WATER RIGHT LICENSE

WATER RIGHT NO. 35-08820

Priority: April 13, 1989

Maximum Diversion Rate:

1.48 CFS

This is to certify, that FELD FARMS

C/O JEFF OR TODD FELD

2775 W 1800 S

ABERDEEN ID 83210

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 13, 1989; and has submitted Proof of Beneficial Use on November 25, 1991. An examination indicates that the works have a diversion capacity of 1.570 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	1.48 CFS	

LOCATION OF POINT(S) OF DIVERSION:

SWNW , Sec. 20, Township 06S, Range 31E
BINGHAM County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
06S	31E	20	NWNW 37	SWNW 37		74

Total number of acres irrigated: 74

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
5. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
6. The right holder shall use the full allotment of appurtenant surface water rights, to the extent they are available, in conjunction with groundwater diverted pursuant to this right.
7. This right to divert groundwater shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.

FEB 14 1995

MEMORANDUM

TO: File 35-08820 / Feld Farms
FROM: Brenda Chapman
DATE: February 9, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

G. VOLUME CALCULATIONS

According to the application for permit, this right was intended to supplement a surface water supply that was sporadic at best. Even though they have difficulty obtaining surface water, the fact that it is available must be addressed when licensing the permit.

Therefore, the volume recommendation is addressed in the remarks based on current supplemental groundwater processing procedures.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-01 to 10-31	1.48	Not listed

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 35-08820

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is approved Date -14-89

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

RE: Permit No. 35-08820

Dear Permit Holder:

Returned is your Proof of Beneficial Use Form. Before we can complete processing, additional information is required.

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). You have indicated neither the well driller or the date drilled. If your well was drilled after July 1, 1987 please submit a copy of the drilling permit. If it was drilled before this date, please indicate this on the form.

Please provide the appropriate information within 15 days of the date of this mailing. At that time, I will continue to process your proof of beneficial use.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

Karen L. Gustafson
Karen L. Gustafson
Secretary/Records Manager

Enclosure

Karen,

I've enclosed the drilling permit you requested.

MEMORANDUM

TO: FILE

FROM: KAREN GUSTAFSON

DATE: NOVEMBER 20, 1991

RE: ADDITIONAL PERMITS

Per my telephone conversation with the permit holder, he thought his permit was issued for the irrigation of 120 acres. It is only issued for 80 acres.

I explained on the phone and with a follow up letter that he could apply for another permit for the additional 40 acres or he could let this permit lapse and apply for another permit that would include the 120 acres. I also explained the consequences of both.

Before doing a field exam on this permit, the field examiner should check to see if another permit and proof are completed. If the permit holder chooses to apply for the additional 40 acres, both field exams can be completed at the same time.

*If a proof is issued
on this permit
send a copy of this

Jeff or Todd Feld
P.O. Box B
Aberdeen, ID 83210

Dear Mr.'s Feld:

This letter is to clarify our telephone conversation of November 19. As we discussed, your current permit was issued for irrigation of 80 acres. However, you are currently irrigating 120 acres.

Your first option is to file for a new permit on the remaining 40 acres. If you choose to do this you will essentially have two permits on the same well. It will be necessary for you to complete proof due notices on each permit. There will also be a license exam fee for both permits.

Your second option is to let your current permit lapse and file a new permit for the entire 120 acres. If you choose this option, however, you will lose the priority date on your current permit.

I have enclosed an application for permit and a proof of beneficial use. You cannot file the proof until you have an approved permit either on the additional 40 or a new permit on the entire 120 acres.

I realize this can be confusing, so if you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 35-08820

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Nina Shields
Secretary/Records Manager

RE: PERMIT NO. P35-08820

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

MICROFILMED

DEC 18 1989

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

RE: Application for Permit No. 35-8820

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

RECEIVED

SEP 25 1989

Department of Water Resources
Eastern District Office

Sept 22, 1989

Department of Water Resources:

Dear Sir,

I am requesting consideration of this well permit for "Feld Farms". As they are running canal water on their field, I am required to allow overflow water from their system. This puts a stream of water through the center of my field for over half a mile. This greatly complicates planting, cultivating, and harvesting crops, as well as soil erosion and weed control. The row crop has to be perpendicular to the ditch, which does not allow crossing.

As the 1990 crop season will have sugar beets in this field, I would greatly appreciate consideration of this well permit so I could eliminate this drain ditch. Thank you very much for your help. If you need any more information, please contact me.

Sincerely yours,
Bill Junk
