WATER RIGHT LICENSE

WATER RIGHT NO. 35-08601

Priority: July 1, 1985

Maximum Diversion Rate: 0.50 CFS

Maximum Diversion Volume: 100.0 AF

This is to certify, that GEORGE H HERSHBERGER
MARY E HERSHBERGER

1342 W HOFF RD

BLACKFOOT ID 83221

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 1, 1985; and has submitted Proof of Beneficial Use on May 10, 1990. An examination indicates that the works have a diversion capacity of .860 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	0.50 CFS	100.0 AF

LOCATION OF POINT(S) OF DIVERSION: SWSE , Sec. 35, Township 02S, Range 33E
BINGHAM County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
02S	33E	35	SESW 7	SWSE 18		25

Total number of acres irrigated: 25

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
6. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
7. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

ASSIGNMENT OF PERMIT

Department of Water Resources

I, Hal R. Peterson, hereby assign to George H. and Mary E. Hershberger
of 1342 W. Hoff Rd. Blackfoot, ID 83221
Address

CHECK ONE

All my right, title, and interest in and to Permit No. 35-7055
to appropriate the public waters of the State of Idaho.

8601

The following described portion of my right, title, and interest in and to Permit
No. _____ to appropriate the public waters of the State of Idaho.

(Describe that portion of the permit being assigned by listing the acreage within
each 40 acre subdivision, the point of diversion and the amount of water in cubic
feet per second for direct diversion, or acre feet for storage)

Made this 16 day of July, 1993.

Hal R. Peterson
Permit Holder

Spouse of Permit Holder

State of Idaho)
County of Bonneville) ss.

On this 16th day of July, 1993, personally
appeared before me the signer(s) of the above instrument, who duly acknowledged to me
that he ~~(she)~~ ~~(they)~~ executed the same.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

Permit No. 35-08601 Telephone No. 523-1679

Name(s) of Permit Holder(s): Jeanne Peterson or Hal Peterson

Post Office Address: 1342 W. Hoff Road - Blackfoot, ID 83221

Source of Water: Groundwater

If ground water, well driller's name: Jack Cushman Date drilled: Spring 1975

Extent of Use:

Domestic <u> </u> (No. of households)	Irrigation <u>25</u> (No. of acres)
Stockwater <u> </u> (No. and type of stock)	Other <u> </u>

Total rate and/or volume for which proof is submitted .50 cfs acre/feet

Show date water was first diverted and beneficially used under this permit: June 30, 1989

One of the following may be a condition of approval of your permit:

Measuring device: Required? Yes X No Installed? Yes No

OR

Flow Measurement Port: Required? Yes X No Installed? Yes No

Fee Enclosed: \$ 100.00 (See License Examination Fee Schedule)

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant Jeanne Peterson or Hal Peterson Phone 684-4621
Post office address Rt. #5, Box 94, Blackfoot, ID 83221
2. Source of water supply groundwater which is a tributary of _____
3. Location of point of diversion is SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 35 Township 2S
Range 33E B.M. Bingham County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 0.50 cfs for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 0.50 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. well and pump

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 8 inches; proposed depth of well is 160 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M. _____

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____

(5) If water is to be used for other purposes describe: _____

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 35-8601, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.

The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

Witness my hand this 30th day of June, 1989.

RE: PERMIT NO. 35-08601

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

AUG 18 1989

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

RE: Application for Permit No. 35-8601

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

RE: PETERSON, Lyle
#14009663

Dear Mr. Jones:

I am writing as a follow up to several conversations with Kay Walker in the Department of Water Resources main office in Boise. Ms. Walker recommended that I write to you requesting you process Application for Permit #35-8601 in the immediate near future. If you would begin processing the application upon receipt of this letter, it would be greatly appreciated. There are two possible transactions dependent upon the application that are important.

A sale of the property that receives water from the well is a possibility. However, the buyer would like to know and be assured that the Application for Permit is being processed in a somewhat timely manner. If the sale transaction does not materialize, our second concern is that a new irrigation pump is needed to satisfy the demands of our current tenant farmer. The new pump requires a three phase line and payment of commercial rates unless we can obtain the subject permit. With the permit, the power company will run the line and reduce the current rate to an agricultural rate.

As a matter of information, the subject parcel of property is held in trust with West One Bank. The previous correspondence and communication in your file from Hal Peterson is on behalf of the trust and Mr. Peterson's family who are the beneficiaries of the Lyle Peterson trust. I am writing on behalf of the Peterson family trust. We would greatly appreciate your immediate attention to this matter. If you need any information or anything else that we can provide, please feel free to call me at 383-7172.

Cordially,

Mel Schulte

RE: #35-8601

Dear Mr. Peterson:

I have reviewed your letter of June 2, 1988 expressing your desire for prompt action on the above referenced application to appropriate water. You and several thousand other applicants and holders of undeveloped permits have been subjected to a very lengthy delay in having your filings processed. The Swan Falls decision issued on November 19, 1982 identified the Snake River Basin as an overappropriated water source and placed in jeopardy not only new filings and proposed development but much of the existing development. At that time no water users could be considered as "not involved in the Swan Falls controversy". The protracted negotiations and legislative process eventually resulted in a contract which grandfathered certain existing users and allowed small domestic, commercial, municipal and industrial development to proceed. It also produced an agreement which provides for controlled development for irrigation and other large consumptive uses. This agreement subordinates Idaho Power hydropower rights to development in place before October 1, 1984, for which an application or claim was filed by July 1, 1985. To the extent application 35-8601 meets these conditions, Idaho Power has thereby agreed not to protest the filing. However, you should note that the agreement while signed in October of 1984 only became fully effective on May 24, 1988 when the Federal Energy Regulatory Commission order recognizing the agreement become effective. Second, while IPCo. has agreed not to protest, the application must be processed in accordance with the provisions of Idaho law and the department's regulations. A policy for commencing processing of the large backlog of applications and undeveloped permits that have accumulated during the long period of the controversy is now being finalized. The department will advise you when your filing can be processed.

Sincerely,

R. KEITH HIGGINSON
Director

RE: PETERSON, Hal & Jeanne
Water Rights Application
File #35-8601

Dear Mr. Higginson:

In May 1985 I made application for a water permit on behalf of my mother, Jeanne Peterson. My mother owns 25 acres of farm ground 10 miles west of Blackfoot which my parents have owned since 1972. In 1976 they had a well drilled and a pump installed so that the land could be irrigated with sprinkler pipe. After my father died in 1984 we decided we would like to sell the property, however, before we could sell it we would need to run an electric line directly to the pump rather than through the residence which is currently the case. In addition, we wanted three phase power rather than the expensive single phase we currently use.

When we contacted the power company to request installation of a line they were more than willing to install the line if we could produce a copy of our water permit.

At this point I met with Ron Carlson here in Idaho Falls and filled out the permit. He assured me that since we filled out the application prior to June 1, 1985, that we would not be involved in the Swan Falls controversy. We complied with their request for affidavits, ariel photos, publication fees, etc... It appears, however, that our application did get tied up in the Swan Falls controversy and our application cannot be approved until the Idaho Falls office gets the "go ahead" from your office.

We are very disappointed in the amount of time that has elapsed since we first made application. It's hard to understand how a small family farm that already pumps water from a previously drilled well could not be considered for approval in a more timely process.

RECEIVED

AUG 18 1989

Idaho Department of Water Resources
Keith Higginson, State Director
June 2, 1988
Page 2

We are very anxious to have the permit so we can sell the farm property with the appropriate power supply and water rights.

We would appreciate it if you would give our request consideration and we appreciate any efforts expended in our behalf.

Sincerely,

A handwritten signature in black ink, appearing to read 'H.R. Peterson', with a large, stylized loop at the end.

RE: Application for Permit 35-8601

Dear Mr. Peterson:

The above captioned application referenced in your letter of June 29, 1987, is being held in our regional office pending a final resolution to the Swan Falls suit. Resolution is dependant upon the Federal Energy Regulatory Commission (FERC) concurring with the Swan Falls Agreement signed October 1, 1984, by the State of Idaho and the Idaho Power Company. Though the State is working diligently to alleviate FERC's concerns, it is unlikely that the issues will be resolved in the next few months.

Meanwhile, your application will be held in this office. If you have additional questions concerning the application, feel free to contact us.

Respectfully submitted,

Ernest Carlsen
Water Resource Supervisor
