Copies to Former Owner and New Owner

INSTRUCTIONS

RECEIVED
10-11-88
This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

WARRANTY DEED

WARRANTY DEED made this 28th day of February, between JESS CROFT & SON, INC., an Idaho corporation, herein referred to as Grantor, and NATURAL GUARDIAN LIMITED PARTNERSHIP, acting through its general partner, Tesamen Enterprises, Inc., an Idaho corporation, whose mailing address is P. O. Box 50305, Idaho Falls,, herein referred to as Grantee, WITNESSETH:
 Idaho 83405

That Grantor, for and in consideration of the sum of TEN Dollars (\$10.00) and other good and valuable consideration, the receipt whereof is hereby acknowledged, has granted, bargained, and sold, and does, by these presents, grant, bargain, sell, convey, and confirm unto Grantee and to its successors and assigns forever, all the following described real estate located in the County of Bonneville, State of Idaho:

Beginning at a point that is North 00° 07' 37" West 2333.14 feet along the Section line from the Southeast corner of Section 16, Township 2 North, Range 36 East of the Boise Meridian; and running thence North 65° 37' 48" West 556.90 feet along a fence; thence North 00° 07' 37" West 2715.93 feet parallel with the East line of Section 16 to the South line of Section 9; thence South 89° 48' 11" West 1869.50 feet along the South line of said Section 9; thence North 00° 00' 32" West 2084.30 feet parallel with the East line of Section 9; thence North 44° 59' 29" East 1167.28 feet; thence North 89° 59' 29" East 381.38 feet to a point on a fence; thence North 24° 04' 02" East 879.33 feet along said fence to the South line of U.S. Highway 20 (Federal Aid Project No. F-6422(1)), to a point on a curve with a radius of 15426.00 feet and a chord that bears South 71° 57' 54" East 852.71 feet; thence to the right along said curve 852.82 feet through a central angle of 03° 10' 03" intersecting the East line of Section 9; thence South 00° 00' 31" East 3440.59 feet along the East line of said Section 9 to the Northeast corner of Section 16; thence South 00° 07' 37" East 2947.46 feet along the East line of Section 16 to the point of beginning, containing 199.51 acres.

TOGETHER with all water, water rights, ditches and ditch rights thereunto belonging or in anywise appertaining, usually had and enjoyed, including but not limited to the water rights evidenced by Water Right License Nos. 35-08863 and 35-08942 in the name of Justin D. Croft, as to which the point of diversion may be on the above-described property, to the extent that Grantor has any interest therein.

SUBJECT TO:

1. Taxes and assessments for the year 1997 and all subsequent years.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of said land or by making inquiry of persons in

possession thereof.

3. Unpatented mining claims, reservations or exceptions in patents or in acts authorizing the issuance thereof.
4. All reservations, restrictions, easements, road and road rights of way, ditch and ditch rights of way, zoning restrictions, governmental regulations and protective covenants of record.

TOGETHER WITH all and singular the tenements, hereditaments, and appurtenances thereunto belonging or in anywise appertaining, specifically including the reversion and reversions, remainder and remainders, rents, issues, and profits thereof; and all estate, right, title and interest in and to the property, as well in law as in equity.

TO HAVE AND TO HOLD, all and singular the above-described premises together with the appurtenances unto Grantee and to its successors and assigns forever.

And Grantor and its successors shall and will warrant and by these presents forever defend the premises in the quiet and peaceable possession of Grantee, its successors and assigns against Grantor and its successors and against all and every person and persons whomsoever lawfully claiming the same.

IN WITNESS WHEREOF, Grantor has caused this instrument to be executed by its duly authorized officer on the day and year first above written.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, L. GLEN SAXTON

, of the Department of Water Resources hereby

approve the above referenced application for amendment provided the conditions

as set forth in permit No. 35-8863 are met.

Witness my hand this

day of

19 91

Chief, Water Allocation Bureau

[Handwritten signature]

State of Idaho
Department of Water Resources

Permit To Appropriate Water

NO. 35-08863

Proposed Priority: July 3, 1989 Maximum Diversion Rate: 6.68 CFS

This is to certify, that **JESTIN D. CROFT**
9801 W. ARCO HWY.
IDAHO FALLS, ID 83402

has applied for a permit to appropriate water from: **GROUNDWATER**
and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	04/01 to 11/01	6.68 CFS

LOCATION OF POINT(S) OF DIVERSION: NENW Sec. 15, Township 02N, Range 36E
BONNEVILLE County

<u>PLACE OF USE: IRRIGATION</u>						
<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
02N	36E	9	NESE 40	SESE 40		80
		10	NESW 39	SWSW 10	SESW 40	89
		15	SWNE 20	NENW 40	NWNW 20	
			SENW 35	NESW 30	NWSE 20	165
Total number of acres irrigated:						334

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **March 1, 1993**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
5. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. Any license issued by IDWR pursuant to the permit or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
7. Diversion and use of water under this permit is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.

APPROVED

MAR 10 1991

State of Idaho
Department of Water Resources**Permit To Appropriate Water**

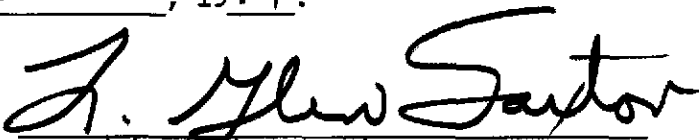

NO. 35-08863

CONDITIONS/REMARKS:

8. The Director retains jurisdiction of the permit and/or subsequent license issued to change, add or remove any requirement as determined to be appropriate.
9. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
10. The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this

5th day of March, 1991.

for

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Jestin D. Croft Phone 523-5897
 Post office address 9801 W. Arco Hwy. Idaho Falls, ID 83402
2. Source of water supply Groundwater which is a tributary of _____
3. Location of point of diversion is _____ ¼ of NE ¼ of NW ¼, Govt. Lot _____
 Sec. 15 Township 2N Range 36E B.M. Bonneville County; additional
 points of diversion if any: _____
4. Water will be used for the following purposes:
 Amount 6.68 for Irrigation purposes from 4-1 to 11-1 (both dates inclusive)
(cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 6.68 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc. Well and pump to sprinklers.
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
 reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
 _____ to _____ inclusive.
 - c. Proposed well diameter is 20 inches; proposed depth of well is 400 feet.
 - d. Is ground water with a temperature of greater than 90°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
2 years (minimum 1 year).

RE: WATER RIGHT NOS. 35-08863 AND 35-08942

Dear Water Right Holder(s):

Enclosed are copies of the Water Right Licenses issued on the above referenced permits along with copies of your approved Applications for Amendment. Should you have any questions regarding these documents, please contact me.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen".

RE: Water Rights 35-08942 and 35-08863

Dear Mr. Keen:

I'm so sorry we have taken so long in sending you our signature and check for the above listed water rights. I'm sure we thought it would be a labored project and seemed overwhelming on top of fall harvest time.

Thankyou so much for the aerial photo map. I hadn't helped Jess with the quarter quarter section descriptions (he was reading them backwards) and when we sat down together it went very fast! We found the descriptions to be accurate. Therefore you will find the enclosed documents and check for the Amendments. We anxiously await the final Water Permits for this farm.

Sincerely,

Jess & Barbara Croft

RE: Water Rights 35-08942 and 35-08863

Dear Barbara:

I appreciated your call yesterday to let me know of your progress in reviewing my request that you file amendments for Permits 35-08942 and 35-08863. As we discussed, I have enclosed a copy of the aerial photo used by our field examiner to determine the place of use for your rights. I think it will go a long way toward addressing some of the concerns you have.

I will look forward to hearing from you shortly. If you have any questions, please contact me at 208-327-7946.

Respectfully,

A handwritten signature in cursive script that reads "Shelley Walter Keen".

RE: WATER RIGHT NOS. 35-08863 and 35-08942

Dear Water Right Holder(s):

I previously forwarded to you Applications for Amendment so that you could amend your permits to depict your water rights as they have actually been developed.

As of this date, I have not received these amendments. If I do not receive the amendments within fourteen (14) days, Water Right Licenses will be issued for less than could have been allowed. In case the amendment forms I sent you have been misplaced, new ones are enclosed. Please note that the filing fee for each amendment is \$50.00, for a total of \$100.00.

If you have any questions, please call me at (208) 327-7946.

Sincerely,

Shelley W. Keen

RE: WATER RIGHT NOS. 35-8863 and 35-08942

Dear Water Right Holder(s):

The above referenced water rights are in the process of being licensed. However, before the licenses can be issued, your permits must be amended to depict your water rights as they actually have been developed.

The enclosed Applications for Amendment contain information that will be included on the licenses when they are issued. The amendments reflect a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendments and return with the \$100.00 (\$50.00 for each amendment) filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen

RE: Recommendation Adjustment(s)

The entire place of use irrigated under these two permits is 482.5 acres. The two rights combined were filed for a total of 402 acres. A permissible place of use will be shown for each right, with the appropriate conditions limiting the two rights a) to a combined total diversion rate of 6.9 cfs as measured, b) a total annual volume of 1608 af (402 acres X 4.0 af/acre), and c) a total number of 402 acres/irrigation season.

RE: PERMIT NO. 35-08863

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson

Address of Well Site _____

Section and subdivision _____

Use of well:

Domestic: The use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to 1/2 acre of land, if the total use is not in excess of 13,000 gpd; any other uses, if the total use does not exceed a diversion rate of 0.04 cfs and a diversion volume of 2500 gpd.

Domestic does not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments, unless the use does not exceed a diversion rate of 0.04 cfs and a diversion volume of 2500 gpd.

Non-Domestic: Any beneficial use not included within the definition of domestic.

Injection

Monitoring - A well bore schematic and map is required for each well.

No. of proposed wells: _____

Construction information:

☐ New well () Deepen () Replace - See Condition 9

Proposed Surface Diameter 18" Proposed Maximum Depth 350'

Anticipated bottom hole temperature:

- ☐ 85°F or less (Cold water well)
- ☐ 85°F to 212°F (Low temp. geothermal well)
- ☐ 212° or more (Geothermal well)

Construction Start Date July 9, 1991

APR 08 1993

Anticipated Well Driller Andrew Well Drilling

NOTE: The actual well driller must be identified prior to drilling.

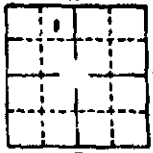

Applicant's signature Rubona J. Croft Date July 9, 1991

PROOF DUE NOTICE

RE: PERMIT NO. 35-08863

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

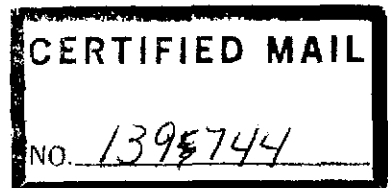

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 35-08863

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow passing your well as far as possible from surface water channels.

MAR 16 1991

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

MAN [illegible]

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 35-8863/Trust Water Processing & Rule 4,5. Info

DATE: 3-1-91

Review of this application indicates that it is a trust water filing which represents new irrigation development. Since the application has a 1989 priority date, it is eligible at this time for sequential processing. For some reason, this application was not forwarded from the region to the state office with other 1989 filings and was instead advertised by the regional office.

The file does include information required by water appropriation rule 4,5,3. The information submitted appears to be acceptable except that the applicant did not submit any financial statement or seek comment from any government agency etc. Due to the location of the project and source of water, it is not likely the project would be of great concern to any particular group or government body. Since we generally do not scrutinize financial statements for projects of this size, I feel the information is acceptable without any statement. I recommend continued processing of the application.

Published 1/17/1991 & 1/24/1991

MICROFILMED

MAR 18 1991

35-8863

Rule 4,5,3 data

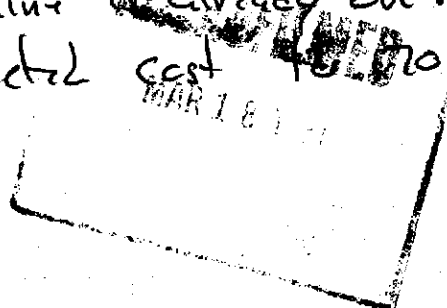

4,5,3,1,2 No other wells within $\frac{1}{2}$ mile radius from proposed p.d.

4,5,3,1,3 12 handlines with flow control nozzles will be used with 200hp motor

4,5,3,2,1 An irrigation season of 6 months (Hay & grain) will be used with 12 handlines with 55pm flow control nozzles. This would produce 4.26 cfs over 180 days for a volume of 1523 af. In our area 2.5 af will be consumptively used for each acre. 334 acres projected would use 835 af.

4,5,3,2,2 Overburden of about 3 feet thru Lava to water bearing zones between 340 + 400'. This is what our domestic well has that is $\frac{3}{4}$ mile away from this proposed well.

4,5,3,4,2 This would be 12 handlines with 200hp pump. Mainline is already on hand so this brings projected cost to \$70,000 or \$75,000.

RE: Application No. 35-08863

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in Post-Register on JANUARY 17 & 24, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
