Gentlemen:

One of the conditions of approval of your water Permit No. 87-7009 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

Gentlemen:

We are returning the application for permit that you have submitted in behalf of Onaway Water and Sewer Association, Inc. We find in reviewing this application that there are several questions that need clarification before we can process it.

Under Item 4 of the application you have listed 2 cubic feet per second for multiple domestic use. Under normal conditions, the maximum quantity that the Department could approve for domestic use would be 1 miner's inch or .02 c.f.s. per single family unit. As you have further indicated in the application that the system will supply only 55 families, the Department would probably only approve the application for 1.1 c.f.s. instead of 2 c.f.s. as you have requested, unless you can submit additional information justifying that quantity.

The place of use of the water should also be defined as to the nearest 40-acre subdivision, section, township, and range under Item 3a. You should also include a map on Page 3 of the application, and it should be signed by an elected official of the corporation.

The filing fee for this application is based on the quantity of water that you are intending to appropriate. This fee may be determined from the enclosed fee schedule. If you should have any further questions in reference to this matter, please advise.

Very truly yours,

Dorian Clay
