- 8 a. (5) Potlatch is a second class city situated in Latah County, State of Idaho and the population of the community is 1,009. It has shown a small but steady increase during the past few years. Water shortages in the community of Potlatch indicate an urgent need for rennovating the entire water system. Under agreement with Potlatch Forests, Inc., the city was to maintain at least 800,000 gallons of water in the reservoir, but this has been practically impossible and on many occasions there has been less than 800,000 gallons.

The existing water system serving the City of Potlatch consists of 260 residential services and thirty commercial services. The present water supply system is being supplied by five deep wells. Generally speaking, all of the wells are of a relatively low production of a suitable quality of water. The maximum output of these wells is 124 gallons per minute which provides less than one-half gallon per minute for each of the 290 services.

Gentlemen:

One of the conditions of approval of your water Permit No. 87-7004
(see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
