CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.0 afa per acre for the lands above.

TO: File 87-07172 / Barry Ramsay and Suzanne Lamon
FROM: Brenda Chapman
DATE: February 7, 1996
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 87-07172 are based on the information below:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	3-15 to 11-15	.03	3.6
Domestic	1-01 to 12-31	.02	.6

The season of use has been changed to the current recommended guidelines for that area. (The irrigation recommendation cannot exceed the permitted rate of .03 cfs)

The domestic use of water for the restrooms in this small business is equivalent to the internal use needs of a single domestic home; therefore, the recommended rate of flow has been reduced to an internal use rate of .02 cfs. This conforms the recommendation to the current guidelines for processing combination domestic and irrigation rights.

RE: PERMIT NO. 87-07172

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur d'Alene, at (208) 769-1450.

Sincerely,

PROOF DUE NOTICE

RE: PERMIT NO. 87-07172

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1995. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

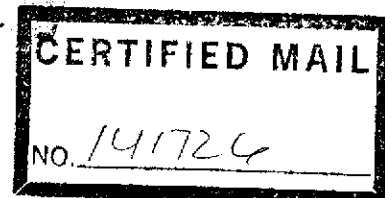

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Application for Permit Number 87-07172

Dear Mr.

This letter is in regard to the processing of the above-listed Application for Permit.

We have completed the advertising and the protest period for your filing and it is ready for approval at the regional level.

In order for us to be able to approve your Application for Permit, you must upgrade the status of your Well Drilling Permit Number 87-93-N-0024-000 from a Domestic Permit to a Non-Domestic Permit. You, or your driller have already paid \$35.00 for the Domestic Well Drilling Permit. Since the Non-domestic Well Drilling Permit fee is \$200.00, an additional \$165.00 is necessary to cover the cost of upgrading your drilling permit.

Therefore, we will hold your Application at this office for Permit until we receive the upgrade fees. To expedite the processing of your Application for Permit, please submit the \$165.00 fee as soon as possible. If we have not received the upgrade fee in this office within 30 days of the date on this letter, we will take steps to void your Application for Permit.

If you have any questions regarding the Well Drilling Program, you may call and speak with Mr. Tom King. And, please feel free to contact me with questions concerning the Water Right Program.

Sincerely,

Allen Beardslee

Dear Mr. and Mrs. Ramsay:

Subject: Water Application for Permit Number 87-7172.

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N7143. Please refer to your Application for Permit Number in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resource Agent
