PROOF DUE NOTICE

RE: Permit No. 86-7155

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Dear Mr. Konen:

I am returning your two checks (No. 98-200) in the amount of \$30.00 each and your two Applications for Permit along with two blank application forms and instructions for completion since only one source can be listed on each application.

The application for groundwater (drilled well) can be refilled, but you must complete Item Nos. 6a, 8a4, 8c, 9a, 9b and 11. I also think you made an error in Item Nos. 4 and 5a. I believe you meant to apply for 0.04 cfs (18 g.p.m.) for domestic, 0.02 cfs (9 g.p.m.) for stock and 0.06 cfs for the total.

If you have any questions, please contact me at this office.

Sincerely,

TOM D. KING
