PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 27-07185 Telephone No. 208-875-1148

2. Name(s) of Permit Holder(s): Tommy T. Dumbey

3. Mailing Address: P.O. Box 42

4. Source of Water: well If GROUNDWATER (well), Date Drilled: mo. / yr.

a. Well Driller: Drilling Permit Number:

b. OPTIONAL:
Pump Horsepower: 5 Pressure (psi): 600 Dynamic pumping level (ft):

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): 1 Stockwater (No. and type of stock): 200 Head cows

Irrigation (No. of acres): Other:

6. Total rate of diversion and/or volume for which proof is submitted: 1.00 cfs OR 100 acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes or No X

Has the measuring device been installed? Yes or No

Flow Measurement Port: Is a flow measurement port required? Yes or No

Has the measurement port been installed? Yes or No

8. Fee Enclosed: \$ \$100.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Tom Dumbey Telephone Number: 208-875-1148

Address: Box 42 Princeton, Idaho 83857

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

RE: License No. 87-7185 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Right Permit No. 87-07185

Dear Permit Holders:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

✓ **Places of Use**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at 208-327-7944.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Comment Report

87-7185

1. kwalker 3/31/2003 Place of Use

Comment: While creating a GIS shape of the irrigated place of use, I put the shape in as close to examiners map as I could and came up with a different number of acres in the 40 acre tracts. My shape is a little larger than 96 acres but as close to examiners map as I could get. Have edited legal descriptions to end up with 96 acres.

2. kwalker 3/31/2003 Stockwater Volume

Comment: Examiner determined volume based on 300 head of stock. Permit limits stockwater use to 200 head. Volume recommended for license is 2.7 afa. $200 \times 0.0134 = 2.7$ afa

3. DBALL 5/16/1995 DIVERSION DESCRIPTION

Comment: 10 HP pump. Existing well 8" diameter, 200 ft.

SEP 22 2003

E. NARRATIVE/REMARKS/COMMENTS

The well is a 100 foot deep, six-inch well with a static water level of 30 feet. There are two pumps at the well: a 5 HP submersible pump in the well and a 5 HP booster pump at the surface that is used for pasture irrigation. A pressure gauge is located on the downstream side of the booster pump. Operating pressure at the time of the exam was 36 psi (*Photo 1*). *Photo 2* shows the booster pump and diversions at the well.

After the booster pump, irrigation for the pasture is through a 4-inch mainline consisting of 44 risers at 40-foot intervals (*Photo 3*). Each riser runs between 20 and 23 hand-lines with only one line of sprinklers running at a time. Close to the well, 23 is the maximum number of sprinklers that can be run at a time. This number drops to 20 at certain places in the place of use, depending on topography and the proximity to the well. Each handline is 30 feet in length. Only about one-third of the 96 acres under irrigation are irrigated in any one season. This third is rotated from place to place with each consecutive year. *Photo 3* shows a portion of pasture that was out of rotation at the time of the exam. The delivery system is dismantled each winter and reconstructed the following spring to facilitate this rotation.

The place of use for this permit overlaps with the place of use for Water Right No. 87-07089B for irrigation on the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ and the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 22, Twp 41N, Range 4W.

The irrigated acres were determined by an aerial photograph (taken in 1989) using a 660 scale overlay. Some of the brush-land indicated on the photograph was put into irrigation since the photo was taken. The current place of use is outlined in red on the enclosed aerial photograph and outlined on the enclosed topographical map.

At the time of the exam, 20 hand-lines were in use. The total output for these 20 sprinklers was about 0.20 cfs or 0.01 cfs per sprinkler; therefore, 23 sprinklers should use about 0.23 cfs $((0.20 \div 20) \times 23 = 0.23)$ The lawn is irrigated at the same time as the pasture and uses about 0.09 cfs $(40.52 \text{ gpm} \div 448.83 \text{ gpm/cfs})$. Because of this, I recommend 0.32 cfs $(0.23 \text{ cfs} + 0.09 \text{ cfs})$ as the total rate of diversion for irrigation of 32 acres per year for the 96 acres place of use.

Stock water use is for 300 head of beef cattle. There are several stock tanks which are moved from place to place depending on the location of the cattle at any given time.

Domestic use is internal and serves 1 home.

Photo 4 is an overview of the water uses.

Have conditions of permit approval been met?

X Yes

no

MICROFILMED

SEP 22 2003

F. FLOW CALCULATIONS

Measured Method: Pitot tube / pressure gage and the manufacture's sprinkler nozzle charts.

a. Well Capacity:

Submersible pump HP → 5
Booster pump HP → 5
Static water level → 30
PSI → 36

$$\frac{(8.8)(0.7)(5+5)}{40 + (2.31)(36)} \approx 0.50 \text{ cfs}$$

b. Irrigation Volume:

Total from lawn 40.52 gpm
Total from pasture + 87.88 gpm

128.4 gpm

$$\frac{128.4 \text{ gpm}}{448.83 \text{ gpm/cfs}} \approx 0.29 \text{ cfs}$$

c. Stock Water Volume:

$$300 \text{ head beef cattle} \times 0.00022 \approx 0.07 \text{ cfs}$$

d. Domestic Water Volume:

$$\text{Domestic Interior for 1 Home} = 0.04 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 32 \times 3.0 = 96.0 \text{ afa}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$0.32 \times 213 \times 1.9835 \approx 122.5 \text{ afa}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{D.R.} = 96.0 \text{ afa}$$

2. Volume Calculations for Other Uses:

a. Stock volume:

$$300 \text{ head beef cattle} \times 0.0134 \approx 4.0 \text{ afa}$$

MICROFILMED

SEP 22 2003

b. Domestic Interior Volume = 0.6 afa

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 87-07185

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **NORTHERN** Regional Office of the department in Coeur D'Alene at (208) 769-1450.

Sincerely,

Karl Lynn Townsend
Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 87-07185

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1999.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 87-07185

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Sincerely,

Shelley W. Keen

FROM: BEARDSLEE
RE: WELL & UPGRADE FEE
DATE: SEPTEMBER 1, 1995

~~~~~  
BACKGROUND

I called Mr. Ownbey on September 1, 1995, to remind him he needed to submit the \$165.00 upgrade fee for his well before we could approve his water right permit. He stated that he wanted to re-drill another larger well next spring to use for irrigation purposes.

ACTION

This Application for Permit should be approved and we will collect a \$200.00 drilling permit fee from Mr. Ownbey for the construction of his second well.

Re: Application for Permit No. 87-07185 & Well Drilling Permit 87-93-N-49

Dear Mr. Ownbey:

The Department of Water Resources has completed the legal advertising of your application for permit to appropriate water. The filing is now ready to be sent our state office for approval. However, before we can do that, the status of the well drilling permit which was obtained by United Drilling prior to the drilling of your must be upgraded from that of a domestic well to a non-domestic. The fee for this change is \$165, payable to the Idaho Department of Water Resources. Please refer to the above referenced numbers so that we may ensure proper credit is given.

If you have any questions, please contact me.

Sincerely,

ROBERT G. HAYNES, P.E.  
Regional Manager

Subject: Water Appropriation Application for Permit Number 87-07185

Dear Mr. and Mrs. Ownbey:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N008920. Please refer to your Application for Permit Number in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE  
Senior Water Resource Agent
