are to be established, no doubt this can be done, if necessary, by proving earlier continuous use through the district court.

RE: Permit Nos. 24709, 24710 & 24711

Mr. George E. Duvendack
Forest Supervisor
St. Joe National Forest
St. Maries, Idaho

Dear Mr. Duvendack:

We enclose Permits Nos. 24709, 24710 & 24711 together with departmental receipt for the \$15.00 filing fees.

Since the applications state that the works are completed, and no additional time is requested for Beneficial Use, we have allowed three months or until May 12, 1954, within which to make these proofs.

Completion of works proof should be made for each of these permits on form 6 enclosed, executed before a Notary public and returned to this Department with a fee of \$5.00 each.

Before making proof of Beneficial Use, the law requires publication once a week for four weeks in a county newspaper. These notices should be made in duplicate on form 10 enclosed, setting the time and place, and naming the Notary public before whom the proofs are to be made. The proofs may be made at any place convenient for you and your two witnesses and the time, of course, must be set sufficiently far ahead to allow for four weeks publication.

Both copies of form 10 to be returned to this Department with form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.
