WATER RIGHT LICENSE

WATER RIGHT NO. 35-08622

Priority: December 6, 1990

Maximum Diversion Rate: 2.69 CFS
Maximum Diversion Volume: 732.0 AF

This is to certify, that ENID R WILLIAMS LTD PARTNERSHIP

2ND S 900 W

BLACKFOOT ID 83221

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 28, 1985; and has submitted Proof of Beneficial Use on December 6, 1990. An examination indicates that the works have a diversion capacity of 2.690 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	2.69 CFS	732.0 AF

LOCATION OF POINT(S) OF DIVERSION:

NWNW , Sec. 14, Township 02S, Range 33E
BINGHAM County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
02S	33E	11	SWSW 24	SESW 23		47
		14	NENW 35	NWNW 37	SWNW 34	136
			SENW 30			

Total number of acres irrigated: 183

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
	)	
NO. 35-8622 IN THE NAME OF	)	ORDER OF REINSTATEMENT
	)	
ENID R. WILLIAMS	)	
LTD. PARTNERSHIP	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On August 14, 1989 the Director of the Department of Water Resources issued Permit No. 35-8622 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before September 1, 1990.
2. On June 30, 1990 the Department sent a proof due notice to the permit holders.
3. On September 24, 1990 the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holders.
4. On December 6, 1990 Proof of Beneficial Use was received by the Department from the permit holders.
5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date

MICROFILMED

MAR 64 1991

advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holders have submitted evidence to confirm that water has been put to beneficial use prior to the proof due date. Evidence includes copies of aerial photos and annual crop reports from the ASCS for the irrigation seasons 1988 through 1990. Both the photos and reports provide evidence of irrigation of the lands described under the permit during each of the three years. Other evidence includes irrigation power service records from Idaho Power Company for the 1988 through 1990 seasons.

7. The permit holders have stated that proof was submitted late because the permit holders were confused about which member of its group had filed proof and therefore the requirement was overlooked.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

RECEIVED

MAR 11 1991

ORDER

IT IS HEREBY ORDERED that Permit No. 35-8622 is
reinstated.

IT IS FURTHER ORDERED that the date of priority of this
permit is advanced to December 6, 1990.

Dated this 25th day of February, 1991.

L. GLEN SAXTON
Chief, Water Allocation Bureau

E. NARRATIVE/REMARKS/COMMENTS

100 Hp pump to 10" underground main line
to three 45 bird Handlines and three
32 bird Handlines all with (1/4")

Have conditions of permit approval been met? ☒ yes ☐ no

RECEIVED
FEB 13 1995

F. FLOW CALCULATIONS

Measured Method:

Theory

$$Q = (5.18 \text{ gpm} \times 135 \text{ b.i.d.s}) + (5.18 \times 96 \text{ b.i.d.s}) = 1197 \text{ gpm}$$

$$Q = \text{By Some Mfr. } 1210 \text{ gpm or } 2.69 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{ir} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 183 \text{ acrs} \times 4 \text{ cfs} = 732 \text{ cfs}$$

$$V_{dr} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 2.69 \text{ cfs} \times 214 \text{ d} \times 1.9835 = 1141.8 \text{ af}$$

$$V = \text{Smaller of } V_{ir} \text{ and } V_{dr} = 732 \text{ cfs}$$

2. Volume Calculations for Other Uses:

RE: Permit No. 35-8622

Enid R. Williams Ltd. Partnership
2nd S. 900 W.
Blackfoot, ID 83221

Dear Permit Holder(s):

We acknowledge receipt of the statement of beneficial use and the supporting documentation for reinstating the above referenced permit.

Before a license can be issued, a field examination will be made by a representative of this Department. Enclosed is an Order of Reinstatement. Please note that the priority date has been advanced to December 6, 1990.

If you have any questions regarding this matter, please contact this office or our Eastern Regional Office at 525-7161.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

JJ:blm

Department of Water Resources

To Whom it may Concern.

Please find enclosed the evidence
of beneficial use of water. Permit # 8622.

I was dependent on my son, LeGrand
to help me with this and thought it
was done until I received the lapse
notice. Thank you,

Sincerely

Mrs. Enid R. Williams

RE: Permit No. ~~35-8662~~ 35-3622

Dear Permit Holder:

The Department received your proof of beneficial use statement for the above referenced permit on December 6, 1990. The permit lapsed September 1, 1990 so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

- a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.
- b) Reasonable cause why the proof of beneficial use was filed late.

Your proof of beneficial use statement along with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

Please feel free to contact this office if you have additional questions.

Sincerely,

TIM LUKE
Sr. Water Resource Spec.

LAPSE NOTICE

RE: PERMIT NO. 35-08622

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated June 30, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 35-08622

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Gentlemen:

Re: Permit No. 35-8622

Returned to you is your copy of the cover letter, permit, information about measuring devices, the proof of beneficial use form and instruction sheet.

Note the instruction sheet. As part of the proof submittal, an examination fee or a field examination report conducted by a certified water right examiner is required for a complete proof submittal. For the diversion rate of 3.66, the fee is \$175. Note that proof is not due until September 1, 1990.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P35-08622

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

AUG 18 1989

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Application for Permit No. 35-8622

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

MEMORANDUM

TO: H.W. JONES

FROM: TIM LUKE

RE: TRUST WATER APPS. 31-7444, 35-8606, 35-8618 & 35-8622

DATE: 5-3-89

=====

The four applications enclosed were originally pulled from your office for my further review here in Boise. I was not sure what to do with these when I originally reviewed files in your office because they were filed on or after 7/1/85 and referenced pre-October, 1984 development.

* One of the four apps., 35-8622, was actually filed on 6/28/85 with reference to development existing prior to 10/1/84. This app. is thus completely exempt from any processing under 42-203C and can be advertised. This is similar to the way we have treated other applications from your office in the same category. Please make sure though that there is specific language in the advertisement about pre 10/1/84 development and existing hydropower rights (see memo from Glen Saxton dated 1/3/89).

I will address the three remaining apps. individually:

35-8618 Priority=7/26/85

This a supplemental filing with no expansion acres. All of the land under this app. is covered by an existing license. This app. can therefore be processed out of sequence but is not entirely exempt from Swan Falls processing due to its post 7/1/85 filing date. In terms of advertising, we need specific language stating that this is a supplemental filing. We should also state that the application alleges that the supplemental water was put to beneficial use prior to 10/1/84. Protests against the filing may be based on the criteria of both 42-203A and 42-203C. When the app. comes to the state office for approval, we will condition it the same as all other trust water applications or reauthorized trust water permits.

MICROFILMED

AUG 18 1989

└──────────┐

35-8606 and 31-7444 Both with Priority of 7/1/85.

Both of these apps. may be processed out of sequence if the applicants can provide additional evidence, other than the statements in the file, that the lands were irrigated prior to 10/1/84. I realize that this may sound a bit harsh or picky. In my opinion though, a deadline is a deadline. These folks did not comply with the deadline and the filing therefore should be treated like any other filing made after 7/1/85. I believe that these people were also given ample notice about the filing requirements.

If they submit acceptable evidence, we should proceed as follows:

App. No. 35-8606

This app. includes an affidavit (signed 6/30/85) stating that the project was completed prior to 10/1/84. Due to its priority date however it is subject to all criteria of Section 42-203C except that the acres under the app. are not counted toward the 20,000 acre/yr. limitation. The app. therefore should be advertised with specific language stating that the applicant alleges that the lands were irrigated prior to 10/1/84. Since the application represents a project greater than 200 acres, the Department is required to request that the applicant submit the information specified under Water Appropriation Rules 4,5,3. and 4,5,3,6. We should request this information prior to any advertising. Again, when the app. comes to the state office for review, we will condition the new permit similar to any other legitimate trust water filing.

App No. 31-7444

This is the same situation above except that the project is under 200 acres and thus is exempt from the additional information requirements of Rules 4,5,3. and 4,5,3,6.

November 11, 1985

Mr. Keith C. Wilson
Senior Resource Agent
Idaho Department of Water Resources
Eastern Region Office
150 Shoup Avenue, Suite 15
Idaho Falls, Idaho 83402

Dear Keith:

As I indicated in our recent telephone contact, we need copies of the documents filed last summer by our office for the Williams family, now that the identification numbers and filing information has been put on them. We filed ten applications for permit, four claims, and five applications for transfer on the same day and only one receipt was made for the entire filing fee.

I see that we put the address for the applicant on each filing, rather than our firm's address. We should have at least requested that all contacts and correspondence be directly with the firm rather than with the clients since they are expecting us to handle these matters to completion. So far, you, Harold Jones and Jerry Ramsey have been kind enough to contact us with most questions. Perhaps as you locate each file, you could insert a note so that any future contacts will be with us. Hopefully we can avoid substantial confusion.

For each of the filings, we have included the name of the applicant or claimant, the amount of water, and the point of diversion. Hopefully this will be adequate for you to locate each file. Since there is already a number on the applications for transfer, we will get that as well. Because of your recent contact on No. 35-2097, we will not need another copy, and we have omitted it from this list. The information for each is as follows:

35-8622
