

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. **35-7100** Priority **September 12, 1969** Amount **3.16 cfs**

THIS IS TO CERTIFY, that **LENARD SCHRITTER**
of **Aberdeen, Idaho**, has complied with the terms and conditions of Permit
No. **35-7100** issued pursuant to Application for Permit dated **September 12, 1969**
and has submitted proof to the Department of Water Resources on **August 30, 1974**
that he has applied water to a beneficial use. An examination by the Department indicates that the works have a
capacity for the diversion of **4.34 cfs** of water from **a groundwater source**
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use		Rate of Diversion		Annual Volume
Irrigation	from April 1	to Nov. 1	at 3.16	cfs and	1106 acre feet
	from _____	to _____	at _____	cfs and	_____
	from _____	to _____	at _____	cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than **3.16 cfs** of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1106 acre feet per year, said water to be diverted within the **SW 1/4, Sec. 10,**
Twp. 6S, Rge. 30E, B.M., in the County of **Bingham**

Description and location of place of use:

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Total
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4

WATER RIGHT LICENSE

WATER RIGHT NO. 35-08618

Priority: July 10, 1985

Maximum Diversion Rate:

2.48 CFS

This is to certify, that LENARD SCHRITTER
2948 W 2100 S

ABERDEEN ID 83210

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 28, 1985; and has submitted Proof of Beneficial Use on August 13, 1991. An examination indicates that the works have a diversion capacity of 5.600 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
-----------------------	----------------------	--------------------------	----------------------

IRRIGATION	04/01 to 10/31	2.48 CFS	
------------	----------------	----------	--

LOCATION OF POINT(S) OF DIVERSION:

SWNE , Sec. 10, Township 06S, Range 30E
BINGHAM County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

			SENE 39	NESE 39	NWSE 40	
			SWSE 39	SESE 38		312

Total number of acres irrigated: 312

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The total combined rate of diversion under this right and Right 35-07100 shall not exceed 5.6 cfs nor a combined volume of 1248 af.
5. Right 35-07100 is also diverted through the point of diversion described above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 23RD day of APRIL, 1994.

Acting for R. Keith Higginson, Director

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 35-08618 IN THE)
NAME OF LENARD SCHRITTER) ORDER OF REINSTATEMENT
_____)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before August 1, 1991; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on August 13, 1991;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 35-08618 be REINSTATED and the priority advanced to July 10, 1985.

Date of this 1st day of November, 1991.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No 35-8618, and said application is hereby APPROVED
 1 Approval of said application is subject to the following limitations and conditions

a SUBJECT TO ALL PRIOR WATER RIGHTS

b Proof of construction of works and application of water to beneficial use shall be submitted on or before

August 1, 19 91

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land

d The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code. Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete. Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 30th day of July, 1989.

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Pressure gage	Fluid	Ashcroft			100psi	
Flow meter	Sonic	Poly				

2. Measurements:

operating pressure 70 psi
 dynamic pumping depth 170' (according to HCE)
 sonic meter reading 2515 gpm (5.60 cfs)

JUN 10 1994

E. NARRATIVE/REMARKS/COMMENTS

300 Hp pump to 10" underground mainline
supplying water to 12 1/4 mile wheelines
with 24 birds (6 ppm)

1/ License 35-07100 has 3.16 cfs / 316 acres or 0.01 cfs / acre

2/ Capacity found to be 5.60 cfs

3/ 312 acres found under 35-08618 due to roads on borders

4/ 312 acres @ 0.01 cfs from 35-07100 yields 3.12 cfs;

Capacity $5.60 \text{ cfs} - 3.12 \text{ cfs} = 2.48 \text{ cfs}$

* Recommend 2.48 cfs for licensing

Conditions;

When used with 35-07100 volume

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 35-08618

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Nina Shields
Secretary/Records Manager

LAPSE NOTICE

RE: PERMIT NO. 35-08618

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated May 31, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

ABERDEEN, ID 83210

PROOF DUE NOTICE

RE: PERMIT NO. 35-08618

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 35-08618

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

INDEXED

AUG 18 1989

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

MEMORANDUM

TO: FILE 35-8618

FROM: KAY WALKER

RE: PRIORITY DATE OF THIS WATER RIGHT

DATE: 19-JUL-1989

=====

Per my reivev of this application for final action, I found that the application should have a priority date of June 28, 1985. On that date our Eastern Regional Office received the application and a check for \$105.00. For some reason the application was then sent to Southern Region arriving July 1, 1985 (see date stamp on original filing). The next bit of information in this file is a letter to Mr. Schritter on July 18, 1985, which returns the application and check because the application specified that the groundwater was tributary to the Snake River.

We do not normally return an application because the applicant put a tributary on a groundwater source. Our normal procedure would be to line through the tributary and process the filing. In reviewing the original filing and the one that was typed for Mr. Schritter's signature, the only change made was that on the tributary. In light of this, and finding that the Dept. was in error in returning the application, I recommend that we approve this application with a priority date of June 28, 1985.

RE: Application for Permit No. 35-8618

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

FROM: TIM LUKE

RE: TRUST WATER APPS. 31-7444, 35-8606, 35-8618 & 35-8622

DATE: 5-3-89

=====

The four applications enclosed were originally pulled from your office for my further review here in Boise. I was not sure what to do with these when I originally reviewed files in your office because they were filed on or after 7/1/85 and referenced pre-October, 1984 development.

One of the four apps., 35-8622, was actually filed on 6/28/85 with reference to development existing prior to 10/1/84. This app. is thus completely exempt from any processing under 42-203C and can be advertised. This is similar to the way we have treated other applications from your office in the same category. Please make sure though that there is specific language in the advertisement about pre 10/1/84 development and existing hydropower rights (see memo from Glen Saxton dated 1/3/89).

I will address the three remaining apps. individually:

35-8618 Priority=7/26/85

This a supplemental filing with no expansion acres. All of the land under this app. is covered by an existing license. This app. can therefore be processed out of sequence but is not entirely exempt from Swan Falls processing due to its post 7/1/85 filing date. In terms of advertising, we need specific language stating that this is a supplemental filing. We should also state that the application alleges that the supplemental water was put to beneficial use prior to 10/1/84. Protests against the filing may be based on the criteria of both 42-203A and 42-203C. When the app. comes to the state office for approval, we will condition it the same as all other trust water applications or reauthorized trust water permits.

FILED

1989

35-8606 and 31-7444 Both with Priority of 7/1/85.

Both of these apps. may be processed out of sequence if the applicants can provide additional evidence, other than the statements in the file, that the lands were irrigated prior to 10/1/84. I realize that this may sound a bit harsh or picky. In my opinion though, a deadline is a deadline. These folks did not comply with the deadline and the filing therefore should be treated like any other filing made after 7/1/85. I believe that these people were also given ample notice about the filing requirements.

If they submit acceptable evidence, we should proceed as follows:

App. No. 35-8606

This app. includes an affidavit (signed 6/30/85) stating that the project was completed prior to 10/1/84. Due to its priority date however it is subject to all criteria of Section 42-203C except that the acres under the app. are not counted toward the 20,000 acre/yr. limitation. The app. therefore should be advertised with specific language stating that the applicant alleges that the lands were irrigated prior to 10/1/84. Since the application represents a project greater than 200 acres, the Department is required to request that the applicant submit the information specified under Water Appropriation Rules 4,5,3. and 4,5,3,6. We should request this information prior to any advertising. Again, when the app. comes to the state office for review, we will condition the new permit similar to any other legitimate trust water filing.

App No. 31-7444

This is the same situation above except that the project is under 200 acres and thus is exempt from the additional information requirements of Rules 4,5,3. and 4,5,3,6.

Re: Application for Permit No. 35-8062, 35-8063, 35-8064,
35-8065, & 35-8066

Dear Ernie:

Enclosed is a Beneficial Use Survey Form for Permit No.
35-8618 for Lenard Schritter, which was in my file.

Since the Department is aware of the use of this water on
his land through prior filings, I am uncertain as to what
additional information you will require.

I am also advised that you have conferred with Lenard with
regards to the permits referenced above and that all of the
required proofs have been submitted. I believe this matter
was reviewed by Keith C. Wilson on January 6, 1986.

If this information is in error, please let me know.

Very truly yours,

Ben Cavaness

Check the box to the left of the paragraph which accurately describes the status of the project described by the application and then sign on the line at the bottom of the page.

- A. ☐ Prior to October 1, 1984, the source of water listed on application for permit No. _____ was not being diverted and put to beneficial use as represented by the application.

SUPPLEMENTAL WATER SINCE 1972

- B. ☒ Prior to October 1, 1984, the source of water listed on application for permit No. 35-8619 was being diverted and put to beneficial use as represented by the application.

If paragraph "B" was selected return the form with documentation confirming beneficial use occurred prior to October 1, 1984. This documentation should include a sworn statement from you as applicant, plus other evidence that will substantiate beneficial use.

Additional information is not required for paragraph "A"

RE: Application for Permit No. 35-8618

Lenard Schritter
2948 West 2100 South
Aberdeen, Idaho 83210

Dear Mr. Schritter:

In October of 1984, Idaho Power Company and the State of Idaho signed an agreement stating the Company's water rights would be subordinated to those persons who beneficially used water prior to October 1, 1984, and who filed an application or claim for said use by June 30, 1985.

To insure proper consideration of your application pursuant to the above agreement, follow the directions on the enclosed form and return it to this office when completed. For your benefit in identifying the point of diversion and place of use, included on the form is a description of the major items contained on the application.

Your cooperation in returning the completed form and supplemental documentation will expedite future administrative action on your application when processing of applications above Swan Falls resumes.

Respectfully submitted,

ERNEST CARLSEN
Assistant Regional Supervisor

Dear Mr. Schritter:

The Department is in receipt of your application for permit submitted on June 28, 1985. Enclosed is a typed copy of the application with one minor change. Part 2 of your original application specified groundwater tributary to Snake River. Groundwater is not normally considered tributary to a surface water source. The typed copy will assist us in processing the application.

Please read over the application and if you feel it is in proper order sign and return it to this office as soon as possible so processing can continue.

If you have any questions please feel free to contact me.

Sincerely,

STEVE McCORMICK
Water Resource Engineer
