Water Right License

Amended

Amended

WATER RIGHT NO. 35-08650

Priority: May 22, 1987

Maximum Diversion Volume: 0.5 AF

It is hereby certified that US DEPT OF INTERIOR
BUREAU OF LAND MANAGEMENT
1405 HOLLIPARK DR
IDAHO FALLS ID 83401 has complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated May 22, 1987; and has
submitted Proof of Beneficial Use on February 28, 1989. An examination indicates that the works have
a diversion capacity of 0.5 af of water from:

SOURCE

UNNAMED STREAM

Tributary: SINKS

and a water right has been established as follows:

BENEFICIAL USE

STOCKWATER STORAGE

PERIOD OF USE

4/21 to 6/30

**ANNUAL
DIVERSION VOLUME**
0.5 AF

LOCATION OF POINT(S) OF DIVERSION:

UNNAMED STREAM SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 14, Twp 01S, Rge 28E, B.M. BUTTE County

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF A PETITION TO)
CORRECT WATER RIGHT LICENSE)
NO. 35-8650)
_____)

**PRELIMINARY ORDER
CORRECTING LICENSE**

This matter having come before the Department of Water Resources (Department) as a result of the filing of a petition to correct a water right license, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On August 10, 1987, the Department issued Permit 35-8650 (permit) to the U. S. Dept. of Interior, Bureau of Land Management (right holder), for the diversion of 0.5 acre-feet per year from an unnamed stream to store water for stock watering purposes within the NW¼SW¼SW¼ of Section 13, Township 1 South, Range 28 East, B. M., Butte County.
2. On February 28, 1989, the Department received the right holder's proof of beneficial use statement for the permit.
3. On March 25, 1993, the right holder claimed the permit in the Snake River Basin Adjudication (SRBA).
4. On September 26, 1995, a Department field examiner conducted an inspection to verify the beneficial use established in accordance with the permit. The field examiner reported that the stockwater storage use was established in the NW¼SW¼SW¼ of Section 13, Township 1 South, Range 28 East, B. M.
5. On February 14, 1996, the Department issued Water Right License 35-8650 (license) to the right holder with the point of diversion and place of use described as the SW¼SW¼ of Section 13, Township 1 South, Range 28 East, B. M., as had been permitted and reported by the Department field examiner.
6. On May 29, 1997, the Department submitted a Director's Report to the SRBA court recommending that the point of diversion and place of use for Water Right 35-8650 be decreed as licensed.

MICROFILMED

JUL 15 2004

7. On September 29, 1997, the right holder submitted an objection to the Director's Report for Water Right 35-8650 to the SRBA court. The objection alleged that the legal descriptions reported in the Director's Report as the point of diversion and place of use for the claim were not accurate.
8. On March 11, 1998, the SRBA court held a hearing concerning the objection filed by the right holder against the Department's recommendation for Water Right 35-8650. The right holder reported that Global Positioning System data its staff had collected during their investigation of the objection indicated the location of the point of diversion and place of use were incorrectly described on the license and subsequent recommendation.
9. The Department has received the right holder's Global Positioning System data showing that the point of diversion and place of use for water right 35-8650 are in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 14, Township 1 South, Range 28 East, B. M.
10. On July 18, 2001, the right holder submitted a petition asking the Department to correct the license by changing the point of diversion and place of use descriptions.
11. On June 15, 2004, the Department received the right holder's application for amendment to change the permitted point of diversion and place of use to the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 14, Township 1 South, Range 28 East, B. M.

CONCLUSIONS OF LAW

1. Section 42-219, *Idaho Code*, directs the Department to issue a water right license that accurately portrays the location and extent of the beneficial use of water developed in accordance with the permit.
2. The information used to issue Water Right License 35-8650 with the point of diversion and place of use described as the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, Township 1 South, Range 28 East, B.M., was not accurate.
3. The point of diversion and place of use for Water Right 35-8650 should be described as SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 14, Township 1 South, Range 28 East, B.M.
4. The Department should approve the application to amend Permit 35-8650.
5. The Department should revise the point of diversion and place of use descriptions on the license.

ORDER

IT IS HEREBY ORDERED that the application to amend Permit 35-8650 submitted to the Department on June 15, 2004, is approved.

IT IS FURTHER HEREBY ORDERED that the place of use description for Water Right License 35-8650 is **CORRECTED** as set forth in the Amended Water Right License issued on this date in connection with this order.

Dated this 8th day of July, 2004.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 35-8650, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before September 1, 1989.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 10th day of August, 1987.

RE: Water Right License 35-8650

Dear Water Right Holder:

The Department of Water Resources (IDWR) has issued the enclosed order amending Water Right License 35-8650. The order is a **preliminary order** issued by IDWR pursuant to §67-5243, *Idaho Code*. The amended water right license issued in connection with the order supersedes the license issued on February 14, 1996. **The preliminary order can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described in the enclosed information sheet.**

A copy of your application to amend Permit 35-8650, which was approved, is also enclosed.

If you have questions, please contact me at (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

From: Roxanne Brown *RB*

Re: BLM request to amend licenses 35-08650

The USDI Bureau of Land Management is involved in an ongoing effort to locate their project sites based on GPS data. As a result, they have identified several licensed rights they believe should be amended based on this new information. Each of these rights is currently a subcase in the Snake River Basin Adjudication and the desire is to amend these licenses, if possible, before partial decrees are issued.

Adjudication staff have received, processed, and analyzed the BLM's GPS data for the above-captioned right. Attached to this memo you will find: (1) a formal request for license amendment, signed by Fred Price, (2) a brief analysis of the data compiled by me, and (3) a GIS layout created using our ArcView software and the GPS data supplied by the BLM. I am also forwarding the actual data, contained on a diskette titled "GPS DATA, 35-08650 Burn Pit".

The following dates may be helpful:

Date of the *Director's Report* containing recommendation for this right: May 29, 1997

Date the BLM filed its objection: September 29, 1997

Date of Initial Hearing: March 11, 1998

Please let me know the outcome of the BLM's request so that I may prepare the final documents in the SRBA proceedings for this right.

RE: 35-08650, Request for License Amendment Based on GPS Data

Dear Ms. McHugh:

We have had several meetings with your office to determine how best to pursue license amendments without overburdening the Idaho Department of Water Resources (IDWR) with transfers to just more accurately describe locations of water developments. Based upon IDWR's recommendation, I am requesting that IDWR amend BLM's license to correct land descriptions based upon better technological methods used to locate this water right than the acceptable, standard methods used to establish the right. Global Positioning System (GPS) is a more accurate and reliable method of determining location than previous methods relying on navigation by use of topographic maps and compasses. BLM is not seeking to transfer (or move) the location of the development, but is simply seeking to more accurately describe the original constructed location.

If there are questions regarding any statements above, please do not hesitate to contact me at 373-3831 or at the address provided above.

Sincerely,

Fredric W. Price
Water Rights Specialist

REDISCOVER YOUR PUBLIC LANDS

JUL 15 2004

Water Right No.: 35-08650
BLM Project Name: Burn Pit Reservoir

Point of Diversion:

	Township	Range	Section	Lot	10-acre tract	Quarter	Quarter
As licensed	01S	28E	13			SW	SW
BLM Request	01S	28E	14		NE	SE	SE
BLM GPS							

Place of Use:

	Township	Range	Section	Lot	10-acre tract	Quarter	Quarter
As licensed	01S	28E	13			SW	SW
BLM Request	01S	28E	14			SE	SE
BLM GPS							

Data Review and Investigation:

A memo in the license file indicates the point of diversion and place of use for this water right were verified by Deena Teal of the USDI, Bureau of Land Management. A map in the file indicates the location of the reservoir corresponds with a small water feature shown on the USGS topographic map in the **SWSW, S13, T01S, R28E**.

IDWR received GPS data for this project from BLM on August 29, 2000. The data was collected on July 7, 2000 and is displayed on the attached GIS Presentation.

It appears both BLM and IDWR assumed the small water feature shown on the topo must be the reservoir to be covered by this license. In fact, the reservoir in question is unrelated to the water feature on the map and is actually located in the **SESE, S14, T01S, R28E**. This is consistent with BLM's request for license amendment.

=====

I talked today with Paul Meyer regarding several BLM stockwater field exams he did in September 1995 and sent to the state office in January 1996. These exams contained a short narrative of the system but no notes on the nature and date of the records used to verify beneficial use as required in Permit Processing Memo No. 8 dated 11/7/95.

Paul stated that he did not personally witness the diversion or any "as built" of the systems. Paul had contacted Deena Teal, an ecologist with BLM, and gave her a listing of the permits. Ms. Teal field verified each site for Paul and the SRBA claims.

Gentlemen:

Enclosed are copies of your approved Applications for Permit. We direct your attention to the conditions of approval on the fourth pages.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permits were issued, and you must proceed diligently until the projects are completed. The enclosed blue cards must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permits were approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop these permits into licenses.

Sincerely,

GARY SPACKMAN
Supervisor, Water Allocation Section

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right applications for permit. The applications have been assigned identification no. 34-7496, 35-8643, 35-8644, 35-8645, 35-8646, 35-8647, 35-8648, 35-8649, 35-8650, 35-8651, 35-8652. Please refer to these numbers in all further correspondence.

This office is currently in the process of advertising the applications in the Arco Advertiser and the Wood River Journal. The advertisements will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the applications are protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, they will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen
Assistant Regional Manager
