Dear Mr. Krick:

This Department cannot accept a Claim to a Water Right which lists both surface water and ground water, so I am returning your Check No. 98-200 in the amount of \$30.00 and your claim.

I am also enclosing two blank claims to allow you to refile. If you refile, please insure that the rate of diversion is listed in cubic feet per second.

You may not wish to file on the creek, however, since one of the criteria for developing a surface water right is that the water be controlled by a man-made diversion works. Cattle drinking from a live stream has historically not been considered a water right.

If you have any questions, please contact me at this office.

Sincerely,

TOM D. KING

Dear Mrs. Krick:

I have enclosed the Application for Permit and Claim to a Water Right you requested.

Before you file the claim, however, you should check the usage of the "abandoned" well. A water right is deemed to be forfeited after a period of five consecutive years of non-use. If the water from the well has not been used for a period of five consecutive years, the filing of a claim on that well would not change the forfeiture. A water right for that well could be established at a future date by filing an Application for Permit.

If you have any questions, please contact me at this office.

Sincerely,

TOM D. KING

Dear Sir:

Thank you very much for your prompt reply to my letter and for the information you sent. After reading the brochure, we feel we should file ~~an~~ an application for a permit for two reasons:

1. We use more than 13,000 gal. a day in the summer when sprinkling the lawn and garden..
2. We probably will hook a second household to our existing domestic well within 5 Years.

Our present well is rated 30 gal. per minute and was drilled in March of 1977. We have another useable well, but presently it's abandoned under an old windmill. It pumps approx. 10 gal. per minute and has been in existence as long as my husband can remember. (He's 59) Would you suggest filing a claim to water right on this old well?

We will not file for water for an irrigation system at this time. After reading the brochure, and your letter, we feel we could do that in the future.

Please send us the necessary forms to file an application for a permit. Also send the forms to file a claim to water right on the old well, if you think we should.

Sincerely,

Mrs. Paul Krick

Dear Mrs. Krick:

I am enclosing a brochure to aid you in determining what forms, if any, you need to file. If you find on the diagram in the brochure that you are required to file either a Claim or an Application for Permit, or if you decide you wish to file, even if it is not necessary, please let me know which forms you need and I will be happy to send them to you.

If you wish to file an Application for Permit to appropriate groundwater at any future date, you may do so under the existing laws. When you file the application, you will have one year to commence drilling the well and five years to have the well and irrigation system completed and using the water for irrigation of the land.

If you need any assistance, please contact me at this office.

Sincerely,

Dear Sirs —

Department of Water Resources
Northern District Office

We wish to record the water rights to our farm in the northern edge of Nez Perce Co. I wrote to you in 1976 & found no water rights our recorded for our property. We are, presently, using only a household use well — and — water from a small creek for our cattle. We have approximately 40 acres of flatland that could easily be converted to sprinkle irrigation in the future, if we drilled another well. We would like to reserve this option. Would you please send me

the appropriate forms and
any comments or suggestions
you might have.

Very truly yours
Mrs. Paul Krick

RE: Claim No. 86-4194

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

Robert G. Haynes, P.E.
Regional Supervisor
