# WATER RIGHT LICENSE

WATER RIGHT NO. 35-08926

Priority: December 17, 1990

Maximum Diversion Rate:

5.19 CFS

This is to certify, that FORREST W WOOD  
1796 TABER

BLACKFOOT ID 83221

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated December 17, 1990; and has submitted Proof of Beneficial Use on April 24, 1996. An examination indicates that the works have a diversion capacity of 7.150 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

| <u>BENEFICIAL USE</u> | <u>PERIOD OF USE</u> | <u>RATE OF DIVERSION</u> | <u>ANNUAL VOLUME</u> |
|-----------------------|----------------------|--------------------------|----------------------|
|-----------------------|----------------------|--------------------------|----------------------|

|            |                |          |  |

Total number of acres irrigated: 563.4

## CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
5. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

State of Idaho  
Department of Water Resources**WATER RIGHT LICENSE**

WATER RIGHT NO. 35-08926

CONDITIONS OF APPROVAL AND REMARKS

7. Rights 35-02420, 35-07768, and 35-08926 when combined shall not exceed a total diversion rate of 7.15 cfs, a total annual diversion volume of 1416.0 af, and the irrigation of a total of 563.4 acres.
8. This right is limited to the irrigation of 268 acres within the place of use described above in a single irrigation season. Rights 35-02420 and 35-07768 are also diverted through the point(s) of diversion described above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.  
Witness the seal and signature of the Director, affixed at Boise, this 23<sup>rd</sup>  
day of APRIL, 1997.

**STATE OF IDAHO**

|                               |                   |
|-------------------------------|-------------------|
| IN THE MATTER OF PERMIT NO. ) |                   |
| 35-08926 IN THE NAME OF )     | PRELIMINARY ORDER |
| FORREST W. WOOD )             |                   |
| _____ )                       |                   |

This matter having come before the Department of Water Resources (Department), the Department makes the following Findings of Fact, Conclusions of Law, and Order:

**FINDINGS OF FACT**

1. On October 8, 1991, the Director issued Permit No. 35-08926 (permit) to Forrest W. Wood (permit holder) authorizing the diversion of 5.19 cubic feet per second of ground water for the irrigation of 268 acres in Bingham County, Idaho.

2. On November 9, 1994, the Director issued an Order for Temporary Stay of Development and Notice of Formal Proceedings (Order) in connection with the permit. The Order required the permit holder to temporarily stop further development until again authorized. The Order also required the filing of proof of beneficial use of water for the portion of the permit that had been developed, or the filing of a response with the Director pursuant to paragraph 2. of the Order.

3. The permit holder did not respond to the Order. Hence on February 14, 1995, the Director issued a Final Order cancelling the permit.

4. In May of 1994, department staff reviewed for licensing other water rights in the vicinity of the permit. In particular, the Department determined that Permit No. 35-07768 in the name of Eastern Idaho Production Credit Assn. (EIPCA) was used on land owned by the permit holder and is used in connection with Permit No. 35-08926.

5. On January 29, 1994, the Department requested EIPCA to file an amendment. No response was received and on May 24, 1994, the same request was made to the permit holder, the owner of the land listed under the EIPCA water right permit.

6. On September 7, 1994, the Department received correspondence from the permit holder expressing that an error had been made in the EIPCA permit by listing the wrong acres being irrigated.

MICROFILMED  
JUN 10 1997

7. Through telephone conversations with the permit holder, the Department determined that the permit holder did not respond to the Order or the Final Order on Permit No. 35-08926 because he thought the Orders related to a different water right permit.

8. The EIPCA permit is a integral part of the water rights used by the permit holder to irrigate his land and is used in combination with Permit No. 35-08926.

#### CONCLUSIONS OF LAW

1. The permit holder would have complied with the provisions of the Order if he had understood which permit was the subject of the order and is willing to file the proof of beneficial use of water for the permit.

2. The Director should rescinded the Final Order which cancelled the permit and should reinstate the permit.

#### ORDER

IT IS, THEREFORE, HEREBY ORDERED as follows:

1. the Final Order of the department dated February 14, 1995 is **RESCINDED**.
2. Permit No. 35-08926 is **REINSTATED**.
3. Permit holder shall submit proof of construction of works and application of water to beneficial use to the department on or before May 1, 1996.

Dated this 1<sup>st</sup> day of March, 1996.

---

**FINAL ORDER**

This matter having come before the Idaho Department of Water Resources (department), as a result of failure of the permit holder to respond to a prior order of the department, the department makes the following Findings of Fact, Conclusions of Law and Order:

**FINDINGS OF FACT**

1. On November 9, 1994, the department issued an Order for Temporary Stay of Development and Notice of Formal Proceedings (order) requiring certain permit holders to either file proof of beneficial use of water in connection with their permit or to otherwise respond to the department in connection with the order.
2. The holder of Permit No. 35-08926 (permit holder) has neither filed proof of beneficial use of water nor responded to the department in connection with the order.

**CONCLUSIONS OF LAW**

1. Section 42-1805, Idaho Code, provides in part as follows:

In addition to other duties prescribed by law, the director of the department of water resources shall have the following powers and duties:

...

(7) After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of minimum flow provisions of the state water plan.

2. IDAPA Rule 37.03.08055.02 (Water Appropriation Rule 55) of the Department of Water Resources, provides as follows:

a. To the extent a permit has not been developed, the director may cancel, or modify permits for which proof of

JUN 10 1997

beneficial use has not been submitted in a designated geographical area as an extension of Rule 55.01.

b. Notice of the director's action to cancel or modify permits shall be by:

i. Summary Order served by certified mail upon the affected permit holders in the designated area.

ii. Publication of an order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area.

c. Objections to the director's action shall be considered under the department's rules of procedure and applicable law.

3. IDAPA Rule 37.01.01104 (Rule of Procedure 104) of the Department of Water Resources provides in part as follows:

Formal proceedings may be initiated by a document from the agency informing the party(ies) that the agency has reached an informal determination that will become final in the absence of further action by the person to whom the correspondence is addressed, provided that the document complies with the requirements of Rules 210 through 280.

4. The department has properly notified the permit holder of requirements related to the department's order dated November 9, 1994 and the permit holder has failed to respond.

5. The department should cancel Permit No. 35-08926.

#### ORDER

IT IS THEREFORE, HEREBY ORDERED that Permit No. 35-08926 in the name of Forrest W. Wood is **CANCELLED** and is of no further force nor effect.

Dated this 14<sup>TH</sup> day of FEBRUARY, 1995.

**ORDER FOR TEMPORARY  
STAY OF DEVELOPMENT AND  
NOTICE OF FORMAL PROCEEDINGS**

The Director of the Idaho Department of Water Resources (Director), having responsibility for the administration of the appropriation of the water of the state of Idaho, the protection of rights to the use of water within the state, the protection of the public interest in the waters of the state and the conservation of the water resources of the state enters the following Findings of Fact, Conclusions of Law and Order for temporary stay; and provides the following notice of formal proceedings:

**FINDING OF FACTS**

1. On May 15, 1992, the Director issued an order establishing a moratorium on the processing and approval of applications for permit to appropriate water from all surface and ground water sources upstream from the USGS Gauge on the Snake River near Weiser, Idaho. On April 30, 1993, the Director issued an Amended Moratorium Order covering the Eastern Snake River Plain Aquifer. The 1994 session of the Idaho Legislature enacted section 42-1806, Idaho Code, requiring that the moratorium relating to the the Eastern Snake River Plain area shall continue in effect until December 31, 1997.

2. The state of Idaho has experienced seven (7) recent years of drought conditions resulting in lowered ground water levels and decreased discharge from surface water sources. The Idaho Legislature has authorized a study to examine the implications of these changes and the relationships between surface and ground water resources. The study is expected to be completed in approximately two (2) years.

3. Delivery calls have been made by the holders of senior-priority surface and ground water rights against the holders of junior-priority ground water rights from the Eastern Snake Plain Aquifer which could result in the curtailment of diversion and use of water under junior-priority ground water rights including rights which might otherwise be developed under permits which are the subject of this order and notice.

MICROFILMED

JUN 10 1997

## CONCLUSIONS OF LAW

1. Section 42-1805, Idaho Code, provides in part as follows:

In addition to other duties prescribed by law, the director of the department of water resources shall have the following powers and duties:

...

(7) After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of minimum flow provisions of the state water plan.

2. Water Appropriation Rule 55.02. of the Department of Water Resources (IDAPA 37.03.08055.02) provides as follows:

### 02. PERMITS

a. To the extent a permit has not been developed, the director may cancel, or modify permits for which proof of beneficial use has not been submitted in a designated geographical area as an extension of Rule 55.01.

b. Notice of the director's action to cancel or modify permits shall be by:

i. Summary Order served by certified mail upon the affected permit holders in the designated area.

ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area.

c. Objections to the director's action shall be considered under the department's adopted rules of procedure and applicable law.

3. Rule of Procedure 104 of the Department of Water Resources (IDAPA 37.01.01104) provides in part as follows:

Formal proceedings may be initiated by a document from the agency informing the party(ies) that the agency has reached an informal determination that will become final in the absence of further action by the person to whom the correspondence is addressed, provided that the document complies with the requirements of Rules 210 through 280.

4. Protection of prior rights to the diversion and use of surface and ground water of the Eastern Snake River Plain Aquifer

and the Snake River may require that the further development of water under existing undeveloped permits be suspended indefinitely to assure that the effects and conditions caused by drought, changes in irrigation practices and resulting aquifer recharge, and diversion and use of ground water from the aquifer under prior established water rights are properly evaluated.

5. Section 42-204, Idaho Code, provides in part as follows:

Every holder of a permit which shall be issued under the terms and conditions of an application filed hereafter appropriating twenty-five (25) cubic feet or less per second must, within one (1) year from the date upon which said permit issues from the office of the department of water resources, commence the excavation or construction of the works by which he intends to divert the water, and must prosecute the work diligently and uninterruptedly to completion, unless temporarily interrupted through no fault of the holder of such permit by circumstances, over which he has no control.

#### ORDER

IT IS THEREFORE, HEREBY ORDERED as follows:

1. The owners of all permits to appropriate ground water within the boundaries of the Eastern Snake Plain Aquifer, as that area is defined by Rule 50 of the rules for Conjunctive Management of Surface and Ground Water Resources (IDAPA 37.03.11), shall, effective immediately upon receipt of this order, temporarily stop further development under the permit until the Director authorizes further development.

2. The owners of all permits for appropriation of ground water within the boundaries of the Eastern Snake River Plain Aquifer shall on or before February 1, 1995, either:

A. File proof of beneficial use to cover the extent of diversion and beneficial use of water that has been accomplished prior to receipt of this order; or

B. File a response with the Director in this proceeding to satisfy the requirements of either subparagraph 1) or 2) below:

1) Document with supporting information that a "substantial investment" has been made, prior to receipt of this order, in facilities to divert and beneficially use water under the permit that merits the granting of additional time to complete all or part of the project. Substantial investment means an actual expenditure or written commitment for development of the project which meets the following requirements:

MICROFILMED

- a) The actual expenditure or written commitment for the diversion and related equipment must equal or exceed the amount of fifteen thousand dollars (\$15,000) or exceed twenty five (25) percent of the estimated cost of the system for diverting and beneficially using the water, whichever is less; and
- b) The actual expenditure or written commitment must have been made before receipt of this order.

2) Request an indefinite stay in the development period for the project, or any part of the project for which a substantial investment has not been made, until the conditions that resulted in this order have been alleviated if such should ever occur. Upon approval of any such stay, no further development is to occur until such time as the department has issued an extension of time setting a date for completion of the project.

3. Failure to submit either proof of beneficial use or a satisfactory response shall result in cancellation of the permit without further notice.

4. Before receiving approval for either additional time to complete a project under subparagraph 2.B.1) or a stay under subparagraph 2.B.2) above, the owner of the permit shall provide information to demonstrate compliance with the provisions of Sections 42-204, Idaho Code, with respect to commencing and diligently proceeding to develop the project authorized under the permit.

5. This order does not prevent the Director from reviewing continued development of a permit on a case-by-case basis if,

a. The Director determines that protection and furtherance of the public interest justifies continued development of a permit; or

b. The Director determines that continued development and use of water will have no effect on prior water rights because of its location, insignificant consumption of water or mitigation provided by the permit holder to offset injury to other rights.

Dated this 9TH day of NOVEMBER, 1994.

STATE OF IDAHO  
DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF  
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 35-08926

Name(s) of Permit Holder: FORREST W. WOOD

Mailing Address: 1796 TABER BLACKFOOT, ID 83221

Date Proof is Due 9-1-93

Telephone No. \_\_\_\_\_

Describe what work has been completed toward the development of this water right:  
(This must be filled out! If no work has been completed, show "none".)

I have been using water from old permit to water  
the land under the new application; however this  
is the way the land has been irrigated previously  
Costing \$ \_\_\_\_\_

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

I am in contact with the INDEPENDENT WELL DRILLING  
here in Blackfoot and due to the increased well work of  
late he wouldn't be able to get to the well for several months

Permit holder(s) request an extension to 6-1-, 19 95.

FEE: \$15.00

Forrest W. Wood

Senior Secretary

STATE OF IDAHO  
DEPARTMENT OF WATER RESOURCES  
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Forrest W. Wood Phone 684-3856  
Post office address 1796 Taber, Blackfoot Id 83221

2. Source of water supply Groundwater which is a tributary of \_\_\_\_\_

3. Location of point of diversion is \_\_\_\_\_ 1/4 of SE 1/4 of NW 1/4, Govt. Lot \_\_\_\_\_  
Sec. 30 Township 1S Range 33E B.M. Bingham County; additional  
points of diversion if any: SE 1/4 SW 1/4 Sec 30, T1S, R33E Bingham

4. Water will be used for the following purposes:

Amount 5.19 for Irrigation purposes from 4/1 to 4/1 (both dates inclusive)  
(cfs or acre-feet per annum)

Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
(cfs or acre-feet per annum)

Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
(cfs or acre-feet per annum)

Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 5.19 and/or (b) \_\_\_\_\_  
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Two wells pumps mainline to  
center pivot and laterals with sprinklers

b. Height of storage dam \_\_\_\_\_ feet; active reservoir capacity \_\_\_\_\_ acre-feet; total  
reservoir capacity \_\_\_\_\_ acre-feet; period of year when water will be diverted to storage:

\_\_\_\_\_ to \_\_\_\_\_ inclusive. 300'

new c. Proposed well diameter is 10 inches; proposed depth of well is 300 feet.

d. Is ground water with a temperature of greater than 90°F being sought? No

7. Time required for the completion of the works and application of the water for the proposed beneficial use is  
2 years (minimum 1 year).

RECEIVED  
NOV 15 1991

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in KW. \_\_\_\_\_
- Stockwatering; list number and kind of livestock. \_\_\_\_\_
- Municipal; show name of municipality. \_\_\_\_\_
- Domestic; show number of households. \_\_\_\_\_
- Other; describe fully. \_\_\_\_\_

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for Domestic) in the corresponding place of use below. See instructions for standard symbols.

### ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. \_\_\_\_\_, and said application is hereby \_\_\_\_\_.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before \_\_\_\_\_, 19 \_\_\_\_.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Re: Forrest & Helen Wood Transfer application on right 35-02420, and Amendment applications for rights 35-08926 and 35-07768

Dear Kent:

In response to your letter regarding the matters above relating to the filings associated with two amendment of permit applications and one application for transfer I have the following information.

The applications for amendment of permit were approved and a license for the two respective rights have been issued. Enclosed are copies of the two approved amendments and the licenses.

The application for transfer has been forwarded to our Eastern Regional office for advertizing. You may want to contact them for further information.

If I can be of any further assistance please let me know. Thank you for your patience.

Sincerely,

Jim Johnson, Manager  
Water Permits Section

RE: Rights no. 35-08926 and 35-07768

Dear Mr. Wood;

Enclosed are two water right licenses that cover the lands you irrigate. I want to express my appreciation for the patience that you and Mr. Foster have provided on this matter. It has taken a long time to get these licenses issued and I believe the water rights now, with Mr. Foster's assistance accurately represents your use of water.

The Department, pursuant to section 67-5243, Idaho Code, now issues licenses as preliminary orders which means that if you are not in agreement with the information listed on the licenses, you must notify the Department within 14 days. The attachment explains in more detail what you should do.

The transfer application filed on water right 35-02420 is being processed and you will receive more information about this later.

If you have any questions please let me know. I can be contacted at (208) 327-7947.

Sincerely,

Jim Johnson, Manager  
Water Permits Section

RE: Permit No. 35-08926

Dear Mr. Wood;

This letter is to acknowledge the receipt of your statement of beneficial use of water along with the payment of \$175.00 for the above referenced permit. Receipt No. C035389 is enclosed.

Normally the department would inform you that scheduling a field examination would be the next action taken for the eventual licensing of this permit. However, in this case the department has already completed a field examination under permit no. 35-07768. I understand, through working with Kent Foster, that this permit is used in combination with permit no. 35-07768 and license no. 35-02420 to fully cover your irrigated land. I have enough information to process both this permit, and permit 35-07768 for licensing now rather wait for an field examiner to become available to conduct an examination. Currently, I am working on getting permission to change the ownership of permit 35-07768 from Eastern Idaho Production Credit Assn. to you. I have recently contacted Mr. Seeley and I am waiting to receive his response. Once I have his approval I can proceed with sending you an application for amendment of permit needed before I can issue the license from this permit.

If you have any questions you can contact either myself or Kent Foster who I have been working closely with and has provided me valuable assistance in processing these water rights.

Sincerely,

  
Jim Johnson, Manager  
Water Rights Section

Re: Permit No. 35-08926, Forrest W. Wood

Dear Jim:

Your letter of April 10, 1996, in the above entitled matter did arrive on the very day we spoke by telephone, April 15, 1996. We have now been able to visit with Mr. Wood and he has signed the Proof of Beneficial Use which you prepared. We are returning the original with this letter together with Mr. Wood's check in the amount of \$175 pursuant to your letter.

Please let us know if there is anything else we can do to assist in completing this matter. Thank you for your kind assistance.

Very truly yours,

Kent W. Foster

Re: Permit No. 35-08926, Forrest W. Wood

Dear Kent

Enclosed is a completed Proof of Beneficial Use form for Forrest Wood. You should have him sign the form and return it to me by May 1, 1996 along with the \$175.00 fee.

Once I have this form I can continue with completing the water right process for Mr. Wood's land.

I have also inclosed for your reference copies of the permit and related matters. I think once see how the place of use under this permit overlays with the place of use listed under Mr. Woods other right, No. 35-07768, you will agree that all of his irrigated land is covered with a water right.

If you have any questions please let me know.

Sincerely,

Jim Johnson, Manager  
Water Allocation Section

NOT RECORDED

JUN 10 1996

**MEMORANDUM**

**Date:** March 20, 1997

**To:** File

**From:** Jim Johnson

**Subject:** Field Examination for right 35-08926

=====

There are a total of 563.4 acres irrigated from a well located within the SENW Section 30 T1S R33E. There are three water rights, 35-02420, 35-07768 and 35-08926, filed to cover all of the lands irrigated. The delivery system and lands irrigated have not changed since 1990. A license has already been issued for right 35-02420 and the other two rights are in process of being licensed.

An inspected for right no. 35-07768 was conducted on July 9, 1991. The place of use listed on the examination listed only lands irrigated that were covered by the permit and did not include all of the lands covered by the irrigation system. The place of use description has been modified to allow application of water to any of the 563.4 acres covered by the common system with a limitation that no more than 354 acres maybe irrigated in any one season. The provision for allowing a water right to apply water any where within a common distribution system is know as permissible place of use. (PPU)

An application for transfer also has been filed for licensed right 35-02420 which reconfigure the place of use to allow the water right to be used anywhere within the common delivery system. (PPU)

The third and last water right is ready to be licensed, however, a field exam has not been conducted under this permit. No change has occurred to the point of diversion and the delivery system. The datum collected under the examination of the system on July 9, 1991 is still valid, therefore, scheduling another field examination is not justified. The information reported in the 1991 examiner's report is used to document the licensing of right 36-08926.

The contribution of the third water to the 563.4 irrigated system is to provide a small additional supply of water (0.07 cfs\*) to equal the total rate of diversion of water from the point of diversion and to provide 268 irrigated acres not covered by the other two rights. A copy of the examiners report for permit 35-07768 is in the file for reference.

MICROFILMED

JUN 10 1997

The license for 35-08926 should contain the following.

Total diversion = 0.07 cfs\*  
Diversion Capacity = 7.15 cfs\*\*

Irrigation 04/01 to 10/31 0.07 cfs

Point of Diversion location : SENW SEC. 30, Township 01S, Range 33E.\*\*

Place(s) of Use: IRRIGATION

|      |      |      | SENE          | 26.0   | NENW          | 11.0   |               |        |
|      |      |      |               |        | Total Acres:  | 563.4  |               |        |

Conditions of Approval and Remarks:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
5. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
7. Rights 35-02420, 35-07768 and 35-08926 when combined shall not exceed a total annual diversion volume of 1416 af, and the irrigation of a total of 563.4 acres.
8. This right is limited to the irrigation of 268 acres within the place of use described above in a single irrigation season.
9. Rights 35-02420 and 35-07768 are also diverted at the point of diversion described above.

[ \*Total diversion = 7.150 cfs. Right 35-02420 provides 5.45 cfs and Right 35-07768 provides 1.63 cfs].

\*\* See July 9, 1991 exam report.

RE: In the Matter of Application for Permit No. 35-08926 in the  
name of Forrest W. Wood

Dear Interested Party:

The accompanying order is a "final order" issued by the  
department pursuant to section 67-5246 or 67-5247, Idaho Code.

Section 67-5246 provides as follows:

(1) If the presiding officer is the agency head, the  
presiding officer shall issue a final order.

(2) If the presiding officer issued a recommended order, the  
agency head shall issue a final order following review of that  
recommended order.

(3) If the presiding officer issued a preliminary order, that  
order becomes a final order unless it is reviewed as required in  
section 67-5245, Idaho Code. If the preliminary order is reviewed,  
the agency head shall issue a final order.

(4) Unless otherwise provided by statute or rule, any party  
may file a petition for reconsideration of any order issued by the  
agency head within fourteen (14) days of the issuance of that  
order. The agency head shall issue a written order disposing of  
the petition. The petition is deemed denied if the agency head  
does not dispose of it within twenty-one (21) days after the filing  
of the petition.

(5) Unless a different date is stated in a final order, the  
order is effective fourteen (14) days after its issuance if a party  
has not filed a petition for reconsideration. If a party has filed

RECORDED  
JUN 10 1997

a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

(6) A party may not be required to comply with a final order unless the party has been served with or has actual knowledge of the order. If the order is mailed to the last known address of a party, the service is deemed to be sufficient.

(7) A nonparty shall not be required to comply with a final order unless the agency has made the order available for public inspection or the nonparty has actual knowledge of the order.

(8) The provisions of this section do not preclude an agency from taking immediate action to protect the public interest in accordance with the provisions of section 67-5247, Idaho Code.

#### PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a final order within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5246(4) Idaho Code.

#### APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or

RECORDED  
JUN 10 1997

- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days a) of the service date of the final order, b) of an order denying petition for reconsideration, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

L. GLEN SAXTON  
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 35-08926

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson  
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 35-08926

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well

**RECEIVED**

NOV 15 1991

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

PAMELA SKAGGS  
Technical Records Specialist

Attn: Harold W. Jones

Sir:

4,5,3,1,2 After further review of our original proposal on the new well site, we think we can do a better job by moving the site further East. (There is no well within 1/2 mile other than mine)

4,5,3,2,1 The new site would provide water for 194 acres. Used would be from 4-1 to 11-1 and be 3.90 CFS or 1750 GPM. Located NE 1/4 Sec 31 T15 R32E. We feel we are short water and pressure from our old well to do an adequate job on the acres we presently are irrigating.

4,5,3,1,3 Our long range plan is for pivots, but for the near future it will be handline and some wheelline.

4,5,3,4,2 The system would require 10 lines during peak use when in potatoes for about 2 1/2 months and less early and late as needed. Estimates cost for drilling a deep well turbine pump--electrical switch gear-- is \$ 50,000.00. We already have handlines and aluminum mainline available.

The well would located there in order to prevent interference with other wells within the 1/2 mile radius. The aquifer is large and confined with static water about 200 to 250 feet at this location and should basically be lava most of the way.

Sincerely,

F.W. Wood

4,5,3,2,2 we have no data on the existing well we have & Water Resources has no well log for this one either.

DEAR MR. WOOD:

WE ARE CURRENTLY PROCESSING YOUR APPLICATION 35-08926 FOR A WATER RIGHT. FOR ANY APPLICATION OR PERMIT WHICH EXCEEDS 200 ACRES OR 5.00 CFS THE INFORMATION ON THE ATTACHED SHEETS ARE REQUIRED BEFORE ANY FURTHER PROCESSING CAN TAKE PLACE. PLEASE TRY TO ANSWER THE HIGHLIGHTED QUESTIONS TO THE BEST OF YOUR ABILITY. IF YOU NEED ADDITIONAL CLARIFICATION PLEASE GIVE ME A CALL AT 525-7161. IF YOU ARE NO LONGER INTERESTED IN DEVELOPING THIS PERMIT PLEASE ADVISE ME.

I WILL NEED YOU TO RESPOND WITHIN 30 DAYS WITH THE INFORMATION REQUIRED.

SINCERELY,

HAROLD W. JONES  
WATER RESOURCE SUPERVISOR

RE: Application No. 35-8926

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in Morning News on June 20 & 27, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

*Harold Jones*
