Board of County Commissioners
Latah County

Gentlemen:

This is to advise you that I have this day purchased from the Federal Land Bank of Spokane, a tract of land situated at Rowland's Park, which land I am giving to the people of Latah County.

The United States Soil Erosion Service have agreed to construct a series of dams on this property which will cause a lake of about twenty acres to be formed. I think it is generally admitted throughout Northern Idaho that the one great drawback to Latah County has been its lack of recreational water facilities, and I am happy indeed to give to the residents of Latah County, the land which will make this lake possible.

I trust that the lake will be a permanent source of pleasure and enjoyment to all. No expense of any sort will fall upon the tax payers of Latah County and within a few weeks the Federal Land Bank which guarantees the title to this property will send me a guaranteed title deed, and this I shall record in the name of the people of Latah County, and then turn over to the County Commissioners.

The only stipulation I make is that this lake forever remain the property of the people of Latah County. I want no private interests ever to be allowed to buy or lease any part of this property nor to commercialize it in any way. The deed to the people of Latah County contains this expressed stipulation.

RECORDED

DR. FRANK B. ROBINSON

I shall be happy to have you accept this land
for the people of Latah County, and trust that as
much pleasure and happiness will come to the thousands
who will use this lake as I have derived from donating
it.

With kindest personal regards,

Cordially yours,

Frank B. Robinson

MEMORANDUM

TO: File No. 87-4008

FROM Bobby D. Fleenor, Chief, Water Rights

SUBJECT: Claim to a Water Right No. 87-4008

The quantity of water claimed is excessive for the purpose for which it is used.

The capacity of the reservoir is less than 50 acre feet, and therefore, the water would be completely changed about nineteen times each day. The annual use of water is also excess since the reservoir is not used during the entire year.

Therefore, an objection to the quantity of water is made by the Department of Water Resources.

Signed at Boise, Idaho, this 7th day of February, 1975.
