PLACE OF USE: COMMERCIAL

TWN RGE SEC

03S 32E 1 Lot 4(NWNW)

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
6. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
7. Commercial use is for a potato cellar humidifier and

IN THE MATTER OF PERMIT NO. 35-08703)
IN THE NAME OF FURNISS BROTHERS FARMS) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before December 1, 1991; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on January 21, 1992;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 35-08703 be REINSTATED with an advance in priority to April 19, 1989.

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

F. FLOW CALCULATIONS

The recommended rate has been increased to the capacity of .02 cfs. The use also includes a restroom and there is no explanation in the exam for reducing the rate to .01 cfs.

NOTE: The volume recommendation has not been increased because the actual season of use for the potato cellar humidifier is usually not a full year. Volume not used by the humidifier would probably satisfy the restroom needs.

FROM Terry Blau

TO Staff

SUBJECT Field exams on potato storage facilities

After talking with 2 suppliers and installers of ventilating and humidifying equipment for potato storage. The following are some rules of thumb which maybe helpful in doing exams.

Max. rate of flow - 1 gal/hr/1000 cwt of spuds (2.4 cubic feet/100 lbs)

Max length of storage 11 months

Volume 1/2 gal/hr/1000 CWT/year

Alt method

36 gal/hr per humidifier (max)

Use would be less than 25% of max during winter months

Vol. use 36 gal/hr x 12hrs/day/ 365 days or #days of use

LAPSE NOTICE

RE: PERMIT NO. 35-08703

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated September 30, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 35-08703

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Nina Shields
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P35-08703

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

RE: Application for Permit Nos. 35-8702/8703

Dear Applicant(s):

NOTICE OF PENDING ORDER VOIDING APPLICATION FOR PERMIT

On February 27, 1989 the Department of Water Resources received an application to appropriate water, numbered 35-8702/8703 for commercial purposes within Bingham County.

On June 13, 1989 the Department requested that you supply a listing of all names and addresses of officials within your organization. Pursuant to Section 42-204, Idaho Code, failure to respond to this notification is cause for the department to void the application. As of this date, the department has not received the requested information.

The purpose of this letter is to request that you withdraw your application or explain why the Department should not void the application. Enclosed is a withdrawal form that should be signed and returned to this office, unless you have some explanation that would prevent the Department from voiding your application.

If you fail to respond to this notice within thirty (30) days of the date of mailing of this letter, the Department will act to void your application. The application will be voided for failure of the applicant to supply requested information within 30 days.

If you have any questions in regard to this matter, please feel free to contact our office.

Gentlemen:

We have received your applications for permit, for commercial purposes, from our Eastern Regional Office for final review. However, prior to final action being taken on the applications we need to have a list of the names and addresses of all partners entitled to take action on these water rights. This is a requirement of the Department's Water Appropriation Rules and Regulations.

Please submit this information within the next thirty (30) days so we can continue processing your applications.

Sincerely,

Kay Walker

Application for Permit No. 35-8702 & 35-8703

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. The application has been assigned identification No. 35-8702 & 35-8703. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,
