WATER RIGHT LICENSE

WATER RIGHT NO. 87-07164

Priority: August 6, 1992

Maximum Storage Volume:

3.0 AF

This is to certify, that WILLIAM M GREENE
3369 BLAINE RD
MOSCOW ID 83843

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated July 2, 1992; and
has submitted Proof of Beneficial Use on December 6, 1993. An examination indicates
that the works have a storage capacity of 3.000 af of water from:

UNNAMED STREAM tributary to PALOUSE RIVER, SOUTH FORK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
WILDLIFE STORAGE	01/01 to 12/31		3.0 AF

LOCATION OF POINT(S) OF DIVERSION: SENW , Sec. 27, Township 39N, Range 05W
LATAH County

PLACE OF USE: WILDLIFE STORAGE
TWN RGE SEC
39N 05W 27 SENW

CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. Use of water under this right shall be non-consumptive.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 23RD
day of DECEMBER, 19 95.

KARL J. DREHER, Director

FEB 26 1996

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 87-07164)
IN THE NAME OF WILLIAM M. GREENE) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before November 1, 1993; and,

WHEREAS, the Department notified the permit holder on August 31, 1993, by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

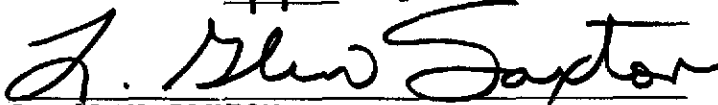

WHEREAS, the Department notified the permit holder on November 4, 1993, that the permit had lapsed for failure to submit an acceptable proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on December 6, 1993;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 87-07164 be REINSTATED with an advance in priority to August 6, 1992.

Dated this 14th day of December, 1993.

RE: Water Right License No. 87-07164

Dear Mr. Greene:

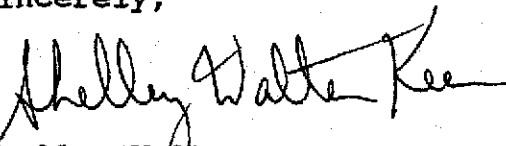

I have enclosed a copy of the Water Right License issued on Permit 87-07164. If you have any questions about your license, please contact me within 10 days.

The field examiner who verified your water use under Permit 87-07164 in 1994 reported that you also use water from a spring that was not part of the development authorized under Permit 87-07164. Since 1971, the only way to establish a right to divert and use surface water in Idaho is to obtain a permit from the Department of Water Resources.

I have taken the liberty of preparing and enclosing an application for permit for your use of the spring water based on the information supplied by the examiner who verified right 87-07164. Please review the application carefully and make any necessary changes. Be sure to elaborate at Item 8 where I have marked the form with an "*". When you are satisfied that it is correct, please submit the application for permit with the appropriate filing fee to our regional office in Coeur D'Alene. As I have prepared it, the filing fee would be \$50.00.

If you have any questions, please contact me at 208-327-7946 in Boise.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

MEMORANDUM

DATE: December 21, 1995

TO: File 87-07164

FROM: Shelley W. Keen *(SWK)*

RE: Reported use of water from a spring

=====

The field examiner for permit 87-07164 verified the storage of water as permitted, and he reported that the right holder also diverts the flow of a spring into his reservoir. The diversion from the spring was not authorized under permit 87-07164. I recommend that right 87-07164 be licensed to cover the permitted use and that the applicant be encouraged to file another application for permit to cover the diversion and use of water from the spring.

E. NARRATIVE/REMARKS/COMMENTS

Mr. Greene has a spring diversion with 50' ³/₄ pvc that go's into a catch basin that is then pumped up to the pond.

The surface area covers about 1.1 acres and has a max depth of 17' deep.

Pond Capacity = surface area x Max Depth
= 1.1 x 17 x .4 = 7.48 acre feet

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 87-07164

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Additionally, enclosed in an order reinstating your water right permit. Please note your priority date has been advanced to August 6, 1992.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur d'Alene, at (208)769-1450.

Sincerely,

JULIE L. YARBROUGH

LAPSE NOTICE

RE: PERMIT NO. 87-07164

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated August 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Re: Permit No. 87-07164

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, it is unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

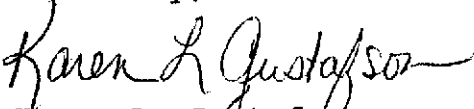

1. The water right must use a groundwater (well) source.
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use an unnamed stream (surface) for your source. Therefore, a license examination fee of \$50 applies to each permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

Since your permit will lapse on November 1, 1993, it is imperative that you return the properly completed proof of beneficial use form and \$50 license examination fee as soon as possible.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 87-07164

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

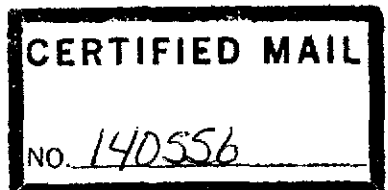

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Re: 87-7164

Dear Mr. Greene:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To Appropriate the Public Waters Of The State Of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However, all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Allen Beardslee
Sr. Water Resource Agent

Re: Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee in the amount of \$30.00 for which receipt #N-005457 is enclosed. However I regret to inform you that the application is not acceptable in its present form, so I am returning it to you for clarification or completion of the following:

Item #3: The legal description of the point of diversion must be described by 10 acre parcel (for example ... SE1/4 NE1/4 SW1/4) Section, Township and Range as established by the public land survey. This item must reflect the same location as indicated on item #13. If you can not complete item #3, I may be able to do so from the map, upon your request.

Item #4: You must complete this item by listing the maximum rate of diversion in cubic feet per second for each use being proposed (acre feet measurements are used when storage is being applied for).

Item #5: You must list the total diversion rate in cfs (acre feet are used only when storage is being applied for). The total rate of flow can not be less than the largest individual amount shown in item #4. The minimum fee for three cubic feet per second is \$85.00.

Item #6: a. You must describe the method you plan to use to appropriate the water. Stock drinking from a live stream is the only method of developing a water right without a diversion structure. If this is the case, you must indicate stockwater in item #4, instead of wild life.

Item 6.b: If you plan to develop an excavated pond without a dam, please indicate this in item #6.a. However if you plan to build a dam, you must complete item 6.b. as well as a dam application. The dam application will be sent to you along with relevant construction information when this office can determine from item 6.b. the type of dam information you require.

Item #9: This item must be completed by listing the location of all proposed water uses to the nearest 40 acre tract. This may be done by following these steps: First insert Township (Twp.) Ranges (Rge.), Sections (Sec); next, identify each use and location of that use within the section by placing the indicated symbol in the appropriate box as shown on the following page.

DEC 11 1992

Mr. William Green
Page Two
May 18, 1992

(Item #9 cont.) STOCKWATER = S; DOMESTIC = D; COOLING = L; FISH PROPAGATION = H;
RECREATION = R; COMMERCIAL = C; FIRE PROTECTION = F; INDUSTRIAL = I;
MINING = X; AESTHETICS = J; GROUNDWATER RECHARGE = E; WILDLIFE = W;
HEATING = G; MUNICIPAL = M; POWER = P;
IRRIGATION = (NUMBER OF ACRES TO BE IRRIGATED IN EACH 40 ACRE TRACT);

Twp.	Rge.	Sec	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
50N	04W	3	S	D	L	I	20	10	6										36

This example shows that within Township 50 North, Range 4 West, Section 3, there is Stockwater use in the NE1/4 NE1/4; Domestic use in the NW1/4 NE1/4; Cooling (L) in the SW1/4 NE1/4; Industrial in the SE1/4 NE1/4; and irrigation of 20 acres in the NE1/4 NW1/4, 10 acres in the NW1/4 NW1/4 and 6 acres in the SW1/4 NW1/4, for a total of 36 irrigated acres. The property listed in this item must be the same property as shown on the map. If you can not complete item #9, I may be able to do so upon your request, if the required information is on the map.

Item #10: Describe any other water rights you possess, by number if possible. If none, then please so indicate.

Item #11: This item is in three parts, if the applicant does not own the property at either the point of diversion (part a.) or where the water is to be used (part b.) then part c. must be completed by explaining the arrangements made to allow the applicant to make this filing. Water rights can not be developed in trespass.

If the source is a spring or other body of water wholly or entirely contained upon the lands of another it is considered to be private water. To appropriate private water the applicant must produce the owners written permission, executed and acknowledged as required for the conveyance of real estate.

Item #13: The point of diversion and place of use must be labeled and the place of use must be outlined as well. The point of diversion and place of use must agree with items #3 and #9.

The Application must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
