NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Clarence M. Olson, Route 1, Box 330, Moscow, Idaho, has received an approved Permit No. 33005 87-2026 issued by the Idaho Department of Water Administration authorizing the diversion of 0.2 cubic feet per second of water from the South Fork Palouse River. The priority to be established under this permit is July 14, 1966, and the permit was approved July 15, 1966.

Water is to be diverted by pump and pipeline from a point within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 10, T. 39N, R. 5W, B.M., Latah County, to be used for irrigation of lawns in trailer court in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 10, T. 39N, R. 5W, B.M.

Proof of the application of the water to beneficial use was submitted to the Department on July 7, 1971. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice.

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

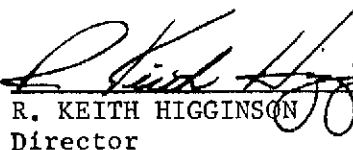

WHEREAS, on August 1, 1968, the Department of Water Administration adopted Rules of Practice and Procedure for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 33005 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedure as follows:

1. The above numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Water Administration of the application of the water to beneficial use on or before July 15, 1971. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for completion of works may be grounds for cancellation at the instance of the department.

Mr. Bobby D. Fleenor

Department of Water Resources
Statehouse
Boise, Idaho 83720

Dear Mr. Fleenor:

Please find enclosed a \$10.00 check for the filing fee for Permit No. 33005/87-2026.

I would like the Permit to remain the same as it was originally submitted back in 1966.

Water was diverted in 1966 for the No. 1 lagoon and again in 1971 for the No. 2 and No. 3 lagoons. This diverted water was required by the Idaho Health Department for its proper operation.

Water has also been diverted for lawn irrigation, but our pumping operation was so small and antiqued, that it was hard to keep up with the demand, so the operation has nearly come to a halt.

To maintain our Mobile Home Park lawns and grounds up to the degree required by the Federal Housing and Urban Development, a more practical method of irrigation must be built.

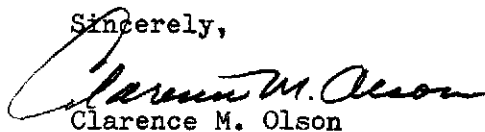

In the enclosed amended application, I have requested the possible construction of a low concrete dam on the South Fork of the Palouse River. I have drawn up two rough drawings of the dam to give your office some idea of what I would like to do in the area. I have had two meetings with the Latah County Soil Conservation office, but their files had little to offer in respect to construction of small dams of this type.

This dam can be left open during the winter months and during the spring run-off and closed only after the water silt period has passed. The closed time would be from June 1 to October 1 of each year.

I would appreciate all the help and suggestions your office could supply me on this proposed project.

I do want to keep this Permit in force, so please contact me as soon as you can.

Sincerely,

Clarence M. Olson

Mr. Clarence M. Olson
Route 1 - Box 330
Moscow, Idaho 83843

Dear Mr. Olson:

A representative of this Department has made an examination of the works covered by your Permit No. 33005/87-2026 and has found the following:

Quantity of water diverted: 0.13 cfs

Source: South Fork of
Palouse River

Amount of water that can be recognized as beneficially used under
Idaho law: 0.13 cfs

The maximum quantity diverted shall not exceed 2.0 acre feet per year.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 10, Twp. 39 N, Rge. 5W, B.M.

Beneficial use: Industrial purposes in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 10, Twp.
39 N, Rge. 5W, B.M.

Priority date established: July 14, 1966

Your permit was issued for irrigation purposes, however, our examiner's report indicates that the water is being used in connection with a sewage lagoon. Therefore, it will be necessary for you to amend the permit to change the nature of use before a water license can be issued. We have enclosed a partially completed application for amendment for your use in this matter. Please sign the application and return it to this office with a \$10.00 filing fee within 20 days of the date of this letter in order that we may issue your water right license as set forth above.

If you do not concur with these findings or have any questions, please contact us within the 20-day period.

Dear Mr. Olson:

One of the conditions of approval of your water Permit No. 33005/87-2026 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 15, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 33005/87-2026

Mr. Clarence M. Olson
Route #1, Box 330
Moscow, Idaho

Dear Mr. Olson:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.
