WATER RIGHT LICENSE

WATER RIGHT NO. 35-08593

Priority: June 14, 1985

Maximum Diversion Rate:

2.21 CFS

This is to certify, that DONALD DEMPSTER

1184 S 2700 W

STERLING ID 83210

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 14, 1985; and has submitted Proof of Beneficial Use on June 6, 1989. An examination indicates that the works have a diversion capacity of 2.210 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	2.21 CFS	

LOCATION OF POINT(S) OF DIVERSION:

NESE , Sec. 32, Township 04S, Range 31E
BINGHAM County

PLACE OF USE: IRRIGATION

04S	31E	32	SENE 38	NESE 37	SESE 39	114

Total number of acres irrigated: 114

CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.
5. This right to divert groundwater shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual diversion volume of 456.0 af for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 12TH day of OCTOBER, 1995.

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant Donald Dempster Phone 397-4886

Post office address 1184 South 2700 West, Sterling, ID 83210

2. Source of water supply Groundwater which is a tributary of _____

3. Location of point of diversion is NE SE SW SE $\frac{1}{4}$ of Section 32 Township 4 South

Range 31 E. B.M. Bingham County, additional points of diversion if any: _____

*Changes made by James E. Glarborg, attorney for applicant)

4. Water will be used for the following purposes:

Amount 2.4 cfs for irrigation of crops purposes from April 1 to Nov. 1 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 2.7 2.40 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Well and pump

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 12" inches; proposed depth of well is 150 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial

use is One years (minimum 1 year - maximum 5 years). Well drilled and in operation on or about May 4, 1981

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____

Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

MICROFILMED

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 35-8593 , and said application is hereby APPROVED .

1. Approval of said application is subject to the following limitations and conditions:
- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
 - b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1 , 19 90 .
 - c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
 - d. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
The maximum rate of diversion for irrigation purposes under this permit shall not exceed 2.4 cfs.
Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 19th day of April , 1989.

MEMORANDUM

TO: File 35-08593 / Donald Dempster
FROM: Brenda Chapman
DATE: October 11, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 35-08593 are based on the information below:

Based on information from the SRBA staff in the Eastern Regional Office, this permit will be recommended as a supplemental groundwater right. The enclosed map of Sections 32 and 33 shows how Aberdeen Springfield Canal Co. water is co-mingled with groundwater by being pumped from the holding pond in Section 33 into the system's groundwater mainline that irrigates the acres in Section 32.

F. FLOW CALCULATIONS

The recommended rate (also capacity) has been reduced based on an adjustment to the theoretical calculation. The efficiency rating has been changed to the standard .7. The pumping level is acceptable because it is just an average for the area.

$$\frac{8.8 \times .7 \times 75 \text{ hp}}{70' + (2.31 \times 60 \text{ psi})} = 2.21 \text{ cfs}$$

MEMORANDUM

TO: FILE/APPLICATION NO.

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 11-27-89

=====

This application was among those applications reviewed in the regional offices last year and recommended for out of sequence processing. This application includes a statement and sufficient supporting evidence concerning development of the project prior to October 1, 1984.

The department's Policy and Implementation Plan for Processing Water Rights in the Swan Falls Area provides for applications to be processed out of sequence if the development was completed prior to October 1, 1984 and the application filed prior to July 1, 1985. These filings are not required to be processed in sequence with other trust water filings because the effect of these filings have already occurred and because, due to subordination, the filings are not taking water held in trust. These filings are not subject to the staged development policy and public interest criteria of Section 42-203C, Idaho Code.

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 525-7161, or in person in the third floor State Office Building, 150 Shoup, Idaho Falls, Idaho.

Sincerely,

KEITH C. WILSON
Sr. Resource Agent

RE: PERMIT NO. 35-08593

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Application for Permit No. 35-08593

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 35-08593. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

RE: APPLICATION FOR PERMIT NO. 35-8593

Dear Applicant:

The department is now beginning the processing of applications which have been held as a result of the Swan Falls controversy. In connection with this processing, the department requests the information described below.

From the department's review of the above referenced water right application, it appears the application is only subject to the usual water right processing described in Section 42-203A, Idaho Code, and is not subject to the public interest criteria processing required of some applications in the Swan Falls settlement.

The department asks that you advise us within 15 days of this letter if you no longer have a continued interest in developing a water right as proposed by the application. If you do not respond in this time period, the department will proceed with the usual processing of the application including advertisement.

Please feel free to contact the department if you have questions.

Sincerely,

Ronald D. Carlson
Eastern Regional Manager

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder Donald Dempster
b) Post Office Address 1184 South 2700 West Sterling, Idaho 83210
2. Permit Number _____
3. Date of Priority that you are prepared to establish May 4, 1981
4. a) Source from which water was appropriated groundwater - drilled well Snake River
b) Location of the point of diversion: NE 1/4 SE 1/4, Section 32 Acquifer
Township 4 South, Range 31 East Boise Meridian, Other points of diversion:
5. a) The amount of water and use to which the water has been applied:
amount 2.7 2.4 for crop irrigation purposes from April 1 to Nov. 1 incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)
amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)
amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)
b) Total amount appropriated _____ cfs and/or acre feet per annum
c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: Rate of flow determined by Funk
Irrigation by measurement at time of installation with system
in full operation.
6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:
a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use: not applicable
b) Describe the agreement or understanding by which you take water from the works: not applicable
7. a) Briefly describe the works for diverting and conveying the water to the place of use, (If from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) 150 ft well with 12" casing and
40 ft lift, 75 horsepower motor with 4 stage 12 GMC bowl
assembly, 85ft 10" x 2" x 1 1/2" column tube and shaft
b) Describe the type and size of measuring device which you have installed at your point of diversion: _____
c) Give well drillers name and address and date the well was completed Ken Vollmer, d.b.a.
Vollmer Well Drilling, Box Z, Aberdeen, Idaho 83210 drilled the
well and completed it on May 4, 1981.

AFFIDAVIT

Donald Dempster, a married man of 1184 South 2700 West, Sterling, Idaho 83210, being duly sworn does state the following facts:

1. In 1981, I contracted with Vollmer Well Drilling to drill a well on the following described parcel of land in Bingham County, Idaho:

The NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 32, Township 4 South, Range 31, East Boise Meridian

2. On or about May 4, 1981 the well, having a 12" casing drilled to a depth of 150 ft. with a lift of 40 ft., was completed by Vollmer Well Drilling and payment for the well in the amount of \$5,498.00 was made.

3. A 75 horsepower pump with mainline was purchased from and installed by Funk Irrigation of American Falls, Idaho, and payment for this irrigation pump, system and installation was made on May 3, 1981 in the amount of \$19,150.60. Capacity of this system is 1200 gal. per minute.

4. An Irrigation Electric Service Agreement was signed with Idaho Power on April 8, 1981, a copy of which is attached to this Affidavit. This Agreement with Idaho Power was specific to the irrigation well herein described.

5. Since commencement of the pumping of irrigation water from the well on or about May 4, 1981, the following described acreage has been irrigated:

The East Half of the Southeast Quarter (E $\frac{1}{2}$ SE $\frac{1}{4}$), together with the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$), all of Section 32, Township 4 South, Range 31 East Boise Meridian in Bingham County.

DATED this 12 day of June, 1985.

Connected Load: 75 H.P. 240/480 Volts 3 Phase 4 Wire
H.P. Volts Phase Wire

Don Dempster Sterling, Idaho 83210
(Name) (Mailing Address)

herein called Customer, agrees to receive and pay for, and IDAHO POWER COMPANY, herein called Company, agrees to supply electric service to the amount of 75 HP, in the form of three phase alternating current at approximately 60 cycles per second and approximately 240/480 volts, within a range of plus five and eight tenths percent (5.8%) to minus eight percent (8.0%) at sustained voltage level (voltage level may vary in excess of this range due to switching operations, motor starting, etc.), for Customer's Pumping irrigation operations, at or near Aberdeen, in Bingham County, State of Idaho for a term of 7 year(s) from and after the beginning of the irrigation season, 1981, in accordance with and subject to the Company's rules and regulations and Schedule No. 24, as now or hereafter in effect at the time of delivery of service. The point of delivery of power shall be where the Company's wires or apparatus are connected with those of the Customer at or near NEt of Section 32 T. 4S R. 31 EB M.

All payments shall be made at Company's office at American Falls. The Customer agrees to pay, regardless of the amount of power actually consumed, the minimum charges as provided in the rate schedule, rules and regulations applicable to service hereunder. A copy of the rate schedule and the rules and regulations as now in effect are attached hereto as part of this agreement.

It is understood and agreed that the initial date of delivery of power and energy under this agreement is subject to the Company's ability to obtain required labor, materials, equipment, satisfactory rights-of-way and comply with governmental regulations.

In consideration of the special investment to be made by the Company in extending its lines and facilities to supply the Customer's pumping power service requirements, Customer guarantees a minimum annual* payment in the amount of \$ 1725.00 to the Company during the term of this contract, such annual minimum to run with the land and pumping power service hereinabove referred to and to be payable by the Customer's successors or assigns as a condition of service during the term of this agreement.

*The annual period hereunder shall be the twelve month period beginning March 1 of each year.

Customer further agrees to make an additional cash payment to the Company thirty (30) days prior to construction, which, based upon the minimum annual payment agreed to above, is in the amount of \$ 1048.00. Such cash payment is subject to adjustment as provided in Schedule No. 71 - Overhead Line Extensions.
