RE: WATER RIGHT NO. 87-07091

Dear Water Right Holder(s):

Enclosed herewith is a copy of the Water Right License issued on the above referenced permit along with a copy of your approved application for amendment.

I would like to address the concerns you raised when submitting the amendment. First, the comment on the amendment regarding use of water for your home has been stricken. This water right covers use of water strictly for stockwatering purposes.

Second, you asked whether this water right stays with the place. A license is considered real property and therefore is appurtenant to the land unless specifically withheld in the sale. In this case, any new owners would retain the right to divert .02 cfs from the spring for stockwatering.

Should you have any questions regarding these documents, please feel free to contact our office.

Sincerely,

SHARLA CURTIS

Dear Mr. Harrison:

Re: Permit No. 87-7091

Returned is the proof of beneficial use form submitted to this office on March 10, 1988.

From the information indicated on your note to the department, I have taken the liberty of completing the proof of beneficial use form. Please review the information. Make any additions/corrections needed, sign and return the form to the department by May 1, 1988 to keep the permit in good standing. Since no examination fee is required for the department to conduct the field examination, I suggest you allow the department to conduct the field inspection by simply returning the proof form.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

PROOF DUE NOTICE

RE: Permit No. 87-7091

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager
