Total Acres: 150.5

CONDITIONS OF APPROVAL

1. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
2. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

IDAHO FALLS ID 83404

RE: License No. 35-9054 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

**MICROFILMED
FEB 04 2002**

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

To: File 35-9054

From: Sharla

Date: January 29, 2002

Re: Licensing Recommendations

License 35-8799 covers 132 acres of the 150.5 acres served under this pivot. 35-9054 was filed to pick up the additional 18.5 acres. The system capacity was measured at 2.29 cfs and the rate for the new permit was figured accordingly ($2.29/150.5 = .0152$ cfs/ac $\times 18.5 = 0.28$ cfs). The license now to be issued is being prepared for a permissible place of use with a limitation of 18.5 acres to be irrigated per season under this right.

E. NARRATIVE/REMARKS/COMMENTS

WATER IS PUMPED FROM WELL BY A 125HP PUMP TO A
CENTRAL PILOT (HIGH PRESSURE) THAT HAS 9/16 TOWERS AND AN
END GUN.

CORNERS ARE ONLY PARTIALLY NOT WATERED.

PUMP DISCHARGE DOES NOT HAVE A GATE VALVE.

Have conditions of permit approval been met? ☒ yes ☐ no

EXCEPT AS NOTED.

MICROFILMED
FEB 04 2002

F. FLOW CALCULATIONS

Measured Method:

$$Q = \text{THEORETICAL} = \frac{2.24}{\cancel{3.477}} \text{ cfs}$$

$$Q = \text{SONIC METER} = 2.03 \text{ cfs}$$

$$Q = 0.015 \text{ cfs} \times 18.5 \text{ ac} = 0.28 \text{ cfs}$$

✓ Additional Computation Sheets Attached

$$\text{LIC: } 35-08799 = 2.29 \text{ cfs}$$

$$35-8799 = 132 \text{ ac}$$

$$35-9054 = 18.5 \text{ ac}$$

$$150.5 \text{ ac } 2.29 \text{ cfs} / 150.5 \text{ ac} = 0.015 \text{ cfs/ac}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 18.5 \text{ ac} \times 4.0 = 74 \text{ AFA}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.28 \text{ cfs} \times 214 \times 1.9835 = 118.9 \text{ AFA}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 74 \text{ AFA}$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

THIS PERMIT WHEN USED IN COMBINATION WITH 35-08799, NOT TO EXCEED 2.29 CFS.

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRRIGATION	4/1	10/31	0.28	74
Totals:			0.28 cfs	74 AFA

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☒ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

THEORETICAL PUMP FLOW CALCULATIONS

Formula:

$$Q_{cfs} = [(Hp)(8.814)(Eff)] \div [Lift + (psi \times 2.308)]$$

Hp = Horsepower = 100

Eff = Efficiency = .7 (Usually 70%)

Lift: (Static Level + Assumed Draw down)

Static Water Level = 77 ft.

Assumed Draw down = + 9 ft.

Lift = 86

OR

Measured Dynamic Water Level = _____ ft.

psi = Operating Pressure = 82 psi

4P4L
PUMP TEST REPORT
1984

$$Q_{cfs} = \left[\frac{100}{Hp} \times 8.814 \times \frac{.7}{Eff} \right] \div \left[\frac{86}{Lift} + \left(\frac{82}{psi} \times 2.308 \right) \right]$$

$$Q_{cfs} = \left[\frac{616.98}{} \right] \div \left[\frac{275.256}{} \right]$$

$$Q_{cfs} = \underline{2.24} \text{ cfs}$$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 35-09054

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 35-09054

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

swear that I am the Coordinator of
The Morning News, which is a daily news-
paper of general circulation, published
each day except Sunday at Blackfoot,
Bingham County, Idaho, said newspaper
having been so published at Blackfoot,
aforesaid for more than one year past;
that said newspaper heretofore complied
with all the provisions of Chapter 154 of
the Sessions Laws of Idaho of 1911, ap-
proved March 11, 1911, and duly desig-
nated, pursuant to law, a particular day
of the week as the day on which legal no-
tices required by law or by the order of
any Court of competent jurisdiction within
the State of Idaho shall be published to-
wit: of each week; that the notice at-
tached hereto and which is a part of this
affidavit and part of the proof of publi-
cation was published in said issue of said
newspaper 2 consecutive weeks
the first publication having been made on
the 12th day of Nov.
1995; and the last publication having
been made on the 18th day of
Nov. 1995; that said notice
was published in the regular and entire
issue of every number of the paper as
aforesaid during the period and time of
publication, and that notice was pub-
lished in the newspaper and not in a sup-
plement.

Jacqueline Graham
On this 16th day of Nov., in
the year 1995, before me a Notary
Public of said State, personally appeared
Jacqueline Graham,
known or identified to me to be the per-
son whose name is subscribed to the with-
in instrument, and being by me first duly
sworn, declared that the statements
therein are true, and acknowledged to
me that he executed the same.

RE: Notice of Application for Permit No. 35-09053 & 35-09054

Dear Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the applications in the Morning News on November 2 & 9, 1995. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor

RE: Permit Nos. 35-08799 and 35-08800

Dear Shawn:

Thank you for the information you sent me regarding the pivot irrigation developed under permits 35-08799 and 35-08800. As we discussed, I have enclosed the necessary licensing amendments for your signature. As you review them, you will see that they reflect permissible places of use in which the entire irrigated areas are listed as the places of use, but conditions limit the actual use in any single year to no more than 168 acres under 35-08800 and 132 acres under 35-08799. You will also see that the maximum number of acres I could confirm under 35-08800 was 196.5, not 200 as reported by the Bingham County CFSA.

Because the place of use for each right will include tracts not listed on the permits, the \$50.00 amendment fee is required for each right. Please submit the amendments and their fees within 14 days.

We have also discussed the fact that you will need additional water rights for the acres not covered by 35-08799 and 35-08800. I think you have submitted convincing evidence to demonstrate that your entire development occurred prior to Nov. 19, 1987. Therefore, despite the moratorium on new consumptive water development in your area, I think IDWR can process new applications for that development completed by Nov. 19, 1987. Please take your evidence and a copy of this letter to our office in Idaho Falls to file your applications.

If you have any questions, please contact me at 208-327-7946 in Boise.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

RE: WATER RIGHT NOS. 35-08799 AND 35-08800

Dear Shelly

During a phone conversation on July 17th about the above two water rights, you stated that you need proof that we were irrigating this land before Nov. 19, 1987. I sent a 1985 crop report in the previous letter, however the acreage's were inaccurate. You stated that a letter from the ASCS office that addressed the acreage change would be sufficient proof to show that we were irrigating 200 acres and 150 acres prior to November 19, 1987. Enclosed is a letter from the ASCS office in Blackfoot. It states that there were acreage discrepancies on both fields. It lists the years that they were corrected. I am also including a photocopy of the ASCS airphoto for these two pivots. This airphoto was taken during the early summer of 1987 previous to Nov. 19, 1987. It shows the irrigation pattern of the pivots and the amount of land irrigated in the crop year of 1987. These two pivots have been irrigating the same amount of land since 1982. The pivots travel and irrigate the same area year after year regardless of crop acreage estimations.

Let me know if there are any problems getting the acreage discrepancy solved.

Sincerely, Shawn Stolworthy

July 17, 1995

Dear Mr. Keen,

There are two pivots that have been reported by Stolworthys for the past few years. These acreages were reported are as follows:

1994	pivot 1	200.0 acres	Pivot 2	150.5
1993		168.0 A.		150.5
1992		168.0 A.		150.5
1991		168.0 A.		150.5
1990		168.0 A.		150.5
1989		168.0 A.		150.5
1988		168.0 A.		131.0

In 1989 they requested a remeasurement of Pivot 2 because they didn't agree with our measurements. We determined it was incorrect and changed the acreage to 150.5.

In 1994 they requested a remeasurement of Pivot 1 because they didn't agree with our measurements. It was determined the 168.0 acres were not correct and the Pivot was corrected to show 200.0 A.

The photos we use were taken in 1987. The field boundary used to determine the acreage of 168.0 was not correct and was changed to meet the boundary made by irrigation. This boundary is very noticeable from the '87 photo. I can not explain why our field boundary was not correct.

Sincerely

Steve Fullmer

RE: WATER RIGHT NOS. 35-08799 AND 35-08800

Dear Shelly

I received a letter concerning the above water rights stating that they were in the process of being licensed. It indicated that the permits were to be amended. I have reviewed the amendments and concur with the point of diversion, rate of diversion and annual volume. However, there is a discrepancy with the place(s) of use description. I called you and discussed our options for correcting the acreage's. You indicated the best solution would be to sign the amendments and then apply for the extra acres. We would also need to prove we were irrigating this land before 1987. I then indicated that the circular pivots traveled into areas of sections which were not recorded on the amendments. Some other questions about the filing fee were brought up. If we change the acres on both amendments or include all the sections the pivot travels in I will feel the fee is justified.

The places of use are two circular pivots. These pivots were originally installed by Murice Johnson & Sons under a lease agreement with Brent Stolworthy the land owner. Johnson's defaulted on the lease and Brent Stolworthy took control of the ground and pivots in 1985 crop year. This ground has been irrigated since 1982. The order and pricing forms for the pivots which were installed are included as exhibits A & B. Exhibits C & D are the system specifications for these two pivots obtained from Mountain Ag in Blackfoot. These two pivots have continued to be known as the Johnson pivots since Brent Stolworthy has farmed them. Exhibits E & F are two soil samples from Stukenholtz Laboratory that show that we farming the "Johnson pivots" in 1985. I also included as exhibit G the buy out agreement Brent Stolworthy made with Steiner Finical Corporation to buy the pivots which Johnson's installed. It includes the descriptions of the pivots, pumps and a legal description where the pivots are located. Exhibits H & I are ASCS crop report and cropping map.

I included as Exhibit J is a map to show the location of the pivots. The map was photocopied from the Soil Survey. I drew in the pivots in as close to scale as I could. I drew in the section lines to help determine the legal descriptions and I include the legal descriptions to the right of the pivots. The "Listed" descriptions are the ones on the applications for amendment. These description locations are colored in aqua on the map. The "?" descriptions are the ones not include on the applications for amendment. They are colored lime green on the map. I included the latest ASCS air photo and acreage's as exhibit K. I also put in some previous ASCS maps to show earlier acreage estimations. The earlier estimations were small because of rocky spots in the field that weren't farmed but were irrigated. The whole field is farmed now and is irrigated the same as it has always been since the pivots were installed.

The pivot for the application 35-08799 is a 150.5 acre 9 tower pivot and the application refers to an applied acreage of 132 acres. The pivot enters into section 22 of TWN 01S RGE 36E and into the SW quarter of section 23 of the said township and range. The area in the application for the license doesn't include this area. The pivot is the same pivot that was installed originally. The area to which the water is applied is the same as it has been since 1982 when the pivot was installed. The pivot has not been modified. The discrepancy could have originated because the ASCS previously reported the acreage of this pivot to be smaller than it was. We noticed in farming the area that the

OCT 03 1995

DEC 20 1995

ASCS area didn't seem accurate so we requested that they remeasure the field. The latest ASCS acreage report puts this pivot at 150 acres. This is consistent with our own estimations.

The pivot for the application 35-08800 is a 200 acre pivot and the application refers to an applied acreage of 168 acres. This also is the original pivot and the area it waters is the same as it has always been. The ASCS previously reported the acreage at 175 acres. The latest ASCS acreage report puts this pivot at 200 acres. This is consistent with our own estimations.

Please review this matter and correct the acreage's. Feel free to contact me at (208) 529-3891 if you have any questions. I will await your response at the following address: 3669 South Holmes Ave., Idaho Falls, Idaho 83404

The Stipulated Loss Value Schedule attached hereto and Paragraph 11 hereof determine Lessee's liability if the Equipment is destroyed, lost or stolen before the end of the term of the Lease.

This Lease is not terminable by Lessee prior to the end of the term.

Lessor hereby leases to Lessee, and Lessee hereby leases from Lessor the personal property described above (the Equipment) upon the following terms and conditions:

1. **Rent and Term.** Lessee shall pay Lessor at the address above, or as Lessor otherwise directs in writing, Interim Rent and Basic Rent (the Rent) in the amounts and on the dates specified above and shall be obligated to pay on demand all other amounts owing pursuant to this Lease. Lessee shall be obligated to pay interest at the highest permissible rate on any overdue Rent or other late payment.

2. **Net Lease.** Regardless of any defect in or damage to the Equipment or any dispute Lessee might have with the manufacturer, installer or any other person, including Lessor, Lessee shall have no rights against Lessor and is unconditionally obligated to pay all Rent and other amounts owing under this Lease unless the obligation is terminated according to the express terms of this Lease. Without limiting the foregoing, Lessee waives the right to assert against an assignee of Lessor, for security or other purposes, any defense, counterclaim, or setoff which it might assert against Lessor.

3. **Security Deposit.** On the Delivery Date, Lessee shall deposit with Lessor the security deposit specified above as security for Lessee's punctual performance of its obligations under the Lease. The security deposit shall bear interest at 4%, compounded annually. If Lessee defaults in any of its obligations, Lessor, in addition to its other rights, may keep all or part of the deposit and apply it toward curing the default or toward reimbursing itself for any expense related to Lessee's default. If Lessor expends all or part of the deposit to cure a default or to reimburse itself for expenses, Lessee will pay on demand an amount sufficient to return the security deposit to its original amount.

If, at the end of the term of the Lease, Lessee is not in default, the security deposit plus accrued interest, or any balance remaining, shall be returned to Lessee. The security deposit is not an advance payment of any Rent or a measure of Lessor's damages.

4. **No Lessor Warranties.** LESSEE HAS SELECTED THE EQUIPMENT AND IS SATISFIED THAT THE EQUIPMENT IS SUITABLE FOR ITS PURPOSES. LESSOR HAS NOT MADE AND DOES NOT MAKE BY SIGNING THIS LEASE ANY WARRANTY, EITHER EXPRESS OR IMPLIED, AS TO THE EQUIPMENT, INCLUDING ITS MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. LESSOR IS NOT RESPONSIBLE OR LIABLE TO LESSEE OR ANY OTHER PERSON FOR ANY LOSS OR DAMAGE CAUSED BY OR ARISING IN ANY WAY IN CONNECTION WITH THE EQUIPMENT.

IN SIGNING THIS LEASE, LESSEE HAS RELIED ONLY ON THE TERMS OF THE LEASE AND NOT ON ANY STATEMENTS OR PROMISES MADE BY ANYONE ELSE. IF THE EQUIPMENT IS NOT PROPERLY INSTALLED OR DOES NOT OPERATE AS WARRANTED BY THE SUPPLIER OR IS UNSATISFACTORY FOR LESSEE, LESSEE AGREES THAT IT SHALL CONTINUE TO PAY ALL RENT DUE UNDER THE LEASE AND SHALL MAKE ANY CLAIM ONLY AGAINST THE SELLER NAMED IN THE PURCHASE ORDER FOR THE EQUIPMENT. Lessor authorizes Lessee, during the term of this Lease, at Lessee's expense, to assert all of Lessor's rights under any warranty on the Equipment.

DEC 20 1985

5. **Acceptance.** Lessee shall furnish Lessor with an Acceptance Certificate, in the form attached hereto (a) acknowledging receipt of the Equipment in good condition and repair, and (b) accepting the Equipment as satisfactory in all respects for the purposes of this Lease.

6. **Title to Equipment.** The Equipment is and will at all times remain, the personal property of Lessor, regardless of whether it is affixed to realty. Lessee agrees to provide Lessor with appropriate documents protecting Lessor's title to the Equipment. If required by Lessor, Lessee shall display notice of Lessor's ownership of the Equipment by affixing to each item of Equipment an identifying decal or label.

7. **Taxes; Liens; Indemnities.** Lessee agrees to pay and save Lessor harmless from all taxes arising out of the lease, possession and use of the Equipment and agrees to reimburse Lessor for all taxes paid by Lessor due to its ownership of the Equipment (except for any taxes measured by the income or profit of Lessor). Lessee will discharge, at its own expense, any lien on the Equipment whether created by Lessee or any other person. If any reports or returns are to be made under this paragraph, Lessee shall so notify Lessor and make such report or return as directed by Lessor.

LESSEE ASSUMES ALL RISK AND LIABILITY AND AGREES TO INDEMNIFY AND HOLD LESSOR HARMLESS FROM ALL CLAIMS, LIABILITIES OR EXPENSES FOR PERSONAL INJURY, DEATH OR PROPERTY DAMAGE ALLEGEDLY ARISING IN ANY WAY IN CONNECTION WITH THE EQUIPMENT. LESSEE SHALL, UPON WRITTEN NOTICE BY LESSOR OF THE ASSERTION OF ANY OF THE ABOVE, ASSUME FULL RESPONSIBILITY FOR THE DEFENSE THEREOF. THESE INDEMNITIES SHALL SURVIVE THE TERMINATION OF THIS LEASE.

8. **Insurance.** Lessee shall carry casualty insurance covering the full replacement cost of the Equipment and public liability insurance insuring both Lessor and Lessee against damages and claims for personal injury, death and property damage. Public liability insurance shall be in the form and with a company satisfactory to Lessor and shall provide for not less than \$500,000 insurance for injury or death of persons and \$100,000 property damage. Lessee shall pay all premiums and shall furnish to Lessor such evidence of coverage as is satisfactory to Lessor. Lessee hereby irrevocably appoints Lessor its attorney-in-fact for all purposes in connection with such insurance policy. Any expense of Lessor in adjusting or collecting insurance shall be borne by Lessee. Lessee shall not make any adjustments with insurers except with the written consent of Lessor.

9. **Repair, Maintenance, Use, Alterations.** Lessee at its own expense shall install and maintain the Equipment in as good mechanical condition and running order as when accepted, normal wear and tear excepted, according to the applicable manufacturer's specifications, standard maintenance manuals and warranty programs. Lessee shall use the Equipment lawfully, in accord with the manufacturer's recommendations, and in Lessee's regular and normal business, and shall not lend the Equipment or allow its use by any other person. Lessee shall not modify the Equipment or install anything on the Equipment (other than to comply with any laws or regulations) without Lessor's prior written consent.

10. **Removal, Inspection and Return of Equipment.** The Equipment shall not be removed from the Equipment Location without Lessor's prior written consent. Lessor shall have the right to inspect the Equipment or any records pertaining to the Equipment at any reasonable time. Upon the termination of the Lease the Equipment shall, at Lessee's expense, be prepared for shipment in a manner acceptable to the shipper, in the condition required by paragraph 9 hereof. Upon the expiration of the term of this Lease or any renewal term, if requested by Lessor, Lessee will provide for suitable storage of the Equipment on Lessee's property nearest the last use of the Equipment for a period of up to six (6) months at no cost or expense to Lessor. During the period of such storage, Lessee shall not use the Equipment or take any action that would decrease its value.

11. **Loss or Damage.** If the Equipment is damaged beyond repair, lost or stolen (an Event of Loss), then Lessee shall pay on the Due Date immediately following such Event of Loss, the Stipulated Loss Value in excess of insurance proceeds actually received by Lessor. Lessee shall furnish to Lessor, no later than such Due Date, such proof of the Event of Loss as Lessor may reasonably require. Lessor may enter the premises where the Equipment is kept in order to inspect it and to arrange for its disposal. Upon receipt by Lessor of all amounts due and payable pursuant to this Lease, this Lease shall be deemed terminated. Lessor shall reimburse Lessee, up to Stipulated Loss Value paid by Lessee, from any insurance or other proceeds received from the disposition of Equipment suffering an Event of Loss. If the Equipment is damaged, but can be repaired, Lessee shall repair it at its sole cost and expense so that it is in the condition required by Paragraph 9, and this Lease shall continue in full force and effect. Lessor agrees to release any proceeds from insurance received in connection with such damage to Lessee upon receipt of satisfactory evidence that the Equipment is in the condition required by paragraph 9 hereof.

12. **Default.** Any one of the following shall, at the option of Lessor, constitute a default by Lessee: (a) failure by Lessee to make any payment of Rent within ten days of the Due Date; or (b) failure by Lessee to comply with or perform any of the provisions of this Lease, including all supplements and attachments; or (c) the institution by or against Lessee or its property of a proceeding in bankruptcy, receivership, insolvency or reorganization or the application for or Lessee's consent to any arrangement or composition with creditors; or (d) the death or judicial declaration of incompetence of Lessee, if an individual; or (e) the occurrence of any of the above-described events with respect to any guarantor or any other party liable for payment or performance of this Lease.

13. **Remedies.** Upon the occurrence of any default and at any time thereafter, Lessor may choose to declare this Lease to be in default and may choose to do one or more of the following: (a) proceed in court to enforce Lessee's performance of the Lease covenants or to recover damages for Lessee's breach; (b) by notice in writing terminate this Lease, whereupon all rights of Lessee to the use of the Equipment shall absolutely terminate, but Lessee shall remain liable as provided below. Lessee, if so requested by Lessor, shall at Lessee's expense promptly return the Equipment to the possession of Lessor in the condition required by Paragraph 9 of this Lease, or Lessor may choose to enter upon the premises where the Equipment is located and remove it, without liability for damage to the premises due to removal, by summary proceedings or otherwise. Lessee shall, without further demand, immediately pay to Lessor an amount equal to any unpaid Rent due and payable for all periods up to and including the Due Date following the date on which Lessor has declared this Lease to be in default, plus an amount equal to the Stipulated Loss Value of the Equipment, computed as of such Due Date. Following the return of the Equipment to Lessor under this paragraph, Lessor shall proceed to sell the Equipment in such manner as it shall deem appropriate. The proceeds of such sale shall be applied by Lessor (a) first, to all Lessor's costs resulting from the default and the exercise of its remedies and (b) second, to reimburse Lessee for the Stipulated Loss Value previously paid by Lessee. Any surplus remaining thereafter shall be retained by Lessor. Lessor has the right to choose among the remedies available to it and to exercise any or all of them at any time after a default by Lessee. A waiver of one default by Lessor does not apply to any future defaults.

14. **Purchase and Renewal Option.** If Lessee is not in default at the end of the term of this Lease, Lessee may deliver a written notice to Lessor not later than ninety (90) days prior to the end of the term of this Lease, electing to purchase, or renew the Lease for the Renewal Term with respect to all, but not fewer than all, items of Equipment for a purchase price or renewal rate equal to the "Fair Market Value" or the "Fair Market Rental Value" of the Equipment, in the condition required by paragraph 9 hereof, as of the end of the term of this Lease. Fair Market Value and Fair Market Rental Value shall equal the value in an arm's length transaction between an informed and willing buyer-user (other than (i) a lessee currently in possession or (ii) a used equipment dealer) and an informed and willing seller or lessor under no compulsion to sell or lease and shall not include costs of removal from the Equipment Location. If on or before sixty (60) days prior to the expiration of the term of this Lease, Lessor and Lessee are unable to agree upon the Fair Market Value or Fair Market Rental Value of the Equipment, it shall be determined on the basis set out above by an independent appraiser selected by Lessor and approved by Lessee (such approval not to be unreasonably withheld). The appraiser shall inform Lessor and Lessee of such determination within fifteen (15) days following appointment. The appraisal shall be binding upon both Lessor and Lessee.

Upon payment of the purchase price to Lessor, Lessor shall execute and deliver a bill of sale (without representations or warranties except that such Equipment is free and clear of all encumbrances by or in favor of any person claiming by, through or under Lessor) and such other documents as may be required to release the Equipment from the terms of this Lease and to transfer title to the purchaser, in such form as may reasonably be requested by Lessee, all at Lessee's expense.

15. **Miscellaneous.** The terms of this Lease shall not be altered in any manner except by written instrument signed by Lessor and Lessee and shall be binding upon and inure to the benefits of their permitted successors and assigns.

If there are two or more Lessees under this Lease, the obligations of the Lessees hereunder shall be joint and several.

If Lessee fails to perform any of its agreements, Lessor may itself perform, and the amount of any payment plus Lessor's reasonable expenses in connection with such performance, together with interest at the highest rate permissible shall be deemed additional Rent, payable by the Lessee on demand.

This Lease is not assignable by Lessee without the prior written consent of Lessor.

This Lease shall be construed in accordance with, and shall be governed by, the laws of the state of the Equipment Location. The unenforceability of a particular provision of this Lease in one jurisdiction shall not make the rest of the Lease invalid or make such provision unenforceable in any other jurisdiction. To the extent permitted by applicable law, Lessee hereby waives any provision of law which renders any provision hereof prohibited or unenforceable in any respect.

LESSEE REPRESENTS AND WARRANTS THAT ALL CREDIT AND FINANCIAL INFORMATION SUBMITTED TO LESSOR IN CONNECTION WITH THIS LEASE OR AT ANY OTHER TIME IS TRUE AND CORRECT. Lessee hereby requests Lessor to purchase the Equipment from the seller and to lease the Equipment to Lessee on the terms and conditions of this Lease set forth herein. Upon written acceptance hereof signed at Lessor's office by an authorized employee of Lessor, Lessor agrees to purchase the Equipment and lease the Equipment to Lessee.

THIS LEASE IS NOT CANCELLABLE. LESSEE HAS READ AND AGREES TO THE TERMS, PROVISIONS AND CONDITIONS HEREOF.

IN WITNESS WHEREOF, LESSEE HAS HEREBY EXECUTED THIS LEASE THIS _____ DAY OF _____, 19____.
