Section 42-225a, Idaho Code

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

The extent and nature of said claim is as follows:

(1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Groundwater

(2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(3) Total quantity of water claimed: 0.04 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Well, pump.

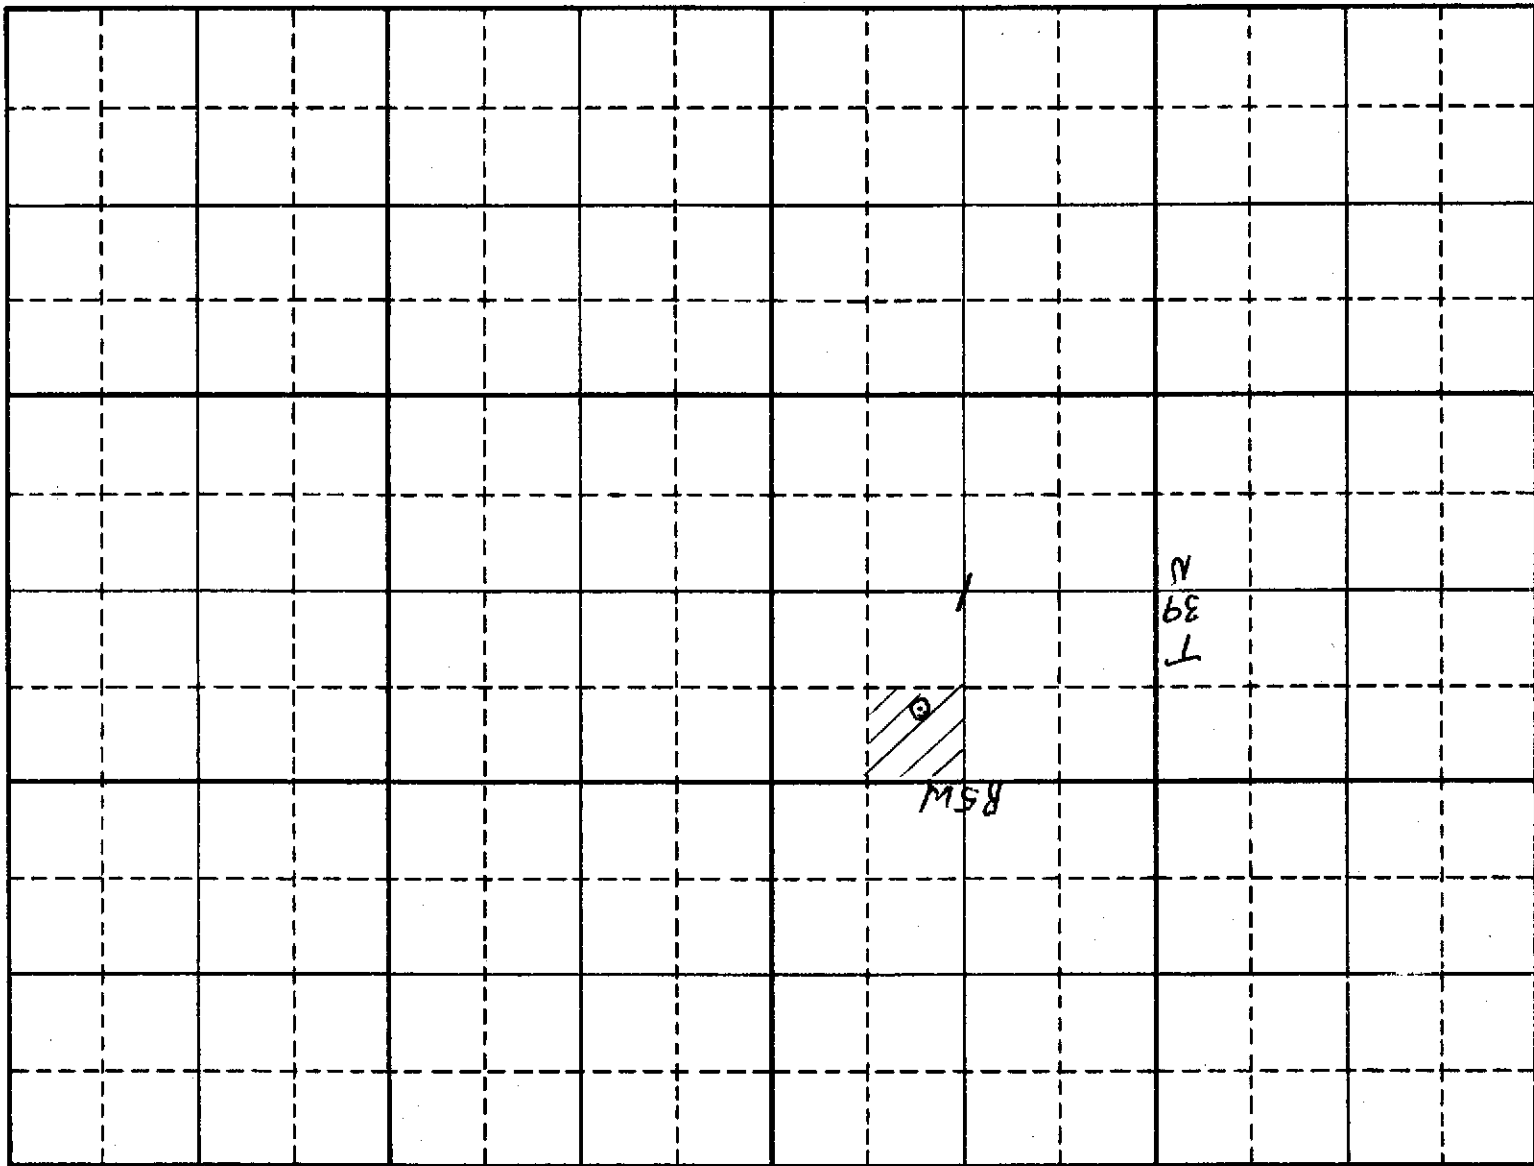

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

Total No. of acres 5.0

B) If the water is used for other than irrigation, fully describe that use, being as specific as possible: _____

(7) If you are claiming water as a member of an organization, list name of organization: _____
