RE: Rate of Diversion for Licensing

The examiner recommends a total rate of diversion of 0.06 cfs. Although the horsepower of the motor is given, no other information is supplied about the system and an actual measurement of the water was not conducted. Therefore, without justification for the higher rate, the total diversion rate will be limited to 0.04 cfs and this is the rate which will also be used for the domestic component.

PROOF DUE NOTICE

RE: Permit No. 87-7097

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Dear Mr. DeWitt:

The purpose of filing a claim is to protect a water right which has already been perfected, but unrecorded.

Since your well is still being drilled, you have not developed a water right and must file an Application for Permit.

I am, therefore, returning your Check No. 92-212 in the amount of \$30.00 and your Claim to a Water Right along with an Application for Permit and instructions.

If you have any questions, please contact me at this office.

Sincerely,

TOM D. KING
Senior Water Resource Agent
