WATER RIGHT LICENSE

WATER RIGHT NO. 35-08625

Priority: January 13, 1986

Maximum Diversion Rate:

0.06 CFS

Maximum Diversion Volume:

1.2 AF

This is to certify, that STATE OF IDAHO

DEPT OF TRANSPORTATION

DIVISION OF HIGHWAYS

PO BOX 7129

BOISE ID 83720-7129

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 13, 1986; and has submitted Proof of Beneficial Use on February 27, 1991. An examination indicates that the works have a diversion capacity of 0.290 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.06 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

SENEW, Sec. 29, Township 01S, Range 36E

NESW, Sec. 29, Township 01S, Range 36E

BINGHAM County

PLACE OF USE: DOMESTIC

TWN RGE SEC

01S 36E 29

SENEW

NESW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 2 rest areas.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 14TH day of JUNE, 1991.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 35-8625, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or be-

fore April 1, 19 91.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 2nd day of April, 1986.

USE ADDITIONAL SHEETS IF NECESSARY — FORWARD THE WHITE COPY TO THE DEPARTMENT

DRILLING PERMIT REQUIREMENTS

7,1. General Provisions

- 7,1,1. The owner of a well to be constructed, drilled, deepened or enlarged on or after July 1, 1987 shall obtain a drilling permit from the Director prior to construction or drilling of the well.
- 7,1,2. The owner of a well under construction prior to July 1, 1987, for which the drilling equipment is at the site and construction is ongoing, shall not be required to obtain a drilling permit, provided that construction of the well was complete by August 1, 1987. The Director may extend the date for good cause.
- 7,1,3. The Director may issue a drilling permit to the owner of a proposed well, to the driller employed to construct the well, or to the owner's representative.
- 7,1,4. Drilling permits will not be issued for construction of a well which requires another separate approval from the department, such as a water right permit, transfer, amendment or injection well permit, until the other separate approval has been given by the department. The Director may grant a waiver if he determines that the public interest will be served by an expedited approval.
- 7,1,5. The Director may give verbal approval to a well driller for the construction of certain wells such as single family domestic wells and stockwater wells which do not require other separate approvals from the department, provided the driller files the drilling permit and appropriate fee with the Director within thirty (30) days of the verbal approval.
- 7,1,6. The Director may give verbal approval to a well driller for the construction of a well for which other permitting requirements have been met, provided the driller files the drilling permit and appropriate fee with the Director within thirty (30) days of the verbal approval.
- 7,1,7. The Director will not give a verbal approval for well construction or drilling in a designated area of drilling concern.
- 7,1,8. Failure of the driller to submit a completed drilling permit and fee within the thirty (30) day period after receiving verbal approval to construct a well is cause for the Director to seek the penalties provided by statute and by these rules and regulations.
- 7,1,9. After the effective date of these rules, a well driller shall not construct, drill or modify any well until a drilling permit has been issued or verbal approval is given.

7,2. Effect of a permit

- 7,2,1. A drilling permit authorizes the construction, drilling or modification of a well in compliance with the conditions of approval on the permit.

MICROFILMED

FEB 08 1989

7,2,2.

A drilling permit does not constitute a water right permit, injection well permit or other authorization which may be required from the department prior to actual well construction and does not authorize use of water from the well or discharge of fluids into the well.

7,2,3.

A drilling permit may not be assigned from one owner to another.

7,2,4.

A drilling permit authorizes the construction of one (1) well (except group monitoring well drilling permits) unless other holes started under terms of the permit are properly abandoned and the department is advised of the abandonment.

7,3.

Exclusions

7,3,1.

Geotechnical borings for the purpose of mineral exploration or for the design of foundations for structures or for the design of dams and embankments are not subject to the drilling permit requirement but shall be constructed and abandoned in accordance with minimum well construction standards.

7,3,1,1.

The Director may require abandonment of wells constructed pursuant to Rule 7,3,1. if the wells are determined to cause waste or contamination of the ground water.

7,3,1,2.

Wells constructed pursuant to Rule 7,3,1. shall be abandoned in compliance with adopted rules and regulations when use of the wells cease.

7,4.

Fees

7,4,1.

A drilling permit fee is not required for a well constructed and completed prior to July 1, 1987, provided the well is not deepened or the dimensions of the well are not increased on or after July 1, 1987.

7,4,2.

The drilling permit fee for construction of a well for a single family domestic use, stockwater use, class V(c) heat pump injection associated with a single family domestic use or monitoring use or for any use with a rate of diversion of 0.04 cubic feet per second or less and for the storage of 4 acre-feet per year or less shall be ten (10) dollars. (See the rules and regulations for Construction and Use of Injection Wells for the description of class V(c) injection wells).

7,4,3.

The Director may issue a blanket drilling permit for site specific monitoring programs prepared by a licensed engineer or licensed geologist as provided in Section 42-235, Idaho Code, upon submittal of a fifty (50) dollar fee.

7,4,4.

The drilling permit fee for well uses which are not included in Rule 7,4,2. and Rule 7,4,3. shall be one hundred (100) dollars.

7,4,4,1.

The difference between the drilling permit fee required by Rule 7,4,2., Rule 7,4,3. and Rule 7,4,4., as applicable, shall be paid when an existing well constructed on or after July 1, 1987, for which the lower drilling permit fee was paid, is authorized by the Department for a use which would require the larger drilling permit fee. This rule applies even though the existing well is not deepened or the dimensions of the well are not increased.

7,4,4,2.

A drilling permit fee will not be required for a new or additional use from an existing well constructed on or after July 1, 1987, when the drilling permit fee for the new or additional use is the same amount which was previously paid for construction of the well in connection with the existing use.

PROOF DUE NOTICE

RE: PERMIT NO. 35-08625

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

8. This well is approved for domestic use. Total use shall not exceed 0.04 cfs.

Dated this 15 day of December, 1988.

RE: Wells drilled for 35-8625

Dear Sir or Madam:

Department of Water Resources

Jack Cushman Drilling has submitted two well driller reports for wells drilled for you in September 1987. I am unable to find the required drilling permits for these wells.

Section 42-235 of Idaho Code requires that a drilling permit and fee be submitted to the Department for all wells drilled after July 1, 1987. The fee for the drilling permit is \$10 if the use is 0.04 cfs (18 gpm) or less. The fee is \$100 if the use is more than 0.04 cfs. Based upon water right permit 35-8625, it appears you will be using .04 cfs or less from each well.

Enclosed are partially completed drilling permit forms. The personnel in our Idaho Falls Office can assist you if necessary. Please take action to submit the required applications and fees (\$10 or \$100 per well) within 30 days.

Your water right permit 35-8625 shows only one point of diversion (one well). Since you are using two wells, the water right permit must be amended before the permit becomes a license.

If you have any questions or comments, please contact me.

Sincerely,

John E. Beal

RE: Wells drilled for 35-8625

Dear Sir or Madam:

Jack Cushman Drilling has submitted two well driller reports for wells drilled for you in September 1987. I am unable to find the required drilling permits for these wells.

Section 42-235 of Idaho Code requires that a drilling permit and fee be submitted to the Department for all wells drilled after July 1, 1987. The fee for the drilling permit is \$10 if the use is 0.04 cfs (18 gpm) or less. The fee is \$100 if the use is more than 0.04 cfs. Based upon water right permit 35-8625, it appears you will be using .04 cfs or less from each well.

Enclosed are partially completed drilling permit forms. The personnel in our Idaho Falls Office can assist you if necessary. Please take action to submit the required applications and fees (\$10 or \$100 per well) within 30 days.

Your water right permit 35-8625 shows only one point of diversion (one well). Since you are using two wells, the water right permit must be amended before the permit becomes a license.

If you have any questions or comments, please contact me.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 35-8625

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

YOU SHOULD BE AWARE THAT THE GROUNDWATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUNDWATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL OF INTERFERENCE.

PLEASE NOTE THE REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

SINCERELY,

DAVID R. TUTHILL, JR., P.E.
SUPERVISOR, WATER ALLOCATION SECTION

Re: Application for permit No. 35-8625

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification no. 35-8625. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in The Blackfoot News. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt no. 40007 for the amount of \$30.00.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen
Assistant Regional Supervisor

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before FEBRUARY 24, 1986.

Yours truly,

RONALD D. CARLSON
Supervisor
Eastern Region

RE: IR-15-2(22)96
North Blackfoot Rest Areas

Dear Mr. Merritt:

Attached is a permit application and fee for permission to drill a well in the lava beds area north of Blackfoot. We are planning two rest areas, one Southbound and one Northbound, at approximate mile post 101.3.

The proposed rest areas are on opposite sides of the Interstate Highway and one well is planned to serve both sites. A usable water supply needs to be proven so that further development can be accomplished.

Would you please pursue whatever is required to approve this permit application. If further information is needed please let us know.

Sincerely,

A handwritten signature in dark ink, appearing to read "Monte J. Fiala".
