Dear Mr. Ownbey:

Re: License No. 22815/87-2007

In researching our records for water rights appurtenant to the lands identified in your letter of November 17, I located License No. 22815/87-2007 which shows a total of 24 acres irrigated in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and the NE $\frac{1}{4}$ SW $\frac{1}{4}$, T. 41 N., R. 4 W. A copy is enclosed. I did not locate a recorded right with this department for additional lands irrigated in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and the SE $\frac{1}{4}$ NW $\frac{1}{4}$, same township and range.

I have enclosed our "Idaho Water Rights Claims Program" brochure along with a claim form and instructions for filing in the event you wish to file to include the irrigated lands not covered in the licensed right. The completed form with fee should be submitted to

Dear Mr. Minden:

Inspection is required by state Statute in connection with any Permit being brought to license in the State of Idaho.

I intend to make inspection in connection with your Permit on Tuesday morning, October 9, as soon as I can drive to your place from Moscow.

Please be prepared to accompany me on the inspection or have someone there to represent you.

I intend to stop overnight at either the Idaho Hotel or the Moscow Hotel in Moscow, in case you wish to contact me prior to the inspection. Otherwise, I will drive to your place near Princeton.

Yours truly,

Dear Mr. Thompson:

I am in receipt of your letter of June 1, stating that the Affidavit of Publication has not been received by your office.

Mr. Minden has checked with the Daily Idahoan, and finds that no publication of notice was ever made. If I remember correctly, we forwarded authorization for the publication of notice at the expense of Mr. Minden, and I assumed that publication would be arranged for by the Department. I was under the impression that the matter was handled that way on past applications which I have handled.

Will you please check your records and advise.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Estimate 4/5 cu. ft. per second

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigating hay and pasture and for irrigating grain. Twenty-five acres in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ and Twenty acres in the SE $\frac{1}{4}$ Of the NW $\frac{1}{4}$ of Sec. 22, T 41 N, R 4 W.B.M.. It is cultivated meadow land. Yield has been increased, probably at least tripled. He has been able to get two extra cuttings of hay.

22815

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Meadow land. Estimate 4/5 cu. ft. per second required.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have watched operation of system since it was installed in 1952. Live right above land in question and pass it almost every day. Have seen system in operation on innumerable occasions and have noticed increase in crops.

We do not seem to have received a reply to several letters addressed you in regard to certain corrections to be made in your proof of completion of works on Permit No. 22815, which was returned to you for such correction on May 29, 1954.

Since this proof was due on or before June 3, 1954, the Permit is actually subject to cancellation at the present time for failure to complete the proof. However, if the corrected deposition is returned promptly, a Certificate of Completion of Works can be issued and sent you.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Irwin W. Minden

Boise, Idaho

April 1, 1954

Princeton, Idaho

Dear Sir:-

Under the terms of your permit No. 22815 you are required to complete your diversion works on or before June 3, 1954. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
