Dear Mr Mantz,

I have received your check #92-196 for \$10.00 and your Application for Permit to divert spring water. The application if approved in its present form will show a priority date of October 21, 1977. In an effort to insure your best interest, I am presently holding the application and check from processing.

On the application you have indicated that the spring was improved in December of 1966. If you wish to protect this priority date, it would be best to file a Claim to a Water Right. I have enclosed such a form for your convenience. If you wish to file a claim, please file it out and sign it before a notary public and return it to this office within thirty days. I will then use the check #92-196 to cover the filing fee for the claim.

If I do not hear from you within thirty days, I will then process the application in its present form.

If we may be of any further assistance, please do not hesitate to contact us.

Sincerely,

Dear Mr Mantz,

We are herewith returning your check no. 92-196 and Application for Permit for clarification. The following items should be clarified since they are misleading.

Item 5. This item is the sum total of the rates of diversion listed in item 4. In this case, it would be 0.06 cfs.

Item 8a1. This item is to give the location of the Place or Places of Use. In this case, there appear to be two places of use--one in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 8 and one in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 9. These two points, however, do not appear under item 8a1. Instead, there is a SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 8. The map does not show a use in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec 8. Please check these locations and compare item 8a1 with the map to insure that they are both the same.

If I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

TOM KING

Dear Mr. Mantz:

Your check #92-196/1231 and Application for Permit are herewith being returned for clarification of items #4., 5. a., 9. b., (9.c. if 9. b. is other than applicant) and item 11.

Item 4. and 5. a. (1) one gpm = 0.00228 cfs, 0.14 cfs = approximately 60 gpm. The normal maximum use for one household is 0.04 cfs = approximately 18 gpm. Since you plan 55 head of stock you should apply for 0.02 cfs for stockwater from Jan 1 to Dec 31.

Item 5. a. b. the amount of AF/Ann should be deleted.

Item 9. b. should be completed if the owner of the property upon which the water is to be used, then item 9. c. must be completed.

Item 11. Sec 8 and Sec. 9 share a common section line and are not diagonal to each other.

Please clarify the above items, complete the entire Application in ink and return it to this office.

If this office can be of any further assistance, please do not hesitate to contact us.

Sincerely,

TOM KING
