I.

FINDINGS AND CONCLUSIONS

1. A ***Partial Decree*** was issued for water right 72-10481 on February 12, 2002. The issuance of the ***Partial Decree*** predated legislative authorization of the use of digital boundaries for describing the place of use element for certain types of water rights. ***Partial Decrees*** were issued for water rights 72-10480 and 72-10482 on August 5, 2004, using subsequently approved digital boundary descriptions. On April 24, 2006, the Court received correspondence, revised maps and data from the Idaho Department of Water Resources regarding certain errors in the digital boundary description for the Gini Ditch Company, Inc., and notifying the Court that the ***Partial Decree*** issued for water right 72-10481 did not use a digital boundary description. On May 23, 2006, the Court issued a *Notice of Court's Intent to Issue Amended Partial Decree and Notice of Hearing Thereon* to correct the error in the digital boundary description for the place of use element as well as modify the place of use element for water right 72-10481 to also include a digital boundary description so that all water rights held by the Gini Ditch Company are

uniformly described. A hearing was held on the matter July 18, 2006. No objections were filed nor did any party appear in opposition to the Court's intended action.

2. The above-captioned water right(s) is/are for an irrigation purpose of use and satisfy one of the following statutory criteria: (1) used in conjunction with an irrigation project where the canals constructed cover an area of twenty-five thousand (25,000) acres or more; (2) the place of use for the water rights is located within an irrigation district organized pursuant to the laws of the state of Idaho; or (3) the water rights are for an irrigation project developed by an association, company, corporation or the United States to divert and deliver or distribute surface water under any annual charge or rental for beneficial use by more than five (5) water users in an area less than twenty-five thousand (25,000) acres.

3. Effective July 1, 2002, the Idaho Legislature approved the use of a Geographic Information System (GIS) for describing the place of use (digital boundary) for water rights meeting the above-stated criteria. See I.C. §§ 42-219(2)(2003) and 42-1411(2)(h)(2003). The GIS mapping technology allows the geographic area encompassing the place of use for a water right to be particularly identified and visually displayed in a map overlay format through the aid of computer technology. In incorporating a digital boundary into a partial decree, the electronic or digital data is what is actually decreed as opposed to the visually displayed map ultimately generated from the data. The data is stored on a CD-ROM. The Court finds that the GIS mapping technology maintained by IDWR complies with the standards for spatial accuracy set forth in I.C. § 42-202B (2)(2003). See *Notice of Filing Affidavit Of Michael Ciscell Re: Digital Boundary, filed October 17, 2003*.

II. ORDER AMENDING PARTIAL DECREES

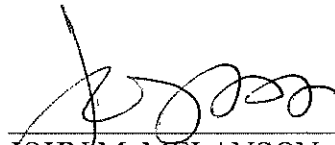

1. Therefore, IT IS ORDERED that pursuant to I.R.C.P. 60(a) the ***Partial Decrees*** previously issued for water right(s) **72-10480, 72-10481 and 72-10482** is/are hereby **amended and decreed** as set forth in the attached ***Amended Partial Decree Pursuant to I.R.C.P. 54(b)*** and the CD-Rom labeled ***Amended Digital Boundary for Gini Ditch Company Inc 72-10480, 72-10481, & 72-10482*** dated April 14, 2006, on file with the Court.

2. IT IS FURTHER HEREBY ORDERED that the data comprising the digital boundary shall be stored on a CD-ROM medium, which shall be issued in duplicate original. The SRBA District **ORDER OF AMENDED PARTIAL DECREES FOR IRRIGATION DELIVERY ENTITY USING DIGITAL BOUNDARY DESCRIPTION; I.C. §§ 42-202B(2), 42-219(2), 42-1411(2)(h); I.R.C.P. 60(a) For Water Rights: 72-10480, 72-10481 and 72-10482 (Gini Ditch Co. Inc.)**

Court will retain one original together with the original *Partial Decrees*, and IDWR will retain the other original. The map depicting the place of use attached to the *Partial Decrees* is intended for illustrative purposes only.

3. IT IS FURTHER HEREBY ORDERED that upon request, the claimant can obtain a copy of the CD-ROM from IDWR at no cost, although GIS software will still be required to access the data. Subsequent administrative changes to the place of use shall also be stored in a digital format and kept on file and maintained by IDWR. IDWR shall maintain all computer software and/or hardware necessary for reducing the data to a usable format that is accessible to the general public, including access through the IDWR Internet website (www.idwr.state.id.us) or its successor Uniform Resource Locator (URL).

DATED July 24, 2006.
