PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 87-07162

Dear Permit Holder:

The Department is in receipt of the proof of beneficial use statement and the \$150.00 license examination fee filed in connection with the above referenced permit.

Your proof statement indicates you are diverting 2.3 cfs, however, your permit only authorizes a rate of diversion of 1.78 cfs. The license examination fee for 1.78 cfs is \$125.00, therefore, I have initiated the process to refund the excess \$25.00 exam fee submitted with the proof. The refund process takes approximately seven (7) to ten (10) days and will arrive under separate cover.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have any questions concerning the field examination, contact the NORTHERN Regional Office in Coeur d'Alene, at (208) 769-1450.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 87-07162

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 87-07162

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Re: Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee in the amount of \$65.00 for which receipt #N-005268 is enclosed. However I regret to inform you that the application is not acceptable in its present form, so I am returning it to you for clarification or completion of the following:

Item #4: The normal irrigation season for the area listed is March 15 through November 15. If you are planning to use the water for irrigation during the winter, please explain the proposed use.

Item #11: This item is in three parts, if the applicant does not own the property at either the point of diversion (part a.) or where the water is to be used (part b.) then part c. must be completed by explaining the arrangements made to allow the applicant to make this filing.

Item #13: An application is not acceptable without a map or plat of sufficient scale (not less than two inches equal to one mile) to show the proposed project. You must either draw a map using the section layout provided, or you must provide a separate map. Either map must show the property in relation to the Section, Township and Range as established by the Public Land Survey. The map must have a North arrow and the scale must be shown. The point of diversion must be labeled and the place of use must be outlined and labeled. The point of diversion and place of use must agree with items #3 and #9.

Signature: Applications made by corporations, companies, municipalities or other organizations must be signed by an officer of the corporation/company or an elected official of the municipality or an individual authorized by the organization to sign the application. The signator's title shall be shown with the signature.

The Application must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.
