Dear Mr. Kulp:

Re:Water License No. 21701

On this License and Certificate of Water Right the date of priority appears to be Sept.11, 1950 and we are wondering if this grants us perpetual use of the amount of water designated in this permit or if renewal of such is required?

If renewal is required how often must it be made and what is the charge?

Very truly yours,

*M. K. Cline*

Dear Mr. Cline:

We acknowledge receipt of the depositions of yourself and two witness, also affidavit of publication in the Daily Idahoian all submitted in proof of beneficial use under Permit No. 21701.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

We enclose Certificate of Completion of Works issued under Permit No. 21701 of B. P. O. E. #249, for the diversion of  $1\frac{1}{2}$  second feet of water from the South fork Palouse River, with point of diversion in the SW $\frac{1}{4}$  NE $\frac{1}{4}$  Section 15, Township 39 North, Range 5 West, B.M., for the irrigation of land in the S $\frac{1}{2}$  NE $\frac{1}{4}$  of said Section.

We have made one change in the Notice of Beneficial Use, as the priority that can be established under Permit No. 21701 is the date the application was filed in this Department, which is September 11, 1950. If it is necessary or desirable to establish an earlier priority, this may be done through the District Court by showing continuous usage over a period of years.

A copy of the notice will be sent to the Daily Idahonian with instructions to publish it once a week for four consecutive weeks prior to that date and to send Affidavit of Publication, together with statement of costs, to Mr. M. K. Cline, Secretary.

We also enclose Departmental Receipt No. 23573 for the \$5.00 fee paid in connection with Proof of Completion of Works.

Very truly yours,

FOISE

July 2, 1951

Dear Sir:

Under the terms of your permit No. 21701 you are required to complete your diversion works and make proof of beneficial use on or before September 21, 1951.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public or Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is September 21, 1951, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Very truly yours,

Dear Kelley:

I am sending form for application for permit to appropriate public water, along with instructions.

Your source of water supply will be from an unnamed stream, or if it has a name, you can use that.

The point of diversion should be described as accurately as possible in relation to public survey subdivisions or corners, but accurate at least to the 40 acre subdivision.

The amount claimed should be at the rate of one cubic foot per second for each 50 acres to be irrigated. Allow enough acreage for possible expansion.

Kind of works will be pond or sump in stream channel, and pump.

Under remarks, state that the water is to be applied through existing system.

Very truly yours,

MARK R. KULP

Dear Mark:

As you are aware of the fact that the Moscow Elks operate, and have for many years, the golf course east of the city, I will not have to explain the actual facilities or lay of the ground any more than to say that on the western part of the ground is the creek channel which flows across our property. During the latter part of the summer when our well water supply becomes limited we are not able to sprinkle as much as is needed. It is our intention to divorce that portion of our water system along the creek and install a pump to be hooked directly into the system. To do this will probably require either the sinking of a sump hole or damming of the channel.

As a protection to ourselves and for future use we feel it advisable to file a water right claim, if possible. Please send us the proper blanks together with any suggestions.

Very truly yours,

M. K. Cline-Secretary
