Dear Mr. Chin:

I am returning your claim to a water right and application for permit. The claim is not acceptable since the priority date is not prior to 1963. The application can be refiled, but please complete items 8c, 9a, 9b and the map in ink.

The amount of water you have applied for is approximately 3 gallons per minute. I am uncertain that this is the quantity you wish to file for.

Please check the above items carefully and return the application with a \$20000 filing fee to this office.

If you have any questions, please contact me at this office.

Sincerely,

TOM D. KING

Do you know how the Q of 3.3 gpm was arrived at on this application?

Is it the output of the pump.

I'm concerned since even with continuous flow it is only about 50 gal/person each day

Please review this and determine if this is the maximum rate of diversion from the pump.
